On each Subsequent Purchase Date during the Revolving Period, the Issuer is, pursuant to the terms of the Receivables Purchase Agreement and subject to certain requirements set out therein obliged to purchase Additional Receivables offered by the Seller by applying the Available Principal Amount in accordance with the Pre-Enforcement Principal Priority of Payments. Certain characteristics of the Purchased Receivables and the Related Collateral are described under "DESCRIPTION OF THE PORTFOLIO" herein.

The Notes will be issued at the issue price indicated above on or about 29 January 2021 (the "Closing Date").

Such approval should not be considered as an endorsement of the quality of the Notes that are the subject to the Prospectus or an endorsement of the Issuer that is the subject of the Prospectus. Investors should make their own assessment as to the suitability of investing in the Notes. . The Prospectus contains some hyperlinks to websites, and the information on such websites, except where incorporated into the Prospectus by reference, does not form part of the Prospectus and has not been scrutinised or approved by the CSSF. Application has been made to the Luxembourg Stock Exchange for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. The Luxembourg Stock Exchange is a regulated market for the purposes Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU ("MiFID II").

The obligation of the Issuer to supplement this Prospectus will cease to apply once the Notes have been admitted to trading on the regulated market (segment for professional investors) of the Luxembourg Stock Exchange or at the latest upon expiry of the validity period of this Prospectus set out above.

For a discussion of certain significant factors affecting investments in the Notes, see "RISK FACTORS". The date of this Prospectus is 29 January 2021.

For reference to the definitions of capitalised words and phrases appearing herein, see "APPENDIX A - CERTAIN DEFINITIONS"

The Notes will be governed by the laws of the Federal Republic of Germany ("**Germany**").

Each of the Class A Notes and the Class B Notes will be initially represented by a temporary global note in bearer form (each, a "**Temporary Global Note**") without interest coupons attached. Each Temporary Global Note will be exchangeable, as described herein (see "*OUTLINE OF THE TRANSACTION — The Notes — Form and Denomination*") for a permanent global note in bearer form which is recorded in the records of Euroclear and Clearstream Luxembourg (as defined below) (each, a "**Permanent Global Note**", and together with the Temporary Global Notes, the "**Global Notes**" and each, a "**Global Note**") without interest coupons attached. Each Temporary Global Note will be exchangeable not earlier than 40 calendar days after the Closing Date, upon certification of non-U.S. beneficial ownership, for interests in a Permanent Global Note. The Global Notes representing the Class A Notes will be deposited with a common safekeeper (the "**Class A Notes Common Safekeeper**") appointed by the operator of the Euroclear System ("**Euroclear**") and Clearstream Banking S.A. ("**Clearstream Luxembourg**" and, together with Euroclear, the "**Clearing Systems**") on or prior to the Closing Date. The Class A Notes Common Safekeeper will hold the Global Notes representing the Class A Notes in custody for Euroclear and Clearstream Luxembourg. The Global Notes representing the Class B Notes will be deposited with a common safekeeper (the "**Class B Notes Common Safekeeper**" and together with the Class A Notes Common Safekeeper, the "**Common Safekeepers**" and each, a "**Common Safekeeper**") appointed by the operator of the Clearing Systems on or prior to the Closing Date. The Class B Notes Common Safekeeper will hold the Global Notes representing the Class B Notes in custody for Euroclear and Clearstream Luxembourg. The Notes represented by Global Notes may be transferred in book-entry form only. The Notes will have an initial principal amount of EUR 100,000. The Global Notes will not be exchangeable for definitive securities. See "*TERMS AND CONDITIONS OF THE NOTES — Form and Denomination*".

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with one of the Clearing Systems as Class A Notes Common Safekeeper and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

THE NOTES REPRESENT OBLIGATIONS OF THE ISSUER ONLY AND DO NOT REPRESENT AN INTEREST IN OR OBLIGATION OF THE INITIAL NOTEHOLDER, THE ARRANGER, THE SELLER, THE SERVICER (IF DIFFERENT), THE BACK-UP SERVICER FACILITATOR, THE SECURITY TRUSTEE, THE DATA TRUSTEE, THE PAYING AGENT, THE SETTLEMENT AGENT, THE CALCULATION AGENT, THE REPORTING AGENT, THE ACCOUNT BANK, THE LISTING AGENT, THE SUBORDINATED LOAN PROVIDER, ANY COMMON SAFEKEEPER OR ANY OF THEIR RESPECTIVE AFFILIATES OR ANY OTHER PARTY TO THE TRANSACTION DOCUMENTS (OTHER THAN THE ISSUER). NEITHER THE NOTES NOR THE UNDERLYING RECEIVABLES WILL BE INSURED OR GUARANTEED BY ANY GOVERNMENTAL AGENCY OR INSTRUMENTALITY OR BY THE INITIAL NOTEHOLDER, THE ARRANGER, THE SELLER, THE SERVICER (IF DIFFERENT), THE BACK-UP SERVICER FACILITATOR, THE SECURITY TRUSTEE, THE PAYING AGENT, THE SETTLEMENT AGENT, THE CALCULATION AGENT, THE REPORTING AGENT, THE ACCOUNT BANK, THE LISTING AGENT, THE SUBORDINATED LOAN PROVIDER, ANY COMMON SAFEKEEPER OR ANY OF THE RESPECTIVE AFFILIATES OR ANY OTHER PARTY TO THE TRANSACTION DOCUMENTS (OTHER THAN THE ISSUER) OR BY ANY OTHER PERSON OR ENTITY EXCEPT AS DESCRIBED HEREIN.

Class	Class Principal Amount	Interest Rate	Issue Price	Expected Ratings (Fitch / Moody's)	Final Maturity Date	ISIN (WKN)
A	EUR 466,200,000	0.30 %	100%	AA / Aa2	Payment Date falling on 29 December 2032	XS2279552520 (A3H3F0)
B	EUR 33,800,000	1.00 %	100%	No rating	Payment Date falling on 29 December 2032	XS2279552876 (A3H3F1)

Interest on the Class A Notes will accrue on the outstanding principal amount of each Class A Note at a per annum rate equal to 0.30%. Interest on the Class B Notes will accrue on the outstanding principal amount of each Class B Note at a per annum rate equal to 1.00%. Interest will be payable in euro by reference to successive interest accrual periods (each, an "**Interest Period**") monthly in arrears on the twenty-fifth (25th) day of each calendar month, unless such date is not a Business Day, in which case the Payment Date shall be the next succeeding Business Day (each, a "**Payment Date**"). The First Payment Date will be the Payment Date falling on 25 February 2021. "**Business Day**" means a day on which all relevant parts of the Trans-European Automated Real-time Gross Settlement Express Transfer System 2 ("**TARGET2**") are operational and on which commercial banks and foreign exchange markets are open or required to be open for business in Luxembourg, London, England, and Frankfurt am Main, Germany. See "*TERMS AND CONDITIONS OF THE NOTES — Payments of Interest*".

If any withholding or deduction for or on account of taxes should at any time apply to the Notes, payments of interest on, and principal in respect of, the Notes will be made subject to such withholding or deduction. The Notes will not provide for any gross-up or other payments in the event that payments on the Notes become subject to any such withholding or deduction on account of taxes. See "*TAXATION IN GERMANY*".

Amortisation of the Notes will commence on the Payment Date immediately falling after the end of the Revolving Period (as defined below, see "*APPENDIX A - CERTAIN DEFINITIONS — Revolving Period*"), which period commences on the Closing Date (inclusive) and ends on the earlier of (i) the Payment Date falling on the Scheduled Revolving Period End Date and (ii) the occurrence of an Amortisation Event or an Issuer Event of Default. Amortisation may also take place if the balance standing to the credit of the Principal Account Ledger exceeds 10% of the outstanding Class A Principal Amount during the Revolving Period (such amortisation to be on *pro rata* basis between the Class A Notes and the Class B Notes and such amortisation does not end the Revolving Period). During the Revolving Period, the Issuer is pursuant to the Receivables Purchase Agreement and subject to certain requirements set forth therein, obliged on each Subsequent Purchase Date to purchase Additional Receivables offered by the Seller by applying the Available Principal Amount. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption*".

Unless previously redeemed in full, the Notes will mature on the Payment Date falling in December 2032 (the "**Final Maturity Date**"). In addition, the Notes will be subject to partial redemption, early redemption and/or optional redemption before the Final Maturity Date in specific circumstances and subject to certain conditions. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption*". Any claims arising from the Notes, i.e. claims to interest and principal, cease to exist with the expiration of five (5) years after the Final Maturity Date, unless the Global Note representing such Class of Notes is submitted to the Issuer for redemption prior to the expiration of five (5) years after the Final Maturity Date, in which case, the claims will become time-barred after two (2) years beginning with the end of the period for presentation (ending five (5) years after the Final Maturity Date in accordance with the Terms and Conditions). The commencement of judicial proceedings in respect of the claim arising from a Global Note will have the same legal effect as the presentation of a Global Note.

The Class A Notes are expected, on issue, to be rated by Moody's Investors Service España, S.A. ("**Moody's**") and Fitch Ratings Ireland Limited ("**Fitch**" and together with Moody's, the "**Rating Agencies**"). It is a condition of the issue of the Class A Notes that they are assigned the ratings indicated in the above table. The Issuer has not requested a rating of the Class B Notes.

Each rating of the Class A Notes by Moody's and Fitch addresses the likelihood that the holders of the Class A Notes (together with the holders of the Class B Notes, the "**Noteholders**" and each, a "**Noteholder**") will receive all payments to which they are entitled, as described herein. The rating of Fitch takes into consideration the characteristics of the Purchased Receivables and the structural, legal, tax and Issuer- related aspects associated with the Class A Notes. The rating assigned by Moody's to the Class A Notes takes into account the risk of loss which may be incurred on the Class A Notes in proportion to the initial Class A Principal Amount to be borne by any Class A Noteholder by the Final Maturity Date. The Moody's rating addresses only the credit risks associated with this transaction. Each of the Rating Agencies is established in the European Community. According to the press release of the ESMA dated 31 October 2011 and the list of registered and certified rating agencies ("**List of Registered CRAs**") published by ESMA, Moody's and Fitch have been registered in accordance with Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended by Regulation (EU) No 513/2011 and by Regulation (EU) No 462/2013. Reference is made to the list of registered or certified credit rating agencies published by ESMA on the webpage <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs> as last updated on 4 January 2021. (see also the section entitled "**CRA III**" below).

However, the ratings assigned to the Class A Notes do not represent any assessment of the likelihood or level of principal prepayments. The ratings do not address the possibility that the holders of the Class A Notes might suffer a lower than expected yield due to prepayments or amortisation or may fail to recoup their initial investments.

The ratings assigned to the Class A Notes should be evaluated independently against similar ratings of other types of securities. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal by the Rating Agencies at any time.

The Issuer has not requested a rating of the Class A Notes by any rating agency other than the Rating Agencies and has not requested any rating of the Class B Notes; there can be no assurance, however, as to whether any rating agency other than the Rating Agencies will rate the Class A Notes or whether any rating agency will rate the Class B Notes or, if it does, what rating would be assigned by such rating agency. The rating assigned to the Class A Notes by such other rating agency could be lower than the respective ratings assigned by the Rating Agencies.

Regulatory Disclosure

On the Closing Date, the Originator will, as originator for the purposes of the Securitisation Regulation (as defined below), retain, for the life of the Transaction, a material net economic interest of at least 5% in the securitisation, as required by Article 6 of the Securitisation Regulation (which does not take into account any relevant national measures). As of the Closing Date, such interest will, in accordance with Article 6(3)(a) of the Securitisation Regulation, be retained through the holding of at least 5% of the nominal value of each of the Class A Notes and the Class B Notes. Any change to the manner in which such interest is held will be notified to investors.

The Originator (as originator for the purposes of the Securitisation Regulation) has been designated as "Reporting Entity" pursuant to Article 7 of the Securitisation Regulation (the "**Reporting Entity**"). For further details on the information to be disclosed by the Reporting Entity please see the section entitled "*COMPLIANCE WITH THE SECURITISATION REGULATION*".

Each prospective investor is required to independently assess and determine the sufficiency of the information described in the preceding two paragraphs for the purposes of complying with Article 5 of the Securitisation Regulation, and none of the Issuer,

the Originator (in its capacity as the Originator, the Seller and the Servicer), the Initial Noteholder or the Arranger makes any representation that the information described above is sufficient in all circumstances for such purposes. In addition, each prospective Noteholder should ensure that they comply with any implementing provisions in respect of Article 5 of the Securitisation Regulation in their relevant jurisdiction. Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator. The Originator accepts responsibility for the information set out in this paragraph and in the preceding two paragraphs.

As of the Closing Date, the Transaction is intended to meet the requirements for simple, transparent and standardised non-ABCP securitisations provided for by Articles 19 to 22 of the Securitisation Regulation (the "**STS Requirements**"). The compliance of the Transaction with the STS Requirements as of the Closing Date is expected to be verified by STS Verification International GmbH, in its capacity as third party verification agent authorised pursuant to Article 28 of the Securitisation Regulation. No assurance can be provided that the Transaction does or continues to qualify as an STS-securitisation under the Securitisation Regulation at any point in time in the future.

The Originator will notify the European Securities and Markets Authority ("**ESMA**") that the Transaction meets the STS Requirements in accordance with Article 27 of the Securitisation Regulation (the "**STS Notification**").

For more information on the compliance of the Transaction with the STS Requirements please see the section entitled "*COMPLIANCE WITH STS REQUIREMENTS*".

Compliance with the STS Requirements is not a recommendation to buy, sell or hold securities. It is not investment advice whether generally or as defined under Markets in Financial Instruments Directive (2014/65/EU) and it is not a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC).

The issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules other than the exemption under Section 20 of the U.S. Risk Retention Rules, and no other steps have been taken by the Issuer, the Originator, the Seller, the Servicer, the Arranger and the Initial Noteholder or any of their affiliates or any other party to accomplish such compliance.

No offer to retail investors

The Notes are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**").

For these purposes "retail investor" means a person who is one (or more) of the following: (a) a retail client as defined in point (11) of Article 4(1) of MiFID II or (b) a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II or (c) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended or superseded, the "**Prospectus Regulation**") and the term "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes. Consequently, no key information document required by (Regulation (EU) No. 1286/2014 (the "**PRIIPs Regulation**"), for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Solely for the purposes of the Initial Noteholder and the Seller's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II and any relevant implementing national laws; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the Initial Noteholder and the Seller's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the Initial Noteholder and the Seller's target market assessment) and determining appropriate distribution channels.

The Issuer is not, and solely after giving effect to any offering and sale of the Notes and the application of the proceeds thereof will not be, a "covered fund" for purposes of regulations adopted under Section 13 of the Bank Holding Company Act of 1956, as amended (commonly known as the "**Volcker Rule**"). In reaching this conclusion, although other statutory or regulatory exclusions and/or exemptions under the Investment Company Act and under the Volcker Rule and its related regulations may be available, the Issuer has relied on the determination that the Issuer would satisfy all of the elements of the loan securitisation exemption set out in Section 10(c)(8) of the Volcker Rule. Any prospective investor in the Notes, including a U.S. or foreign bank or a subsidiary or other affiliate thereof, should consult its own legal advisors regarding the Volcker Rule and its effects.

The Notes offered and sold by the Issuer may not be purchased by any person except for persons that are not "U.S. persons" as defined in the U.S. Risk Retention Rules ("**Risk Retention U.S. Persons**"). "**U.S. Risk Retention Rules**" means the final rules promulgated under Section 15G of the U.S. Securities Exchange Act of 1934, as amended. The definition of "U.S. person" in the U.S. Risk Retention Rules is substantially similar to, but not identical to, the definition of "U.S. person" in Regulation S. ACCORDINGLY, THE INITIAL NOTEHOLDER HAS FURTHER REPRESENTED AND AGREED THAT NEITHER IT,

ITS RESPECTIVE AFFILIATES NOR ANY PERSONS ACTING ON ITS OR THEIR BEHALF HAVE ENGAGED OR WILL ENGAGE IN ANY DIRECTED SELLING EFFORTS WITH RESPECT TO ANY NOTE.

IN ADDITION, BEFORE FORTY (40) CALENDAR DAYS AFTER COMMENCEMENT OF THE OFFERING, AN OFFER OR SALE OF NOTES WITHIN THE UNITED STATES BY A DEALER OR OTHER PERSON THAT IS NOT PARTICIPATING IN THE OFFERING MAY VIOLATE THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT.

THE INITIAL NOTEHOLDER HAS (I) ACKNOWLEDGED THAT THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE SECURITIES ACT AND MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT IN CERTAIN TRANSACTIONS EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT; (II) REPRESENTED AND AGREED THAT IT HAS NOT OFFERED, SOLD OR DELIVERED ANY NOTES, AND WILL NOT OFFER, SELL OR DELIVER ANY NOTES, (X) AS PART OF ITS DISTRIBUTION AT ANY TIME OR (Y) OTHERWISE BEFORE FORTY (40) CALENDAR DAYS AFTER THE LATER OF THE COMMENCEMENT OF THE OFFERING AND THE ISSUE DATE, EXCEPT IN ACCORDANCE WITH RULE 903 UNDER REGULATION S UNDER THE SECURITIES ACT; AND ACCORDINGLY, (III) FURTHER REPRESENTED AND AGREED THAT NEITHER IT, ITS AFFILIATES NOR ANY PERSONS ACTING ON ITS OR THEIR BEHALF HAVE ENGAGED OR WILL ENGAGE IN ANY DIRECTED SELLING EFFORTS WITH RESPECT TO ANY NOTE, AND THEY HAVE COMPLIED AND WILL COMPLY WITH THE OFFERING RESTRICTIONS REQUIREMENTS OF REGULATION S UNDER THE SECURITIES ACT, AND (IV) ALSO AGREED THAT, AT OR PRIOR TO CONFIRMATION OF ANY SALE OF NOTES, IT WILL HAVE SENT TO EACH DISTRIBUTOR, DEALER OR PERSON RECEIVING A SELLING CONCESSION, FEE OR OTHER REMUNERATION THAT PURCHASES NOTES FROM IT DURING THE DISTRIBUTION COMPLIANCE PERIOD A CONFIRMATION OR NOTICE TO SUBSTANTIALLY THE FOLLOWING EFFECT:

"THE SECURITIES COVERED HEREBY HAVE NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**") AND MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS BY ANY PERSON REFERRED TO IN RULE 903 (B)(2) (III) (X) AS PART OF THEIR DISTRIBUTION AT ANY TIME OR (Y) OTHERWISE UNTIL 40 CALENDAR DAYS AFTER THE LATER OF THE COMMENCEMENT OF THE OFFERING AND THE ISSUE DATE (THE "**DISTRIBUTION COMPLIANCE PERIOD**"), EXCEPT IN EITHER CASE IN ACCORDANCE WITH REGULATION S UNDER THE SECURITIES ACT. TERMS USED ABOVE HAVE THE MEANING GIVEN TO THEM BY REGULATION S UNDER THE SECURITIES ACT."

TERMS USED IN THE FOREGOING PARAGRAPH HAVE THE MEANING GIVEN TO THEM IN REGULATION S UNDER THE SECURITIES ACT.

NOTES WILL BE ISSUED IN ACCORDANCE WITH THE PROVISIONS OF UNITED STATES TREASURY REGULATION SECTION 1.163-5(C)(2)(I)(D) (OR SUCCESSOR RULES IN SUBSTANTIALLY THE SAME FORM) (THE "**TEFRA D RULES**").

FURTHER, THE INITIAL NOTEHOLDER HAS REPRESENTED AND AGREED THAT:

- (A) EXCEPT TO THE EXTENT PERMITTED UNDER THE TEFRA D RULES, (X) IT HAS NOT OFFERED OR SOLD, AND DURING THE RESTRICTED PERIOD WILL NOT OFFER OR SELL, DIRECTLY OR INDIRECTLY, NOTES IN BEARER FORM TO A PERSON WHO IS WITHIN THE UNITED STATES OR ITS POSSESSIONS OR TO A UNITED STATES PERSON, AND (Y) IT HAS NOT DELIVERED AND WILL NOT DELIVER, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES OR ITS POSSESSIONS DEFINITIVE NOTES IN BEARER FORM THAT ARE SOLD DURING THE RESTRICTED PERIOD;
- (B) IT HAS AND THROUGHOUT THE RESTRICTED PERIOD WILL HAVE IN EFFECT PROCEDURES REASONABLY DESIGNED TO ENSURE THAT ITS EMPLOYEES OR AGENTS WHO ARE DIRECTLY ENGAGED IN SELLING NOTES IN BEARER FORM ARE AWARE THAT SUCH NOTES MAY NOT BE OFFERED OR SOLD DURING THE RESTRICTED PERIOD TO A PERSON WHO IS WITHIN THE UNITED STATES OR ITS POSSESSIONS OR TO A UNITED STATES PERSON, EXCEPT AS PERMITTED BY THE TEFRA D RULES;
- (C) IF IT IS CONSIDERED A UNITED STATES PERSON, THAT IT IS ACQUIRING THE NOTES FOR PURPOSES OF RESALE IN CONNECTION WITH THEIR ORIGINAL ISSUANCE AND AGREES THAT IF IT RETAINS NOTES IN BEARER FORM FOR ITS OWN ACCOUNT, IT WILL ONLY DO SO IN ACCORDANCE WITH THE REQUIREMENTS OF UNITED STATES TREASURY REGULATION SECTION 1.163-5(C)(2)(I)(D)(6) (OR SUCCESSOR RULES IN SUBSTANTIALLY THE SAME FORM);
- (D) WITH RESPECT TO EACH AFFILIATE THAT ACQUIRES FROM IT NOTES IN BEARER FORM FOR THE PURPOSE OF OFFERING OR SELLING SUCH NOTES DURING THE RESTRICTED PERIOD THAT IT WILL EITHER (I) REPEAT AND CONFIRM THE REPRESENTATIONS AND AGREEMENTS CONTAINED IN SUB-CLAUSES (A), (B) AND (C) ON SUCH AFFILIATE'S BEHALF; OR (II) OBTAIN FROM SUCH AFFILIATE FOR THE BENEFIT OF THE INVESTOR IN THE NOTES AND THE ISSUER THE REPRESENTATIONS AND AGREEMENTS CONTAINED IN SUB-CLAUSES (A), (B) AND (C) ABOVE; AND

- (E) IT WILL OBTAIN FOR THE BENEFIT OF THE ISSUER THE REPRESENTATIONS AND AGREEMENTS CONTAINED IN SUB-CLAUSES (A), (B), (C) AND (D) ABOVE FROM ANY PERSON OTHER THAN ITS AFFILIATE WITH WHOM IT ENTERS INTO A WRITTEN CONTRACT, AS DEFINED IN UNITED STATES TREASURY REGULATION SECTION 1.163-5(C)(2)(I)(D)(4) (OR SUCCESSOR RULES IN SUBSTANTIALLY THE SAME FORM), FOR THE OFFER AND SALE DURING THE RESTRICTED PERIOD OF NOTES.

TERMS USED IN THE FOREGOING PARAGRAPH HAVE THE MEANINGS GIVEN TO THEM BY THE U.S. INTERNAL REVENUE CODE AND REGULATIONS THEREUNDER, INCLUDING THE TEFRA D RULES.

THE INITIAL NOTEHOLDER HAS REPRESENTED, WARRANTED AND AGREED WITH THE ISSUER IN RESPECT OF THE NOTES THAT IT HAS NOT OFFERED OR SOLD AND WILL NOT, OFFER OR SELL THE NOTES, DIRECTLY OR INDIRECTLY, TO RETAIL INVESTORS IN THE EUROPEAN ECONOMIC AREA AND HAS NOT DISTRIBUTED OR CAUSED TO BE DISTRIBUTED AND WILL NOT DISTRIBUTE OR CAUSE TO BE DISTRIBUTED TO RETAIL INVESTORS IN THE EUROPEAN ECONOMIC AREA, THE PROSPECTUS OR ANY OTHER OFFERING MATERIAL RELATING TO THE NOTES.

FOR THESE PURPOSES "**RETAIL INVESTOR**" MEANS A PERSON WHO IS ONE (OR MORE) OF THE FOLLOWING: (A) A RETAIL CLIENT AS DEFINED IN POINT (11) OF ARTICLE 4(1) OF MIFID II OR (B) A CUSTOMER WITHIN THE MEANING OF DIRECTIVE 2016/97/EU (AS AMENDED, THE "**INSURANCE DISTRIBUTION DIRECTIVE**"), WHERE THAT CUSTOMER WOULD NOT QUALIFY AS A PROFESSIONAL CLIENT AS DEFINED IN POINT (10) OF ARTICLE 4(1) OF MIFID II OR (C) NOT A QUALIFIED INVESTOR AS DEFINED IN REGULATION (EU) 2017/1129 (AS AMENDED OR SUPERSEDED, THE "**PROSPECTUS REGULATION**") AND THE TERM "**OFFER**" INCLUDES THE COMMUNICATION IN ANY FORM AND BY ANY MEANS OF SUFFICIENT INFORMATION ON THE TERMS OF THE OFFER AND THE NOTES TO BE OFFERED SO AS TO ENABLE AN INVESTOR TO DECIDE TO PURCHASE OR SUBSCRIBE THE NOTES.

THE INITIAL NOTEHOLDER HAS REPRESENTED, WARRANTED AND AGREED THAT:

- (A) IT HAS ONLY COMMUNICATED OR CAUSED TO BE COMMUNICATED AND WILL ONLY COMMUNICATE OR CAUSE TO BE COMMUNICATED ANY INVITATION OR INDUCEMENT TO ENGAGE IN INVESTMENT ACTIVITY (WITHIN THE MEANING OF SECTION 21 OF THE FINANCIAL SERVICES AND MARKETS ACT 2000 (THE "**FSMA**")) RECEIVED BY IT IN CONNECTION WITH THE ISSUE OF THE NOTES IN CIRCUMSTANCES IN WHICH SECTION 21 (1) OF THE FSMA DOES NOT APPLY TO THE ISSUER, AND
- (B) IT HAS COMPLIED AND WILL COMPLY WITH ALL APPLICABLE PROVISIONS OF THE FSMA WITH RESPECT TO ANYTHING DONE BY IT IN RELATION TO THE NOTES IN, FROM OR OTHERWISE INVOLVING THE UNITED KINGDOM.

IN THE FOREGOING PARAGRAPH, "**UNITED KINGDOM**" MEANS THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND.

This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities to which it relates or an offer to sell or the solicitation of an offer to buy any of the securities offered hereby in any circumstances in which such offer or solicitation is unlawful. This Prospectus does not constitute, and may not be used for, or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation. For a further description of certain restrictions on offerings and sales of the Notes and distribution of this Prospectus, or an invitation by, or on behalf of the Issuer or the Initial Noteholder to subscribe for or to purchase any of the Notes (or of any part thereof), see "SUBSCRIPTION AND SALE".

An investment in the Notes is only suitable for financially sophisticated investors who are capable of evaluating the merits and risks of such investment and who have sufficient resources to be able to bear any losses which may result from such investment.

It should be remembered that the price of securities and the income from them can go down as well as up.

RISK FACTORS

The following is an overview of certain factors which prospective investors should consider before deciding to purchase the Notes. While the Issuer believes that the following statements describe the material risk factors in relation to the Issuer and the material risk factors inherent to the Notes as of the date of this Prospectus, prospective investors are requested to consider all the information in this Prospectus, make such other enquiries and investigations as they consider appropriate and reach their own views prior to making any investment decisions.

The Notes will be solely contractual obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any of the Seller, the Servicer, the Back-Up Servicer Facilitator, the Security Trustee, the Data Trustee, the Paying Agent, the Settlement Agent, the Calculation Agent, the Reporting Agent, the Account Bank, the Initial Noteholder, the Arranger, the Listing Agent, the Common Safekeepers, the Subordinated Loan Provider or any other third person or entity.

Furthermore, no person other than the Issuer accepts any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amount due under the Notes.

1. Risks relating to the Issuer

(a) Risks relating to the Issuer's business activities and industry

(i) *Limited Resources of the Issuer*

The Issuer is a special purpose financing entity with no business operations other than the issue of the Notes and the purchase and financing of the Purchased Receivables. Therefore, the ability of the Issuer to meet its obligations under the Notes will depend, *inter alia*, upon receipt of:

- payments of principal and interest and certain other payments received as Collections under the Purchased Receivables pursuant to the Servicing Agreement and the Receivables Purchase Agreement;
- Deemed Collections (if due) from the Seller;
- proceeds of the realisation of the Note Collateral;
- interest (if any) earned on the amounts credited to the Accounts;
- amounts paid by any third party as purchase prices for Defaulted Receivables and any relevant Related Collateral; and
- payments (if any) under the other Transaction Documents in accordance with the terms thereof.

Other than the foregoing, the Issuer will have no funds available to meet its obligations under the Notes. If the Issuer does not receive all of those funds or not in the required amount (*including for any reason set out in these Risk Factors*), there is a risk that the Issuer is not able to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes, on the relevant Payment Date.

(ii) *Sharing with other creditors*

The proceeds of enforcement and collection of the Note Collateral created by the Issuer in favour of the Security Trustee will be used in accordance with the Post-Enforcement Priority of Payments to satisfy claims of all Beneficiaries thereunder. See "*APPENDIX B - THE MAIN PROVISIONS OF THE TRANSACTION SECURITY AGREEMENT — Post-Enforcement Priority Of Payments*".

(b) Risks relating to the Issuer's financial situation

Risk of Late Payment or Deferral of Payment

The Issuer is subject to the risk of insufficiency of funds as a result of late payment by a Debtor of an instalment due on a Receivable which would reduce the value of a Receivable for the Issuer. Further,

under the Servicing Agreement, the Servicer may, in specific circumstances, grant a deferral of the date on which certain payments are due under the Auto Loan Contracts. This results in a risk of late payment of instalments pursuant to the Auto Loan Contracts underlying the Purchased Receivables, which, in turn, results in the risk that the Issuer has insufficient funds on a Payment Date to make payments to Noteholders.

(c) Legal and Regulatory Risks

(i) Basel Capital Accord and regulatory capital requirements

The European authorities have now incorporated the Basel III framework into EU law, primarily through Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directive 2006/48/EC and 2006/49/EC (Capital Requirements Directive – "**CRD**"), as amended by Directive (EU) 2019/878 of 20 May 2019 (the "**CRD V**"), and the CRR, as amended by Regulation (EU) 2019/876 of 20 May 2019 (the "**CRR II**"). The changes under CRD V and CRR II which recently entered into force may have an impact on the capital requirements in respect of the Notes and/or on incentives to hold the Notes for investors that are subject to requirements that follow the relevant framework and, as a result, may affect the liquidity and/or value of the Notes.

Additionally, Regulation (EU) No 2015/61 of 10 October 2014 (the "**LCR Regulation**") sets out assumed asset inflow and outflow rates to better reflect actual experience in times of stress. On 19 November 2018, Delegated Regulation (EU) 2018/1620 amending the LCR Regulation (the "**Delegated Regulation**") entered into force, pursuant to which, *inter alia*, (i) the calculation of the expected liquidity outflows and inflows on repurchase agreements, reverse repurchase agreements and collateral swaps shall be aligned with the international liquidity standard developed by Basel Committee on Banking Supervision; (ii) the treatment of certain reserves held with third-country central banks shall be amended and (iii) transactions exposures of securitisations, which qualify as simple, transparent and standardised securitisations in accordance with the Securitisation Regulation, shall qualify as Level 2B high quality liquid assets, if they additionally fulfil the conditions laid down in Article 13 of the LCR Regulation. The Delegated Regulation applied as from 30 April 2020.

The above changes to the CRD, the LCR Regulation and the Delegated Regulation may have negative implications on the cost of regulatory capital for certain investors and thereby on the overall return from an investment in the Notes and the liquidity of the Notes. Therefore, investors should consult their own advisers as to the regulatory capital requirements in respect of the Notes and as to the consequences to and effect on them of any changes by the CRD V and CRR II in particular and the relevant implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

On 26 June 2020, Regulation (EU) 2020/873 of 24 June 2020 amending Regulations (EU) No 575/2013 and (EU) 2019/876 as regards certain adjustments in response to the COVID-19 pandemic was published in the Official Journal of the European Union and subsequently applied from 27 June 2020, with the exception of amendments to the calculation of the leverage ratio which will apply from 28 June 2021. This regulation makes targeted amendments to the CRR for purpose of allowing banks a degree of flexibility in their response to COVID-19 (as defined below).

There can be no guarantee that the regulatory capital treatment of the Notes for investors will not be affected by any future implementation of and changes to the CRD V, or other regulatory or accounting changes.

(ii) Risks from Reliance on Certification by True Sale International GmbH

True Sale International GmbH ("**TSI**") grants a registered certification label if a special purpose vehicle complies with certain TSI conditions. These conditions are intended to contribute that securitisations involving a German special purpose vehicle adhere to certain quality standards. The label "**CERTIFIED BY TSI — DEUTSCHER VERBRIEFUNGSSTANDARD**" thus indicates that standards based on the conditions established by TSI have been met. Nonetheless, the TSI certification is not a recommendation

to buy, sell or hold securities. Certification is granted on the basis of the originator's or issuer's declaration of undertaking to comply with the main quality criteria of the "*CERTIFIED BY TSI — DEUTSCHER VERBRIEFUNGSSTANDARD*" label, in particular with the lending and servicing standards and disclosure requirements throughout the duration of the transaction. The certification does not represent any assessment of the expected performance of the underlying loans portfolio or the Notes. For a more detailed explanation, see "*CERTIFICATION BY TRUE SALE INTERNATIONAL GMBH*".

TSI has carried out no other investigations or surveys in respect of the Issuer or the Notes and disclaims any responsibility for monitoring the Issuer's continuing compliance with these standards or any other aspect of the Issuer's activities or operations. Investors should therefore not evaluate their investments in the Notes on the basis of this certification and must undertake their own analysis of the transaction.

(iii) EU Risk Retention and Transparency Requirements, and Due Diligence Requirements under the Securitisation Regulation

The Securitisation Regulation has applied to new note issuances since 1 January 2019. The Securitisation Regulation lays down a general framework for securitisation and defines securitisation and establishes due-diligence, risk-retention and transparency requirements for parties involved in securitisations, criteria for credit granting, requirements for selling securitisations to retail clients, a ban on re-securitisation, requirements for securitisation special purpose entities ("**SSPEs**") as well as conditions and procedures for securitisation repositories. Further, it creates a specific framework for simple, transparent and standardised ("**STS**") securitisations. It is applicable to institutional investors and to originators, sponsors, original lenders and securitisation special purpose entities.

Investors, to which the Securitisation Regulation is applicable, should make themselves aware of the requirements of the Securitisation Regulation, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes.

The Securitisation Regulation replaced the former risk retention requirements by one single provision, Article 6 of the Securitisation Regulation, which provides for a new direct obligation on originators to retain risk. Article 5(1)(c) of the Securitisation Regulation requires institutional investors as defined in Article 2(12) of the Securitisation Regulation (which term also includes an insurance or reinsurance undertaking as defined in the Solvency II Regulation and an alternative investment fund manager as defined in the AIFMR) to verify that, if established in the European Union, the originator, sponsor or original lender retains on an ongoing basis a material net economic interest in accordance with Article 6 of the Securitisation Regulation and the risk retention is disclosed to the institutional investor in accordance with Article 7(1)(e) of the Securitisation Regulation.

The Originator will covenant under the Subscription Agreement that it will, as originator for the purposes of the Securitisation Regulation, retain, for the life of the Transaction, a material net economic interest of at least 5% in the securitisation, as required by Article 6 of the Securitisation Regulation. As of the Closing Date, such interest will, in accordance with Article 6(3)(a) of the Securitisation Regulation, be retained through the holding of at least 5% of the nominal value of each of the Class A Notes and the Class B Notes. Any change to the manner in which such interest is held will be notified to investors.

The outstanding balance of the retained exposures may be reduced over time by, amongst other things, amortisation and allocation of losses or defaults on the underlying Purchased Receivables.

It should be noted that there is no certainty that references to the retention obligations of the Originator in this Prospectus will constitute explicit disclosure (on the part of the Originator) or adequate due diligence (on the part of the Noteholders) for the purposes of Article 5 of the Securitisation Regulation.

Article 5 of the Securitisation Regulation places an obligation on institutional investors (as defined in the Securitisation Regulation) before investing in a securitisation and thereafter, to analyse, understand and stress test their securitisation positions and monitor on an ongoing basis in a timely manner performance information on the exposures underlying their securitisation positions. The Reporting Agent shall assist the Originator to comply with the EU Transparency Requirements, and will prepare Investor Reports (on a monthly basis) wherein relevant information with regard to the Purchased Receivables will be disclosed

publicly together with an overview of the retention of the material net economic interest by the Originator in accordance with Article 7 of the Securitisation Regulation.

Where the relevant retention requirements are not complied with in any material respect and there is negligence or omission in the fulfilment of the due diligence obligations on the part of a credit institution that is investing in the Notes, a proportionate additional risk weight of no less than 250 per cent. of the risk weight (with the total risk weight capped at 1250 per cent.) which would otherwise apply to the relevant securitisation position will be imposed on such credit institution, progressively increasing with each subsequent infringement of the due diligence provisions.

If the Originator does not comply with its obligations under Article 6 of the Securitisation Regulation, the ability of the Noteholders to sell and/or the price investors receive for, the Notes in the secondary market may be adversely affected.

Following the issuance of the Notes, relevant investors, to which the Securitisation Regulation is applicable, are required to independently assess and determine the sufficiency of the information described above for the purposes of complying with Article 5 of the Securitisation Regulation.

Noteholders should take their own advice and/or seek guidance from their regulator on compliance with, and the application of, the provisions of Article 6 of the Securitisation Regulation in particular.

(iv) Simple, Transparent and Standardised Securitisations

Although the Transaction has been structured to comply with the requirements for simple, transparent and standardised securitisations transactions as set out in Articles 20, 21 and 22 of the Securitisation Regulation, the Transaction will be verified by STS Verification International GmbH on the Closing Date, there can be no guarantee that it maintains this status throughout its lifetime. Noteholders and potential investors should verify the current status of the Transaction on the website of ESMA. Non-compliance with the Securitisation Regulation and the CRR Amendment Regulation may result in higher capital requirements for investors as an investment in the Notes would not benefit from Articles 243, 260, 262 and 264 of the CRR.

Furthermore, following STS classification, any non-compliance could result in various administrative sanctions and/or remedial measures being imposed on the Issuer which may be payable or reimbursable by the Issuer. As the Pre-Enforcement Priority of Payments and the Post-Enforcement Priority of Payments, and the Transaction Documents, do not foresee or contemplate a payment or reimbursement of the Issuer of any of such administrative sanctions and/or remedial measures, the repayment or redemption of the Notes may be adversely affected thereby. As the STS status of the Transaction as described in this Prospectus is not static, investors should verify the current status of the Transaction on the ESMA website. Non-compliance with the Securitisation Regulation and the CRR Amendment Regulation may result in higher capital requirements for investors as an investment in the Notes would not benefit from Articles 260, 262 and 264 of the CRR.

On 28 December 2017 Regulation (EU) 2017/2401 amending Regulation (EU) 575/2013 was published in the Official Journal of the European Union which implements the revised securitisation framework developed by Basel Committee on Banking Supervision into the CRR (the "**CRR Amendment Regulation**").

(v) CRA III

On 31 May 2013, the finalised text of Regulation (EU) No 462/2013 ("**CRA III**") of the European Parliament and of the European Council amending Regulation (EC) No 1060/2009 ("**CRA**") on credit rating agencies was published in the Official Journal of the European Union.

CRA III introduced a requirement that where an issuer or related third parties (which term includes sponsors and originators) intends to solicit a credit rating of a structured finance instrument it will appoint at least two credit rating agencies to provide ratings independently of each other and should consider appointing at least one rating agency having not more than a 10% total market share (as measured in accordance with Article 8d(3) of the CRA (as amended by CRA III)) (a small CRA), **provided that a**

small CRA is capable of rating the relevant issuance or entity. Where the issuer or a related third party does not appoint at least one credit rating agency with no more than 10% market share, this must be documented. In order to give effect to those provisions of Article 8d of CRA III, ESMA is required to annually publish a list of registered CRAs, their total market share, and the types of credit rating they issue. The Originator considered the appointment of several CRAs including a CRA having a less than 10% total market share and concluded that the most appropriate CRAs to rate the Class A Notes are Moody's and Fitch. As there is no guidance on the requirements for any such documentation there remains some uncertainty whether the Issuer's documentation efforts will be considered sufficient for these purposes and what the consequences of any con-compliance may be for investors in the Notes.

Noteholders should consult their own professional advisers to assess the effects of such EU regulations on their investment in the Notes.

(vi) U.S. Risk Retention

The U.S. Risk Retention Rules came into effect on 24 December 2016 and generally require the "sponsor" of a "securitization transaction" to retain at least 5% of the "credit risk" of the "securitized assets", as such terms are defined for purposes of that statute, and generally prohibit a sponsor from directly or indirectly eliminating or reducing its credit exposure by hedging or otherwise transferring the credit risk that the sponsor is required to retain. The U.S. Risk Retention Rules also provide for certain exemptions from the risk retention obligation that they generally impose.

The transaction will not involve risk retention by the Originator for the purposes of the U.S. Risk Retention Rules, but rather will be made in reliance on an exemption provided for in Section 20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10% of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitisation transaction are sold or transferred to U.S. persons (in each case, as defined in the U.S. Risk Retention Rules) or for the account or benefit of U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this Prospectus as "**Risk Retention U.S. Persons**"); (3) neither the sponsor nor the issuer of the securitisation transaction is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25% of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

The Transaction provides that the Notes may not be purchased by Risk Retention U.S. Persons. Prospective investors should note that the definition of U.S. person in the U.S. Risk Retention Rules is different from the definition of U.S. person under Regulation S under the Securities Act and that an investor could be a Risk Retention U.S. Person but not a U.S. person under Regulation S.

Each prospective investor will be required to make certain representations as a condition to purchasing the Notes and each of the Issuer, the Originator and the Seller will rely on these representations.

The consequences of non-compliance with the U.S. Risk Retention Rules are unclear, but investors should note that the liquidity and/or value of the Notes could be adversely affected by any such non-compliance.

(vii) Risks from Reliance on Verification "verified – STS VERIFICATION INTERNATIONAL" by STS Verification International GmbH

STS Verification International GmbH ("**SVI**") has been authorised by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*) as third party verification agent pursuant to Article 28 of the Securitisation Regulation. SVI grants a registered verification label "verified – STS VERIFICATION INTERNATIONAL" if a securitisation complies with the requirements for simple, transparent and standardised securitisation as set out in Articles 19 to 22 of the Securitisation Regulation ("**STS Requirements**"). The aim of the Securitisation Regulation is to restart high-quality securitisation markets, and the intention of implementing a framework for simple, transparent and standardised transactions with corresponding STS criteria shall contribute to this. However, it should be noted that the SVI verification does not affect the liability of such originator or special purpose vehicle

in respect of their legal obligations under the Securitisation Regulation. Furthermore, the use of such verification by SVI shall not affect the obligations imposed on institutional investors as set out in Article 5 of the Securitisation Regulation. Notwithstanding confirmation by SVI which verifies compliance of a securitisation with the STS Requirements, such verification by SVI does not ensure the compliance of a securitisation with the general requirements of the Securitisation Regulation.

For a more detailed explanation see "*VERIFICATION BY SVI*".

SVI has carried out no other investigations or surveys in respect of the issuer or the notes concerned other than as such set out in SVI's final Verification Report and disclaims any responsibility for monitoring the issuer's continuing compliance with these standards or any other aspect of the issuer's activities or operations. Furthermore, SVI has not provided any form of advisory, audit or equivalent service to the issuer.

Investors should therefore not evaluate their notes investments on the basis of this certification.

(viii) Brexit

Pursuant to a referendum held in June 2016, the UK has voted to leave the European Union and on 29 March 2017 officially notified the European Union of its decision to withdraw from the European Union. This commenced the formal two-year process of negotiations regarding the terms of the withdrawal and the framework of the future relationship between the UK and the European Union (the "**article 50 withdrawal agreement**"). Under the terms of the ratified article 50 withdrawal agreement, a transition period commenced which lasted until 31 December 2020. During this period, most European Union rules and regulations continued to apply to and in the UK.

On December 24, 2020 the UK and EU agreed to a trade deal (the "**Trade and Cooperation Agreement**"). The Trade and Cooperation Agreement was ratified by the UK Parliament on 30 December 2020 and awaits ratification by the European Parliament and subsequent adoption by the Council of the European Union before it formally comes into effect. The European Parliament will consider the draft in early 2021. There are still a number of areas of uncertainty in connection with the future of the UK and its relationship with the EU and the application and interpretation of the Trade and Cooperation Agreement, and Brexit-related matters may take several years to be clarified and resolved. In particular, the Trade and Cooperation Agreement only covers the trade of goods and, therefore, uncertainly remains over the UK's long-term trading of services relationship with the EU. The UK may still face barriers to trade and commerce (including the provision of financial and other services) with the Member States of the EU and may still lose its present rights to the global trade deals negotiated by the EU on behalf of its members, which may in turn diminish overall economic activity between the UK and the EU and the UK and its global trade partners.

Given the ongoing political uncertainty as regards the structure of the future relationship between the UK and the European Union, the uncertainty and the range of possible outcomes, it is currently impossible to determine the impact that Brexit, the Trade and Cooperation Agreement and/or any related matters may have on general economic conditions in the UK and the European Union. Accordingly, no assurance can be given that any of the matters outlined above would not adversely affect the ability of the Issuer to satisfy its obligations under the notes and/or the market value and/or liquidity of the notes in the secondary market.

(ix) No Right in Auto Loan Contracts

The ownership of a Note does not confer any right to, or interest in, any Auto Loan Contract or any right against any Debtor or any third party under or in connection with any Auto Loan Contract or against the Seller or the Servicer. The Issuer is solely reliant on receiving amounts due on the Purchased Receivables in order to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes.

(x) German Insurance Contract Act

Sections 8 and 9 of the German Insurance Contract Act (*Versicherungsvertragsgesetz*) contain statutory withdrawal rights applicable to insurance contracts. The relevant withdrawal right is exercisable for a period of two (2) weeks (thirty (30) calendar days in case of life insurance) after the policy holder has been properly notified of such right and provided with certain other information and documents. The withdrawal right applies to insurance contracts entered into by consumers as well as non-consumers and, pursuant to Section 9 (2) of the German Insurance Contract Act, also affects related contracts. However, unlike the definition of related contracts included in Section 360 (2) of the German Civil Code (*Bürgerliches Gesetzbuch*), the definition of related contracts set forth in Section 9 (2) of the German Insurance Contract Act does not provide for specific provisions under which consumer loan agreements are to be qualified as related contracts. The omission of the relevant provisions could be interpreted to the effect that consumer loan agreements which explicitly identify and serve to finance the relevant insurance contract in deviation from Section 360 (2) of the German Civil Code (*Bürgerliches Gesetzbuch*) do not qualify as related contracts for the purposes of Section 9 (2) of the German Insurance Contract Act unless the other requirements set out therein are also met. To date, neither this interpretation of Section 9 (2) of the German Insurance Contract Act nor its interaction with Sections 358 and 360 of the German Civil Code (*Bürgerliches Gesetzbuch*) (as applicable) have been the subject matter of in depth judicial review or analysis by legal commentators. It is also unclear whether Section 9 (2) of the German Insurance Contract Act would apply to the withdrawal of a group insurance contract (*Gruppenversicherungsvertrag*) exercised by the insured person (*versicherte Person*) rather than the policy holder (*Versicherungsnehmer*). Currently, it cannot be ruled out that a Debtor may raise the withdrawal of its consent to a Relevant Insurance Policy (including, but not limited to, any payment protection insurance policy (*Restschuldversicherung*)) as a defence against its obligations under the Auto Loan Contract. In such case, however, the Issuer would be entitled to receive Deemed Collections from the Seller (see the definition of Deemed Collections in "APPENDIX A - CERTAIN DEFINITIONS — Deemed Collection"). Noteholders may nevertheless suffer losses if the Seller is unable to make payments of such Deemed Collections to the Issuer.

(xi) Prepayment of Loans

Pursuant to Section 500 para. 2 of the German Civil Code (*Bürgerliches Gesetzbuch*), the borrower may in case of a consumer Auto Loan Contract prepay the loan (*vorzeitige Rückzahlung*) in whole or in part at any time. In addition, the borrower may terminate the loan agreement at any time without observing a notice period for good cause (*aus wichtigem Grund*). Moreover, the content of a consumer loan contract is subject to certain formal minimum details, including with respect to term and termination rights or maturity date (Sections 494 *et seqq.* of the German Civil Code), lack of which may grant the borrower a right to terminate the consumer loan contract at any time. A borrower may also be entitled to terminate a consumer loan contract if the agreed interest rates are adjusted to market rates due to the lender's breach of its obligation to conduct a credit assessment with respect to the borrower (Sections 505d (1), 505a (1) of the German Civil Code). In case of a prepayment, the Issuer would receive interest on such loan for a shorter period of time than initially anticipated, which could impact the amount available to the Issuer to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes.

The Auto Loan Contracts provide for an obligation of the Debtor to pay a prepayment penalty (*Vorfälligkeitsentschädigung*) in accordance with Section 502 of the German Civil Code (*Bürgerliches Gesetzbuch*). In the event of a termination and prepayment of a loan, the Issuer would therefore be entitled to claim compensation from the Debtor for the interest which would have been payable by the Debtor on the prepaid amount had such amount been outstanding for the remainder of the term of the loan pursuant to and as provided for in Section 502 of the German Civil Code (*Bürgerliches Gesetzbuch*). In accordance with Section 502 para. 1 sentence 2 of the German Civil Code (*Bürgerliches Gesetzbuch*) such prepayment penalty may not exceed the following amounts: (i) 1% or, if the period between the prepayment and the agreed repayment date (*vereinbarte Rückzahlung*) is no longer than one year, 0.5% of the prepaid amount; and (ii) the amount of interest that the borrower would have paid for the period between the prepayment and the agreed repayment date. The prepayments of loans would, *inter alia*, reduce the excess spread following such prepayments.

In addition, faster than expected rates of prepayments on the Purchased Receivables in combination with any issue price on the class A Notes above par may affect the yield of the class A Noteholders and may result in a negative yield.

(xii) Over-collateralisation of Loans

According to German law, the granting of security for a loan may be held invalid and the security or part of the security may have to be released if the loan is over-collateralised. Over-collateralisation occurs where the creditor is granted collateral the value of which excessively exceeds the value of the secured obligations or if the granting of security leads to an inappropriate disadvantage for the debtor. Although there is no direct legal authority on point, the Issuer is of the view that the Purchased Receivables are not overcollateralised, although it cannot be ruled out that a German court would hold otherwise. Some German courts have for instance held that an assignment of wage claims in addition to other security interests provided for the same secured obligation may be invalid due to over-collateralisation under certain circumstances. In the Receivables Purchase Agreement, the Seller has warranted to the Issuer that the Related Collateral relating to Purchased Receivables is legal, valid, binding and enforceable which should mitigate this risk. However, if a German court were to hold that the Purchased Receivables are over-collateralised there is a risk that Noteholders may be adversely affected.

(xiii) Change of Law

The structure of the Notes and the underlying transaction (including the Transaction Security Agreement, the Receivables Purchase Agreement and the other Transaction Documents governed by German law), the Auto Loan Contracts underlying the Purchased Receivables and the Related Collateral as well as the ratings which are to be assigned to any Class of Notes are based on German law in effect as at the date of this Prospectus as applied by the courts and other competent authorities of Germany. No assurance can be given as to the impact of any possible change of German law, the interpretation thereof or judicial or administrative practice after the date of this Prospectus.

The Irish Security Deed is governed by Irish law in effect as at the date of this Prospectus as applied by the courts and other competent authorities of Ireland. No assurance can be given as to the impact of any possible change of Irish law, the interpretation thereof or judicial or administrative practice after the date of this Prospectus.

(xiv) Recharacterisation of the Irish Law Collateral as a Floating Charge

Pursuant to the Irish Security Deed, the Issuer has, as a continuing security for the discharge and payment of Transaction Secured Obligations, charged (or to the extent not chargeable, assigns) absolutely by way of first fixed charge to the Security Trustee all of its right, title, interest and benefit, present and future, in and to all of its benefits in the Accounts and the amounts standing to the credit of the Accounts from time to time. Whether this charge will be upheld as a fixed charge rather than a floating charge will depend, among other things, on whether the Security Trustee has under the respective agreement real control over the Issuer's ability to deal with the relevant assets and their proceeds and, if so, whether such control is exercised by the Security Trustee in practice. If the courts consider that the elements required to establish the creation of a fixed charge have not been satisfied in respect of the security, the Issuer would expect the security to be recharacterised as a floating charge. The claims of the Security Trustee under any fixed charge which is recharacterised as a floating charge will be subject to any preferential creditors and insolvency or equivalent expenses which are given priority over a floating charge by applicable law. Floating charges also have weak priority against purchasers (who are not on notice of any negative pledge contained in the floating charge) and chargees of the assets concerned and against lien holders, execution creditors and creditors with rights of set-off as a matter of Irish law.

(xv) Licence Requirement of the Security Trustee under the German Legal Services Act

Legal services which are provided by a person for the benefit of another person (*Tätigkeit in konkreten fremden Angelegenheiten*) are subject to the restrictions of the German Legal Services Act (*Rechtsdienstleistungsgesetz*) ("**RDG**") if the relevant service requires in each case individual legal analysis (*rechtliche Prüfung des Einzelfalls*), as set out in Section 2 (1) of the RDG. The collection of receivables (*Einziehung von Forderungen*) is expressed to be a legal service within the meaning of the

RDG if rendered as an independent business (*eigenständiges Geschäft*) pursuant to Section 2 (2) of the RDG. Any appointment of a service provider and any Collateral granted and any agreement entered into in violation of such registration requirement may be void and may also lead to the relevant service provider being fined and prohibited from further performing such contravening services. Depending on the relevant activities of the Security Trustee in connection with the enforcement of the Collateral following an Issuer Event of Default, the Security Trustee may be regarded as acting as collection agent for the Beneficiaries with the consequence that the restrictions of the RDG could apply. In addition, the above considerations may become relevant in case of the appointment of a back-up servicer.

With respect to the Security Trustee, the Issuer has been advised, however, that as of the date of the Transaction Security Agreement, the Security Trustee will not be subject to the requirement to register under the German Legal Services Act solely by entering into the Transaction Security Agreement as the Security Trustee has its own claim against the debtors of the security granted to the Security Trustee under the Transaction Security Agreement and, accordingly, when enforcing the security, it also does so in order to satisfy its own claim. Further, even if the services provided by the Security Trustee were to be regarded as legal services within the meaning of the German Legal Services Act, such services would be permitted to be performed without registration provided that these services are services ancillary to the profession or activity (*Nebenleistung zum Berufs- oder Tätigkeitsbild*) whereby an ancillary activity requires only a thematic interrelation to the profession rather than a direct connection. Any enforcement services conducted by a security trustee should, in general, not qualify as main business of a security trustee as the main task of a security trustee is rather to hold and administer the security and when enforcing security, it does so only in the event of default or a similar event. The Security Trustee should, therefore, be exempt from the registration requirement under German Legal Services Act. In the absence of an express court precedent or developed rule, there remains some legal uncertainty with respect to this issue.

(d) Risks relating to German Insolvency Law

(i) Bail-In Instrument and other Restructuring and Resolution Measures

As a result of the Banking Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("**BRRD**"), it is possible that a credit institution or investment firm with its head office in an European Economic Area state and/or certain group companies could be subject to certain resolution actions in that state. Any such action may affect the ability of any relevant entity to satisfy its obligations under the Transaction Documents and there can be no assurance that Noteholders will not be adversely affected as a result.

With respect to Germany, on 1 January 2015 the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz* - "**SAG**") came into force implementing the provisions of the BRRD and establishing a framework for the recovery and resolution of credit institutions and investment firms into German national law. SAG provides for various actions and measures that can be taken by the Federal Agency for Financial Market Stabilisation (*Bundesanstalt für Finanzmarktstabilisierung*, "**FMSA**") in order to avoid systemic risks for the financial markets or the necessity of a public bail-out if a credit institution that is subject to SAG is in financial difficulties. Amongst other things, the FMSA could, under certain circumstances, require creditors of such credit institution to "bail-in" by a conversion of their claims into core capital or the reduction of the amount of such claims (Section 90 SAG). Furthermore, the FMSA could decide to transfer certain assets and liabilities of such credit institution to another entity or a bridge institution or an asset management vehicle under the control of the FMSA (cf. Section 107 SAG).

The SAG is applicable, *inter alia*, with respect to credit institutions within the meaning of Art. 4(1) no 1 of the CRR, i.e. to every undertaking the business of which is to take deposits or other repayable funds from the public and to grant credits for its own account. SAG therefore also applies to the Seller and, consequently, the FMSA could take any of the above described measures and actions with regard to the Seller **provided that** the prerequisites for the taking of reorganisation measures pursuant to the SAG are met. However, the Issuer has been advised that, even if the Seller should be in financial difficulties and measures pursuant to the SAG are being taken, these measures should only have limited impact on the claims of the Issuer against the Seller for the following reasons: Claims of the Issuer against the Seller (in its capacity as Seller or Servicer) for payment of Available Collections received in respect of the Purchased Receivables and other claims under the Servicing Agreement are subject to a trust arrangement

(*Treuhandverhältnis*) and, in principle, the Available Collections (unless commingled) are subject to substitute segregation (*Ersatzaussonderung*) and should therefore be excluded from any bail-in measures pursuant to Section 91(2) no 4 SAG. The Purchased Receivables should not be subject to bail-in pursuant to the SAG as long as the sale and transfer of the Purchased Receivables from the Seller to the Issuer will not be re-characterized as a secured loan. However, even if the sale and transfer of the Purchased Receivables was re-characterised as a secured loan, claims against the Seller would not become subject to bail-in to the extent these claims are secured claims within the meaning of Section 91(2) no 2 SAG. Consequently, if and to the extent the relevant claims against the Seller are secured by the Purchased Receivables and Related Collateral they should not be affected by bail-in. Finally, although the Issuer will not be in a position to prevent the transfer of any of the Seller's assets to another entity, such transfer pursuant to Section 110(1) SAG may only occur in conjunction with a transfer of the security provided therefor and vice versa. A separation of the Purchased Receivables from the Related Collateral should therefore not result from any such transfer (see also Section 110(3) no 4 SAG).

In addition, the risk of loss for the Issuer with regard to its claims against the Seller due to a bail-in or other measure under the SAG is further mitigated by the following: (i) Pursuant to Section 97 SAG, the claims of the Issuer against the Seller would only become subject to a bail-in after the equity and capital positions set out in Section 90(1) no 1 through 3 SAG have been exhausted and (ii) Section 147 SAG provides creditors with a compensatory claim against the restructuring fund pursuant to Section 8 of the Restructuring Fund Act (*Restrukturierungsfondsgesetz*) if and to the extent the restructuring measures under the SAG put them into a worse position than they would be in if insolvency proceedings had been opened over the assets of the relevant credit institution.

In addition, credit institutions within the meaning of Section 1 (1) of the German Banking Act (*Kreditwesengesetz*), such as the Seller, may under certain circumstances become subject to restructuring proceedings (*Sanierungsverfahren*) and/or reorganisation proceedings (*Reorganisationsverfahren*) in accordance with the Act on the Reorganisation of Credit Institutions (*Kreditreorganisationsgesetz*) that became effective on 1 January 2011.

All these proceedings may also result in an impairment of the rights of creditors of such credit institutions such as the Issuer. In particular, if during restructuring proceedings the affected credit institution enters into new financing arrangements as a borrower, the creditors of such new financing arrangements may rank ahead of existing creditors of such credit institution in any insolvency proceedings that will be commenced in respect of the affected credit institution within a period of three (3) years after the commencement of such restructuring proceedings has been ordered. Reorganisation proceedings may, for example, result in a reduction or deferral of the claims and other rights of creditors (such as the Issuer) of the affected credit institution and resolution actions may, for example, result in the deferral or suspension of payment or delivery obligations of creditors (such as the Issuer) of the affected credit institution or in a change in the nature of the receivables or claims into equity of the affected credit institution, which may, in the worst case, have no value. If such proceedings are applied to the Seller and the Issuer has at that time claims for payments outstanding against the Seller (e.g. under the Servicing Agreement) such claims may be subordinated or deferred as set out above and the Issuer may not or not timely receive such amounts required to make payments under the Notes. The relevant authority may seek to amend the terms of the maturity date of the Notes, which could negatively affect the value of the Notes for the purpose of reselling. Each of the aforementioned measures may occur in isolation or they may occur as a combination.

On 27 June 2019, Directive (EU) 2019/879 ("**BRRD II**") entered into force, which amends the BRRD and states that member states shall apply the transposed measures (with certain exceptions) no later than 28 December 2020. The rules adopted are said to fine-tune some prudential and bank resolution aspects in order to make the banking sector even more resilient to shocks. Furthermore, in order to facilitate an orderly resolution of banks in difficulty the adopted rules are meant to further adapt the requirements governing how banking groups deal with operations between the various entities. The BRRD II has been implemented in Germany by the Risk Reduction Act (*Gesetz zur Umsetzung der Richtlinien (EU) 2019/878 und (EU) 2019/879 zur Reduzierung von Risiken und zur Stärkung der Proportionalität im Bankensektor (Risikoreduzierungs-gesetz-"RiG")*) which came into force on 28 December 2020. At this stage, the impact of the RiG cannot be predicted.

No assurance can be given that the Issuer and, consequently, the Noteholders will not be adversely affected as a result of any resolution actions or measures taken under the SAG or the RIG.

(ii) *Insolvency Law*

Sections 113 et seqq. of the German Insolvency Code (Insolvenzordnung)

Under Section 113 of the German Insolvency Code, the insolvency administrator of the principal is entitled to terminate service agreements (*Dienstleistungsverhältnisse*), and agency agreements (*Geschäftsbesorgungsverträge*), mandates (*Aufträge*) and powers of attorney (*Vollmachten*) would, according to Sections 115 et seqq. of the German Insolvency Code, extinguish with the opening of insolvency proceedings against the principal by operation of law. A number of the Transaction Documents, to the extent that they qualify as service agreements or agency agreements or contain mandates or powers of attorney, would be affected by the application of these provisions in an insolvency of the principal thereunder. This would be particularly relevant for the Issuer's authorisation granted by the Seller under the Receivables Purchase Agreement in order for the Issuer to notify the Debtors in the name of the Seller and the authorisation of, *inter alia*, the Issuer pursuant to the Servicing Agreement to cancel and revoke direct debit arrangements the Servicer has established in respect of the Purchased Receivables with respect to any Debtors. This could have an impact on the amounts recovered in respect of the Purchased Receivables and, in turn, the amounts available to the Issuer to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes.

(iii) *Section 166 of the German Insolvency Code (Insolvenzordnung)*

Under German insolvency law, in insolvency proceedings of a debtor, a creditor who is secured by the assignment of receivables by way of security will have a preferential right to such receivables (*Absonderungsrecht*). Enforcement of such preferential right is subject to the provisions set forth in the German Insolvency Code (*Insolvenzordnung*). In particular, the secured creditor may not enforce its security interest itself. Instead, the insolvency administrator appointed in respect of the estate of the debtor will be entitled to enforcement pursuant to Section 166 para. 2 of the German Insolvency Code. The insolvency administrator is obliged to transfer the proceeds from such enforcement to the creditor, however, the secured creditor has no control as to the timing of such procedure. In addition, the insolvency administrator may deduct from the enforcement proceeds fees for the benefit of the insolvency estate which may amount to 4% of the enforcement proceeds for assessing such preferential rights plus up to 5% of the enforcement proceeds as compensation for the costs of enforcement. In case the enforcement costs are considerably higher than 5% of the enforcement proceeds, the compensation for the enforcement costs may be higher.

Accordingly, the Issuer may have to share in the costs of any insolvency proceedings of the Seller in Germany, reducing the amount of money available upon enforcement of the Note Collateral to repay the Notes, if the sale and assignment of the Purchased Receivables by the Seller to the Issuer were to be regarded as a secured lending rather than a receivables sale. The Issuer has been advised, however, that the transfer of the Purchased Receivables would be construed such that the risk of the insolvency of the Debtors lies with the Issuer and that, therefore, the Issuer would have the right to segregation (*Aussonderungsrecht*) of the Purchased Receivables from the estate of the Seller in the event of its insolvency and that, consequently, the cost sharing provisions described above would not apply with respect thereto. However, such right of segregation will not apply with respect to the Related Collateral transferred to the Issuer, including the security interest created in respect of the Cars relating to the Purchased Receivables if insolvency proceedings are instituted in respect of the relevant Debtor in Germany. In that case, the cost sharing provisions will apply.

(iv) *Insolvency-Related Termination Clauses (insolvenzabhängige Lösungsklauseln)*

Certain Transaction Documents provide for a termination right in case that a party becomes insolvent. In German legal literature, it is disputed whether so-called insolvency-related termination clauses (*insolvenzabhängige Lösungsklauseln*) may be invalid or challengeable under German insolvency law.

In the context of termination clauses linked to the filing of a petition for the opening of insolvency proceedings, the Federal Court of Justice (Bundesgerichtshof) has ruled in a decision dated 15 November 2012 (IX ZR 169/11) (the "**Decision**") that a clause which provided for an automatic termination of an energy supply contract in the event of an application for the opening of insolvency proceedings of a contractual counterparty is invalid on the basis that such a clause deprives the insolvency administrator from its right to select whether to continue or discontinue a relevant contract. This judgment has an impact on the Issuer's right to terminate the Receivables Purchase Agreement and other Transaction Documents to the extent it expressly refers to the insolvency of the Seller or are related to the insolvency. As the Decision has been made in connection with a supply contract in the energy sector and in relation to an automatic termination (auflösende Bedingung), it could be argued that it may not apply to other agreements containing termination rights (Kündigungsrechte) or to the occurrence of a statutory reason to open insolvency proceedings. In line with this argument, the VIIth senate of the Federal Court of Justice (Bundesgerichtshof) more recently ruled that a termination clause as provided for in section 8 para. 2 no. 1 alternative 2 in connection with section 8 para. 2 no. 2 of the Construction Contract Procedures Part B (VOB/B) is valid in a construction contract, even though it allows the principal to terminate the contract upon an insolvency application of the contractor and calculate its damage in deviation from the provisions in section 649 sentence 1 of the German Civil Code (Bürgerliches Gesetzbuch) (judgment of 7 April 2016 - VII ZR 56/15). The IXth senate on the other hand subsequently expanded the scope of its 2012 judgment and ruled that netting provisions which deviate from section 104 of the German Insolvency Code (Insolvenzordnung) are void (judgment of 9 June 2016 - IX ZR 314/14). While the judgment itself dealt with netting provisions in the master agreement for financial derivatives transactions as published by the Association of German Banks, the judgment contains wording that indicates that the IXth senate intends to apply its 2012 judgment broadly. There are contradictory court rulings in this regard (see BGH II ZR 394/12, OLG Schleswig 1 U 72/11 or OLG Celle 13 U 53/11).

(v) Creditworthiness of Parties to the Transaction Documents

The ability of the Issuer to meet its obligations under the Notes will be dependent on the performance of the duties by each party to the Transaction Documents.

No assurance can be given that the creditworthiness of the parties to the Transaction Documents, in particular the Seller, the Servicer, the Paying Agent and the Account Bank, will not deteriorate in the future. This may affect the performance of their respective obligations under the respective Transaction Documents. In particular, it may affect the payment of the Deemed Collections by the Seller in accordance with the Receivables Purchase Agreement as well as the administration, collection and enforcement of the Purchased Receivables by the Servicer in accordance with the Servicing Agreement.

(e) Internal Control Risks

(i) Conflicts of Interest

PSA Bank Deutschland is acting in a number of capacities in connection with this transaction. PSA Bank Deutschland will have only those duties and responsibilities expressly agreed to by it in the Transaction Documents to which it is a party and will not, by virtue of its or any of its affiliates' acting in any other capacity, be deemed to have any other duties or responsibilities or be deemed to be held to a standard of care other than as expressly provided therein. PSA Bank Deutschland, in its various capacities in connection with this transaction, may enter into business dealings from which it may derive revenues and profits without any duty to account therefor in connection with this transaction.

The Servicer may hold and/or service claims against the Debtors with respect to receivables other than the Purchased Receivables. The interests or obligations of the Servicer in its respective capacities with respect to such other claims may in certain aspects conflict with the interests of the Noteholders. If the Servicer pursues its own interests at the expense of the Issuer there is a risk that the Issuer does not receive all of the funds it expects to receive on the Purchased Receivables and that the Issuer is therefore not able to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes, on the relevant Payment Date.

HSBC Bank plc and HSBC Corporate Trustee Company (UK) Limited respectively will have only those duties and responsibilities expressly agreed to by it in the Transaction Documents to which it is a party and will not, by virtue of its or any of its affiliates' acting in any other capacity, be deemed to have any other duties or responsibilities or be deemed to be held to a standard of care other than as expressly provided therein. HSBC Bank plc and HSBC Corporate Trustee Company (UK) Limited respectively, in its various capacities in connection with this transaction, may enter into business dealings from which it may derive revenues and profits without any duty to account therefor in connection with this transaction.

Elavon Financial Services DAC is acting in a number of capacities in connection with this transaction. Elavon Financial Services DAC will have only those duties and responsibilities expressly agreed to by it in the Transaction Documents to which it is a party and will not, by virtue of its or any of its affiliates' acting in any other capacity, be deemed to have any other duties or responsibilities or be deemed to be held to a standard of care other than as expressly provided therein. Elavon Financial Services DAC, in its various capacities in connection with this transaction, may enter into business dealings from which it may derive revenues and profits without any duty to account therefor in connection with this transaction.

The Security Trustee, the Data Trustee, the Initial Noteholder, the Arranger, the Paying Agent, the Settlement Agent, the Calculation Agent, the Reporting Agent, the Back-Up Servicer Facilitator, the Listing Agent, the Account Bank and the Subordinated Loan Provider may engage in commercial relationships, in particular, hold assets in other securitisation transactions as security trustee, be lenders, provide investment banking and other financial services to the Debtors, the other parties to the Transaction Documents and other third parties. In such relationships the Data Trustee, the Security Trustee, the Initial Noteholder, the Arranger, the Paying Agent, the Settlement Agent, the Calculation Agent, the Reporting Agent, the Back-Up Servicer Facilitator, the Listing Agent, the Account Bank and the Subordinated Loan Provider are not obliged to take into account the interests of the Noteholders. Accordingly, conflicts of interest may arise in this transaction which may be adverse to the interests of Noteholders.

(ii) Reliance on Administration and Collection Procedures

The Servicer will carry out the administration, collection and enforcement of the Purchased Receivables and the Related Collateral in accordance with the Servicing Agreement.

Accordingly, the Noteholders are relying on the business judgement and practices of the Servicer when enforcing claims against the Debtors, including taking decisions with respect to enforcement in respect of the Purchased Receivables and the Related Collateral. See "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Servicing Agreement*" and "*APPENDIX D - CREDIT AND COLLECTION POLICY*".

(iii) Replacement of the Servicer

If the appointment of the Servicer is terminated, the Issuer, with the assistance of the Back-Up Servicer Facilitator, may appoint a substitute servicer pursuant to the Servicing Agreement. Any substitute servicer which may replace the Servicer in accordance with the terms of the Servicing Agreement would have to be able to administer the Purchased Receivables and the Related Collateral in accordance with the terms of the Servicing Agreement, be duly qualified and licensed to administer finance contracts in Germany such as the Auto Loan Contracts, be a bank or credit institution established within the European Economic Area and supervised in accordance with the relevant EU directives, and may be subject to certain residence and/or regulatory requirements. Further, it should be noted that any substitute servicer (other than a (direct or indirect) subsidiary of the Seller or of a parent of the Seller to which the servicing and collection of the receivables and the related collateral of the Seller is outsourced) may charge a servicing fee on a basis different from that of the Servicer. See "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Receivables Purchase Agreement*" and "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Servicing Agreement*".

(iv) Historical Data; Forecasts and Estimates

The historical information set out in particular under the headings "DESCRIPTION OF THE PORTFOLIO", "INFORMATION TABLES REGARDING THE PORTFOLIO" and "HISTORICAL DATA" is based on the past experience and present procedures of the Seller. None of the Initial Noteholder, the Arranger, the Security Trustee or the Issuer has undertaken or will undertake any investigation or review of, or search to verify, such historical information. In addition, based on such historical information, there can be no assurance as to the future performance of the Purchased Receivables.

Estimates of the weighted average life of the Class A Notes included in this Prospectus together with any other projections, forecasts and estimates are supplied for information only and are forward-looking statements. Such projections, forecasts and estimates are speculative in nature and it can be expected that some or all of the underlying assumptions may differ or may prove substantially different from the actual realised figures. Consequently, the actual results might differ from the projections and such differences may be significant.

Further, the information set out, in particular, in "DESCRIPTION OF THE PORTFOLIO", "INFORMATION TABLES REGARDING THE PORTFOLIO" and "HISTORICAL DATA" is based on information relating to the status of the Portfolio on 20 January 2021. However, the Initial Receivables will be transferred on the Closing Date and any Additional Receivables will be transferred on the relevant Subsequent Purchase Date. Accordingly, the information set out, in particular, in "DESCRIPTION OF THE PORTFOLIO", "INFORMATION TABLES REGARDING THE PORTFOLIO" and "HISTORICAL DATA" does not summarise the status of the Portfolio at the time of sale and does not reflect the developments and changes in the Portfolio between the First Determination Date and the Closing Date or, as the case may be, the Subsequent Purchase Date. The historical performance of the receivables set out, in particular, in "DESCRIPTION OF THE PORTFOLIO", "INFORMATION TABLES REGARDING THE PORTFOLIO" and "HISTORICAL DATA" should not be taken as an indication of future performance.

(v) Risk of Late Forwarding of Payments received by the Servicer

There is a risk of non-payment or late payments by the Servicer of Available Collections which would lead to shortfalls regarding payments to be made under the Notes. Losses or delays in the processing of payments may in particular occur where the Servicer is replaced due to a disruption in service because a substitute servicer or back-up servicer is not immediately available or less experienced and efficient than the Servicer. Pursuant to the terms of the Servicing Agreement, however, such risk is mitigated by Available Collections being transferred by the Servicer to the General Collection Account not later than two (2) Business Days following receipt of the collections, failure of which will constitute a Servicer Termination Event entitling the Issuer to appoint a substitute servicer. It should be also noted that a cash reserve, being the General Reserve, will be established to provide liquidity support in the event of shortfalls in the available funds of the Issuer to pay interest due and payable under the Class A Notes and certain senior expenses.

See "OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS - Servicing Agreement - Termination of the Servicing Agreement".

2. Risks relating to the Notes

(a) Risks relating to the nature of the Notes

(i) Liability under the Notes, Limited Recourse

The Notes represent obligations of the Issuer only, and do not represent obligations of, and are not guaranteed by, any other person or entity. In particular, the Notes do not represent obligations of, and will not be guaranteed by, any of the Seller, the Servicer, the Back-Up Servicer Facilitator, the Security Trustee, the Data Trustee, the Paying Agent, the Settlement Agent, the Calculation Agent, the Reporting Agent, the Account Bank, the Initial Noteholder, the Arranger, the Listing Agent, the Common Safekeepers, the Subordinated Loan Provider or any of their respective affiliates or any other third person

or entity other than the Issuer. No person other than the Issuer will accept any liability whatsoever to the Noteholders in respect of any failure by the Issuer to pay any amount due under the Notes.

Prior to the occurrence of an Issuer Event of Default, all payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out on each Payment Date the Available Interest Amount and the Available Principal Amount in accordance with the relevant Pre-Enforcement Priority of Payments. Upon the occurrence of an Issuer Event of Default, all payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out the credit standing to the respective Accounts (excluding certain amounts stated in Clause 23.1 of the Transaction Security Agreement) and the proceeds of the Note Collateral in accordance with the Post-Enforcement Priority of Payments and shall only be settled if and to the extent that the Issuer is in a position to settle such claims using future profits (*künftige Gewinne*), any remaining liquidation proceeds (*Liquidationsüberschuss*) or any current positive balance of the net assets (*anderes freies Vermögen*) of the Issuer. The Notes shall not give rise to any payment obligation in excess of such amounts and recourse shall be limited accordingly.

None of the Noteholders, the Security Trustee nor the other Beneficiaries (nor any other person acting on behalf of any of them) shall be entitled, until the expiration of two years and one day after all outstanding amounts under the last maturing Note issued by the Issuer have been paid in full, to take any corporate action or other steps or legal proceedings for the winding-up, administration, examinership, dissolution or re-organisation or for the appointment of a receiver, administrator, examiner, administrative receiver, trustee in bankruptcy, liquidator, sequestrator or similar officer regarding some or all of the revenues and assets of the Issuer or have any right to take any steps for the purpose of obtaining payment (other than through the enforcement of the Note Collateral) of any amounts payable to it under the Transaction Documents by the Issuer (including, for the avoidance of doubt, any payment obligation arising from false representations under the Transaction Security Agreement) and shall not until such time take any steps to recover any debts or liabilities of any nature whatsoever owing to it by the Issuer.

There is no specific statutory or judicial authority in German law on the validity of non-petition clauses. It cannot be excluded that a German court might hold that any of the non-petition clauses in the German law governed Transaction Documents is void in cases where the Issuer intentionally breaches its duties or intentionally does not fulfil its respective obligations under such documents. The foregoing would apply to other restrictions of liability of the Issuer as well. In individual cases, German courts held that a non-petition clause in a lease agreement preventing the lessee from initiating court proceedings against the lessor was void as it violated *bonos mores* and that the parties to a contract may only waive their respective right to take legal action in advance to a certain specified extent, but not entirely, because the right to take legal action is a core principle of the German legal system. However, this Issuer has been advised that these rulings are based on the particularities of the respective cases and, therefore, should not give rise to the conclusion that non-petition clauses are generally void under German law. Additionally, because under German law a party is generally free to waive its claim against another party in advance, a partial waiver, in the sense that the party waives only its rights to enforce its claims, should *a fortiori* be valid.

(ii) Subordination

The Issuer's obligations to make payments of principal and interest on the Class B Notes are subordinated to the Issuer's obligations to make payments of principal and interest on the Class A Notes, see "*CREDIT STRUCTURE — Pre-Enforcement Priorities of Payments*".

(iii) Early Redemption of the Notes and Effect on Yield

The yield to maturity of any Note of each Class will depend on, *inter alia*, the amount and timing of payment of principal and interest on the Purchased Receivables and the price paid by the Noteholder for such Note.

During the Revolving Period, the Notes will not be subject to amortisation, unless the balance standing to the credit of the Principal Account Ledger exceeds 10% of the outstanding Class A Principal Amount, in which case amortisation of the Notes on a *pro rata* basis between the Class A Notes and the Class B Notes commences on the Payment Date immediately following the date on which such event has occurred

and will stop once the 10% level is no longer exceeded. The Revolving Period will terminate on the Scheduled Revolving Period End Date or, if earlier, upon the occurrence of an Amortisation Event or an Issuer Event of Default. If the Revolving Period terminates following the occurrence of an Amortisation Event or an Issuer Event of Default, amortisation of the Notes commences on the Payment Date immediately following the date on which such event has occurred. Early redemption of the Notes may have a negative effect on the yield. In addition, on any Payment Date on or following which the Aggregate Outstanding Principal Amount has been reduced to 10% of the highest Aggregate Outstanding Principal Amount during the Revolving Period, the Seller will have, subject to certain conditions, the right under the Receivables Purchase Agreement to repurchase all outstanding Purchased Receivables (together with any Related Collateral) and the proceeds from such repurchase shall constitute Available Principal Collections or Available Interest Collections, as the case may be, and the payments of interest and principal in accordance with the relevant Pre-Enforcement Priority of Payments on such Payment Date will lead to an early redemption of the Notes (see Condition 7.4 (*Early Redemption*) of the Terms And Conditions Of The Notes). There is a risk that this may adversely affect the yield on each Class of Notes.

In addition, the Issuer may, subject to certain conditions, redeem all of the Notes if under applicable law the Issuer is required to make a deduction or withholding for or on account of tax (see Condition 7.5 (*Optional Redemption for Taxation Reasons*) of the Terms And Conditions Of The Notes). This may adversely affect the yield on each Class of Notes.

(iv) Collateral and Security Trustee Claim

The Issuer has granted to the Security Trustee the Security Trustee Claim (*Treuhänderanspruch*) under Clause 4.2 (*Security Trustee Claim*) of the Transaction Security Agreement. To secure the Security Trustee Claim (*Treuhänderanspruch*), the Issuer will assign the Assigned Security pursuant to Clause 5 (*TRANSFER FOR SECURITY PURPOSES OF THE ASSIGNED SECURITY*) of the Transaction Security Agreement and will grant a pledge (*Pfandrecht*) to the Security Trustee pursuant to Clause 6 (*PLEDGE*) of the Transaction Security Agreement with respect to all its present and future claims against the Security Trustee arising under the Transaction Security Agreement. The Security Trustee Claim entitles the Security Trustee to demand, *inter alia*, that all present and future obligations of the Issuer under the Notes be fulfilled.

However, where an agreement provides that a security agent (e.g. the Security Trustee) holding assets on trust for other entities has an own separate and independent right to demand payment from the relevant grantor of security to it which mirrors the obligations of the relevant debtors to the secured creditors (e.g. the Security Trustee Claim), there is an argument that accessory security (such as the pledge granted by the Issuer to the Security Trustee in order to, amongst others, secure the Security Trustee Claim) created to secure such a parallel obligation is not enforceable for the benefit of such beneficiaries who are not a party to the relevant security agreement. This is because the parallel obligation could be seen as an instrument to avoid the accessory nature of, e.g. a pledge. This argument has - as far as the Issuer is aware - not yet been tested in court. Further, it is frequently seen in the market that accessory security such as a pledge is given to secure a parallel obligation such as the Security Trustee Claim. However, as there is no established case law confirming the validity of such pledge, the validity of such pledge is subject to some degree of legal uncertainty, which may ultimately affect the amount available to the Issuer to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes.

(v) Ratings of the Class A Notes

Each rating assigned to the Class A Notes by any Rating Agency takes into consideration the structural and legal aspects associated with the Class A Notes and the underlying Purchased Receivables, the credit quality of the Portfolio, the extent to which the Debtors' payments under the Purchased Receivables are adequate to make the payments required under the Class A Notes as well as other relevant features of the structure, including, *inter alia*, the credit situation of the Account Bank, the Seller and the Servicer (if different). Each Rating Agency's rating reflects only the view of that Rating Agency. In particular, the rating assigned by Fitch to the Class A Notes addresses the likelihood of full and timely payment to the Class A Noteholders of all payments of interest on the Class A Notes on each Payment Date and the ultimate payment of principal on the Final Maturity Date and takes into consideration the characteristics

of the Purchased Receivables and the structural, legal, tax and Issuer-related aspects associated with the Class A Notes. The ratings assigned by Moody's to the Class A Notes takes into account the risk of loss which may be incurred on the Class A Notes in proportion to the initial Class A Principal Amount to be borne by any Noteholder by the Final Maturity Date and reflect Moody's opinion that the structure allows for timely payment of interest and ultimate payment of principal by the Final Maturity Date. The Moody's rating addresses only the credit risks associated with this transaction.

The Issuer has not requested any rating of the Class B Notes and the Issuer has not requested a rating of the Class A Notes by any rating agency other than the Rating Agencies. However, rating organisations may seek to rate the Class B Notes or rating organisations other than the Rating Agencies may seek to rate the Class A Notes and, if such "shadow ratings" or "unsolicited ratings" are low, in particular, in the case of the Class A Notes, lower than the comparable ratings assigned to the Class A Notes by the Rating Agencies, such shadow or unsolicited ratings could have an adverse effect on the value of any Class of Notes. Future events, including events affecting the Account Bank, the Seller and the Servicer (if different) could also have an adverse effect on the rating of any Class of Notes.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the rating organisation. The ratings assigned to the Class A Notes should be evaluated independently from similar ratings on other types of securities. There is no assurance that the ratings will continue for any period of time or that they will not be lowered, reviewed, suspended or withdrawn by the Rating Agencies. In the event that the ratings initially assigned to the Class A Notes by the Rating Agencies are subsequently withdrawn or lowered for any reason (including, without limitation, any subsequent change of the rating methodologies and/or criteria applied by the relevant Rating Agency), no person or entity is obliged to provide any additional support or credit enhancement to the Notes.

Each of the Rating Agencies is established in the European Community. According to the press release of the ESMA dated 31 October 2011 and the List of Registered CRAs published by ESMA, Moody's and Fitch have been registered in accordance with Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended by Regulation (EU) No 513/2011 and by Regulation (EU) No 462/2013. The latest update of the List of Registered CRAs is available on the website of ESMA under www.esma.europa.eu/supervision/credit-rating-agencies/risk (see also the section entitled "*CRA III*").

(vi) Eurosystem Eligibility

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with one of Euroclear or Clearstream, Luxembourg as Class A Notes Common Safekeeper and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem (the "**Eurosystem eligible collateral**") either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria set out in the Guideline (EU) 2019/1032 of the European Central Bank of 10 May 2019 amending Guideline (EU) 2015/510 on the implementation of the Eurosystem monetary policy framework (ECB/2019/11), as amended and supplemented from time to time..

In addition, on 15 December 2010 the Governing Council of the European Central Bank (the "**ECB**") has decided on the establishment of loan-by-loan information requirements for asset-backed securities ("**ABS**") in the Eurosystem collateral framework. The Auto Loan ABS template was published in May 2012 and was last updated in September 2013. The loan-by-loan information requirement for Auto Loan ABS is applicable since 1 January 2014 (with a nine-month transition period which ended on 30 September 2014). The Issuer will use its best efforts to make loan level data available in such manner as may be required to comply with the Eurosystem eligibility criteria, subject to the Data Protection Standards.

If the Class A Notes do not satisfy the criteria specified by the European Central Bank, or if the Servicer fails to submit the required loan-level data, there is a risk that the Class A Notes will not be qualified as Eurosystem eligible collateral. Neither the Issuer, nor the Initial Noteholder nor the Arranger gives any

representation, warranty, confirmation or guarantee to any investor in the Class A Notes that the Class A Notes will, either upon issue, or any or at all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognised as Eurosystem eligible collateral. Any prospective investor in the Class A Notes should consult its professional advisers with respect to whether or not the Class A Notes constitute Eurosystem eligible collateral at any point of time during the life of the Class A Notes.

(vii) Reliance on Representations and Warranties

If the Portfolio does not correspond, in whole or in part, to the representations and warranties made by the Seller in the Receivables Purchase Agreement, the Issuer has certain rights of recourse against the Seller. These rights are not collateralised with respect to the Seller except that, in the case of a breach of certain representations and warranties, the Seller will be required to pay Deemed Collections to the Issuer (see items (ii) through (v) of the definition of Deemed Collections under "*APPENDIX A - CERTAIN DEFINITIONS — Deemed Collection*" and "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Amortisation*"). Consequently, a risk of loss exists in the event that such a representation or warranty is breached and the corresponding Deemed Collections are not paid. This could potentially cause the Issuer to default under the Notes.

(viii) No Independent Investigation and Limited Information

None of the Initial Noteholder, the Arranger, the Security Trustee or the Issuer has undertaken or will undertake any investigations, searches or other actions to verify the details of the Purchased Receivables or to establish the creditworthiness of any Debtor or any other party to the Transaction Documents. Each such person will rely solely on the accuracy of the representations and warranties given by the Seller to the Issuer in the Receivables Purchase Agreement in respect of, *inter alia*, the Purchased Receivables, the Debtors, the Auto Loan Contracts underlying the Purchased Receivables and the Related Collateral, including, without limitation, security interests in the Cars. The benefit of all such representations and warranties given to the Issuer will be transferred by the Issuer in favour of the Security Trustee under the Transaction Security Agreement.

The Seller is under no obligation to, and will not, provide the Initial Noteholder, the Arranger, the Security Trustee or the Issuer with financial or other information specific to individual Debtors and certain underlying Auto Loan Contracts to which the Purchased Receivables relate. The Initial Noteholder, the Arranger, the Security Trustee and the Issuer will only be supplied with general information in relation to the aggregate of the Debtors and the underlying Auto Loan Contracts. Further, none of the Initial Noteholder, the Arranger, the Security Trustee or the Issuer will have any right to inspect the internal records of the Seller.

The primary remedy of the Security Trustee and the Issuer for breaches of any representation or warranty with respect to the enforceability of the Purchased Receivables, the existence of the Related Collateral, the absence of material litigation with respect to the Seller, the transfer of free title to the Issuer and the compliance of the Purchased Receivables with being an Eligible Receivable will be to require the Seller to pay Deemed Collections in an amount equal to the then Adjusted Outstanding Principal Amount of such Purchased Receivables plus any outstanding balance of interest accrued and not paid thereunder (or the affected portion thereof). With respect to breaches of representations or warranties under the Receivables Purchase Agreement generally, the Seller is obliged to indemnify the Issuer against any liability, losses and damages directly resulting from such breaches.

(ix) Limited Availability of the General Reserve

The Class A Notes will have the benefit of a cash reserve which will provide liquidity support in the event of shortfalls in the available funds to pay interest due and payable under the Notes and certain senior expenses. Prior to the occurrence of an Issuer Event of Default, the amount standing to the credit of the General Reserve Account as of any Determination Date shall be transferred on the Payment Date immediately following such Determination Date to the Interest Account and shall be applied as part of the Available Interest Amount in accordance with the Pre-Enforcement Interest Priority of Payments. Following the occurrence of an Issuer Event of Default, the General Reserve will be transferred to the General Collection Account and applied in accordance with the Post-Enforcement Priority of Payments.

(x) Risk relating to the German Act on Issues of Debt Securities (SchVG) (Noteholders' Meetings)

The German Act on Issues of Debt Securities dated 31 July 2009 (*Gesetz über Schuldverschreibungen aus Gesamtemissionen – "SchVG"*) applies to the Notes.

(a) Resolutions of Noteholders

The Notes provide for resolutions of Noteholders to be passed by vote taken without meetings. Each Noteholder is subject to the risk of being outvoted. As resolutions properly adopted are binding on all Noteholders, certain rights of such Noteholder against the Issuer under the Terms and Conditions of the Notes may be amended or reduced or even cancelled.

(b) Noteholders' Representative

If the Noteholders appoint a Noteholders' representative by a majority resolution of the Noteholders, it is possible that a Noteholder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions of the Notes against the Issuer, such right passing to the Noteholders' Representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

(b) Risks relating to the offer to the public and / or admission of the Notes to trading on the Luxembourg Stock Exchange

(i) Absence or Limitation of Secondary Market Liquidity and Market Value of Notes

Although application has been made to admit the Notes to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange, liquidity of a secondary market for the Notes could be limited or absent. There can be no assurance that there will be bids and offers and that a liquid secondary market for the Notes will develop or that a market will develop for all Classes of Notes or, if it develops, that it provides sufficient liquidity to absorb any bids, or that it will continue for the whole life of the Notes.

Even if PSA Bank Deutschland could establish a secondary market for the Notes, it is not obliged to do so and any market activity which existed in the past can be easily terminated at any time without prior notice. If there is no market activity (namely, bids and offers) by PSA Bank Deutschland, it is unlikely that a liquid secondary market will be established. In view of these factors, there can be no assurance that a secondary market for the Notes will develop or that a market will develop for all Classes of Notes or, if it develops, that it will provide Noteholders with liquidity of investment, or that it will continue for the whole life of the Notes. Further, the secondary markets are currently experiencing severe disruptions resulting from reduced investor demand for asset-backed securities and increased investor yield requirements for those securities. As a result, the secondary market for asset-backed securities is experiencing extremely limited liquidity. These conditions may continue or worsen in the future. Limited liquidity in the secondary market for asset-backed securities has had a severe adverse effect on the market value of asset-backed securities. Limited liquidity in the secondary market may continue to have a severe adverse effect on the market value of asset-backed securities, especially those securities that are more sensitive to prepayment, credit or interest rate risk and those securities that have been structured to meet the investment requirements of limited categories of investors. Consequently, any investor in the Notes must be prepared to hold such Notes for an indefinite period of time or until final redemption or maturity of such Notes. The market values of the Notes are likely to fluctuate. Any such fluctuation may be significant and could result in significant losses to investors in the Notes. In addition, the forced sale into the market of asset-backed securities held by structured investment vehicles, hedge funds, issuers of collateralised debt obligations and other similar entities that are currently experiencing funding difficulties could adversely affect an investor's ability to sell, and/or the price an investor receives for, the Notes in the secondary market.

(ii) Further Notes Issuance

The Issuer may issue Further Notes subject to the conditions set out in the Further Notes Conditions Precedent. However, there can be no assurance that the Issuer will issue Further Notes or that it will do

so up to the maximum amount allowed under the Subscription Agreement. The actual volume issued may vary during the life of the Notes depending in particular on the demand for the Notes offered. No conclusion may therefore be drawn from the indicated "up to" aggregate principal amount of the Notes offered and issued as tap issues or as to the liquidity of the Notes in the secondary market.

(c) Risks relating to the underlying assets

(i) Risks arising from the COVID-19 Pandemic

In December 2019, a novel strain of coronavirus ("**COVID-19**") was reported in Wuhan, China. The World Health Organization has classified COVID-19 as a global pandemic (the "**COVID-19 Pandemic**"). Governments around the world have implemented measures to combat the spread of the virus, including travel bans, quarantines and restrictions on public gatherings and commercial activity. The effects of the COVID-19 Pandemic on the Issuer's ability to fulfil its obligations under the Notes can be diverse, including, but not limited to, the following aspects.

To mitigate the consequences of the COVID-19 Pandemic, the German Bundestag passed a comprehensive package of legislative measures titled "*Law to Mitigate the Consequences of the COVID-19 Pandemic in Civil, Insolvency and Criminal Procedure Law*" (the "**COVID-19 Law**"), which came into force as of 1 April 2020 due to COVID-19 (coronavirus). The COVID-19 Law contains, *inter alia*, provisions applicable to consumer loan agreements (including those entered into prior to 1 April 2020). Pursuant to such provisions, consumer borrowers affected by the COVID-19 Pandemic are entitled to 3 months payment deferrals with respect to loan instalments that fall due between 1 April 2020 and 30 June 2020. The right of the lender for early termination of such loan agreements due to non-payment by the consumer is excluded during the 3 month payment deferral period and may be affected by further legislative measures in the future.

In response to recent developments and as a consequence of the new COVID-19 Law, the Seller had amended its Credit and Collection Policy to permit the Servicer to offer relief to customers experiencing financial difficulty due to Corona impact. The actions the Servicer may take include the deferral of payment obligations for up to 3 months (without an extension of the last payment due, with an increase in the amounts required to be paid by the customer after completion of the deferral period, to the extent required to make up all deferred payments) or an extension of the term of the customer's contract for up to 3 months (whereby the customer continues making monthly payments at either the original or a reduced rate). The Servicer will not consider a customer's contract to be delinquent or in arrears as a result of such measures.

In addition to consequences resulting from such specific legislative measures, while it is not contemplated that the Purchased Receivables purchased on the Issue Date will include Receivables that are impacted by COVID-19, the performance of the Purchased Receivables may be adversely affected by the general worsening of economic conditions, an increase in unemployment rates and other direct or indirect effects of the COVID-19 Pandemic on the circumstances of individual Debtors.

Investors should also be aware that third parties on which the Issuer relies may be adversely impacted by the effects of the COVID-19 Pandemic. As the COVID-19 Pandemic has led to many organisations either closing or implementing policies requiring their employees to work at home, delays or difficulties in performing otherwise routine functions could occur. This may affect the performance of their respective obligations under the Transaction Documents. In particular, it may affect the administration, collection and enforcement of the Purchased Receivables by the Servicer in accordance with the Servicing Agreement which, in turn, may reduce the amount received by the Issuer in respect of the Purchased Receivables. If the Issuer does not receive the expected amounts under the Purchased Receivables there is a risk that the Issuer is not able to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes.

(ii) Assignability of Purchased Receivables

As a general rule under German law, receivables governed by German law are, in principle, freely assignable on the basis of Sections 398 et seqq. of the German Civil Code (*Bürgerliches Gesetzbuch*), unless their assignment is excluded (i) by mutual agreement, (ii) by the nature of the relevant receivable,

or (iii) on the basis of legal restrictions applicable thereto. Except as stated below under the heading "*Banking Secrecy*", there is no published court precedent of the German Federal Court of Justice (*Bundesgerichtshof*) or any German Higher Regional Courts (*Oberlandesgerichte*) confirming that receivables arising out of consumer Auto Loan Contracts or other credit contracts are not assignable either generally or in a refinancing transaction or an asset-backed securitisation. Pursuant to the Receivables Purchase Agreement, the Seller has warranted to the Issuer that the Auto Loan Contracts under which the Purchased Receivables have been generated are based on certain standard forms. Such standard forms do not specifically prohibit the Seller from transferring its rights under the relevant Auto Loan Contract to a third party for refinancing purposes. Pursuant to the Receivables Purchase Agreement, the Seller has warranted to the Issuer that the provisions of the Auto Loan Contracts are valid. The Seller has also warranted to the Issuer in the Receivables Purchase Agreement that the assignment of the Purchased Receivables to the Issuer is not prohibited and valid. If the Purchased Receivables have not been validly assigned to the Issuer there is a risk that the Issuer will not be entitled to receive the cashflows relating to those Purchased Receivables. However, for the reasons set out above, the Issuer considers this risk to be minimal.

(iii) Notice of Assignment; Set-off Risk

The assignment of the Purchased Receivables and the assignment and transfer of the Related Collateral may only be disclosed to the relevant Debtors at any time by the Issuer or through the Servicer in accordance with the Servicing Agreement or where the Seller agrees otherwise. Until the relevant Debtors have been notified of the assignment of the relevant Purchased Receivables, they may undertake payment with discharging effect to the Seller or enter into any other transaction with regard to such Purchased Receivables which will have binding effect on the Issuer and the Security Trustee.

According to Section 404 of the German Civil Code (*Bürgerliches Gesetzbuch*), each Debtor may further raise defences against the Issuer and the Security Trustee arising from its relationship with the Seller which are existing at the time of the assignment of the Purchased Receivables. Further, pursuant to Section 406 of the German Civil Code (*Bürgerliches Gesetzbuch*), each Debtor is entitled to set-off against the Issuer and the Security Trustee its claims, if any, against the Seller (e.g. claims for repayment of (administrative) fees or other monetary repayment claims under the Auto Loan Contract) unless such Debtor has knowledge of the assignment upon acquiring such claims or such claims become due only after the Debtor acquires such knowledge and after the relevant Purchased Receivables themselves become due. The Seller has warranted that it is not aware that any Debtor has asserted any lien, right of rescission, counterclaim, set-off, right to contest or defence against it in relation to any Auto Loan Contract. In addition, the risk of any shortfall due to certain set-off rights on the part of the Debtor is mitigated by the undertaking of the Seller in the Receivables Purchase Agreement to pay to the Issuer Deemed Collections in the amount equal to the affected portion of the Purchased Receivable if certain events occur with respect to such Purchased Receivable (see the definition of Deemed Collection in "*APPENDIX A - CERTAIN DEFINITIONS—Deemed Collection*"). In particular, if the amount owed by a Debtor is reduced due to set-off, the differential amount will constitute a Deemed Collection within the meaning of item (B)(i) of the definition of such term. It should be noted that no specific cash reserve will be established to avoid any resulting shortfall due to certain set-off rights on the part of the Debtor and the Seller's inability to pay to the Issuer the amount of Deemed Collection within the meaning of item (B)(i) of the definition of such term. However, deposits of Debtors that classify as consumers with the Seller may be protected under the statutory deposit protection scheme (*Einlagensicherung*) in Germany up to an amount of EUR 100,000, and it is expected that such protection would serve as a factual mitigant against the set-off risk in an insolvency of the Seller.

For the purpose of notification of the Debtors in respect of the assignment of the Purchased Receivables, the Issuer (or the Corporate Administrator on its behalf) or any back-up servicer will require the Decoding Key which is in the possession of the Data Trustee in order to decrypt the encrypted Personal Data of the respective Debtors. Under the Data Trust Agreement, the Issuer (or, after the occurrence of an Issuer Event of Default, the Security Trustee) is entitled to request delivery of the required Decoding Key from the Data Trustee under certain limited conditions. However, the Issuer (or the Corporate Administrator on its behalf), any back-up servicer or substitute servicer (as applicable) might not be able to obtain such data in a timely manner as a result of which the notification of the Debtors may be considerably delayed. Until such notification has occurred, the Debtors may undertake payment with discharging effect to the

Seller or enter into any other transaction with regard to the Purchased Receivables which will have binding effect on the Issuer and the Security Trustee. This may impact the amount received by the Issuer in respect of the Purchased Receivables. As the Issuer is solely reliant on receiving amounts due on the Purchased Receivables in order to meet its obligations, if the Issuer does not receive these amounts, there is a risk that Noteholders do not receive amounts of interest and/or principal due on the Notes.

(iv) Banking Secrecy

On 25 May 2004, the Higher Regional Court (*Oberlandesgericht*) in Frankfurt am Main rendered a ruling with respect to the enforcement of collateral securing non-performing loan receivables. In its ruling, the court took the view that the banking secrecy duties embedded in the banking relationship create an implied restriction on the assignability of loan receivables pursuant to Section 399 of the German Civil Code (*Bürgerliches Gesetzbuch*). On 27 February 2007, the German Federal Court of Justice issued a ruling (docket no. XI ZR 195/05) confirming the traditional view that a breach of the banking secrecy duty by the bank does not render the sale and assignment invalid but may only give rise to defenses (including damage claims) against the assignor. The ruling relates to a mortgage loan agreement which included terms allowing for the assignment of the loan receivables and collateral thereunder for refinancing purposes. However, notwithstanding those terms, the court held as a general matter that banking secrecy duties do not create an implied restriction on the assignability of loan receivables and that the General Data Protection Regulation (*Datenschutzgrundverordnung*) (see "*General Data Protection Regulation (Datenschutzgrundverordnung)*" below) does not constitute a statutory restriction on the assignability of loan receivables.

In addition, the Issuer has been advised that, while the aforementioned 2004 Frankfurt Higher Regional Court decision appeared to be based on the premise that an assignment of loan receivables leads necessarily to an undue disclosure of borrower-related data, this premise is not correct as the assignment can be structured in a way that avoids the disclosure of these data to the assignee. This view has been confirmed by the German Federal Court of Justice in its aforementioned recent ruling. In accordance with circular 4/97 of the BaFin which was expressly referred to by the German Federal Court of Justice in the ruling, a breach of the banking secrecy duty may be avoided by using a data trustee who keeps all data relating to the identity and address of each borrower in safe custody and discloses such data only upon insolvency or material violation of the seller in respect of its obligations towards the purchaser. Here, the Issuer, the Seller and the Data Trustee have agreed that certain data including the identity and address of each Debtor and provider of Related Collateral are to be sent to the Issuer on the Purchase Date (but not to any other person) in an Encrypted File, whilst the Data Trustee will receive a Decoding Key required to decrypt such Electronic File. Under the Data Trust Agreement, the Data Trustee will safeguard such Decoding Key and may disclose the data to any substitute servicer or the Security Trustee only upon the occurrence of certain limited events. (see "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Data Trust Agreement*").

The assignment of the Purchased Receivables, however, is not structured in strict compliance with the guidelines for German true sale securitisations of bank assets set out in the circular 4/97 of the BaFin. In particular, these guidelines require a neutral entity to act as data trustee that is a public notary, a domestic credit institution or a credit institution having its seat in any member state of the European Union or any other state of the European Economic Area and being supervised pursuant to the EU Banking Directives. Elavon Financial Services DAC acting as Data Trustee does not fall into any of these categories. Arguably, the rationale for identifying regulated credit institutions and notaries as eligible data trustees is, besides their neutrality, their reliability in relation to the protection of data when handling personal data. Thus, the Issuer has been advised that there are good arguments to construe the term "neutral entity" for this purpose to include other entities having their seat in the European Union or European Economic Area if the relevant entity is equally neutral and reliable in relation to the handling of personal data. Absent any court rulings, however, it cannot be ruled out that a court would find that the transmission of the Debtor data to the Data Trustee - though in anonymised form - occurred in violation of banking secrecy requirements, which may adversely affect the Issuer.

(v) *General Data Protection Regulation (Datenschutzgrundverordnung)*

According to the General Data Protection Regulation, a transfer of a customer's personal data is permitted if (a) the data subject has given consent to the processing of his or her personal data for one or more specific purposes or (b) processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract or (c) processing is necessary for compliance with a legal obligation to which the controller is subject or (d) processing is necessary in order to protect the vital interests of the data subject or of another natural person or (e) processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller or (f) processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child provided paragraph (f) shall not apply to processing carried out by public authorities in the performance of their tasks.

The Transaction has been structured to comply with the General Data Protection Regulation and the German Data Protection Act (*Bundesdatenschutzgesetz*). The relevant Transaction Documents contain the provisions stipulating the control and the processing of the personal data of the Debtors by the Seller, the Purchaser, the Issuer, the Corporate Administrator and the Transaction Security Trustee, e.g., the Seller will send two separate files to the Purchaser, one will contain personal data relating to the Debtors which will be encrypted and the other one will contain general information which does not qualify as protectable personal data which will not be encrypted. Pursuant to Clause 5 (*Personal Data; Maintenance of Secrecy; Data Protection*) of the Receivables Purchase Agreement, the Seller shall deliver to the Purchaser at the latest on the relevant Purchase Date the encrypted and the unencrypted data in respect of each Debtor for each Receivable and Related Collateral with respect to the Offer made at the Offer Date. Concurrently with such Offer, the Seller shall also provide the Data Trustee with the required Decoding Key.

In addition, the protection mechanisms provided for in the Data Trust Agreement and the Receivables Purchase Agreement should take into account the legitimate interests of the Debtors to prevent the processing and use of data by any of the Seller, the Purchaser and the Issuer.

However, the question whether in the event of the assignment of a receivables the transfer of the name and address of the relevant debtor to the assignee, even in encrypted form, is justified by the interests of the assignor, or whether the assignor must notify the debtors of such assignment, has not yet been finally answered in legal literature or case law. In addition, there is no jurisprudence or publication from a court or other competent authority available confirming the traditional view on the manner and procedures for an assignment of loan receivables to be in compliance with, or the consequences of a violation of, the Data Protection Amendment and Implementation Act (*Datenschutzanpassungs- und Umsetzungsgesetz*) which transposes the General Data Protection Regulation into national law. Here, the Issuer receives from the Seller on each offer date during the Revolving Period an unencrypted file containing information required to determine (*bestimmen*) the Receivables and the Related Collateral (other than Personal Data). In addition, on any Purchase Date the Purchaser receives the Encrypted File with respect to the Receivables and the Related Collateral with are the subject of a respective offer on such Purchase Date. The Data Trustee receives from the Seller, and safeguards, the Decoding Key and may release such Decoding Key only upon the occurrence of certain event. Whilst there are good arguments to support the view that the transfer of the Encrypted File is justified and that the Debtors do not need to be informed by the Issuer when a data trust structure is used, at this point there remains some uncertainty to predict the potential impact on the transaction and, as a consequence, any potential impact on Noteholders.

This holds particularly true as this data protection concept provided for in the above-mentioned Transaction Documents has not been tested in court and it cannot be ruled out that a German court would come to a different conclusion and, thus, that the Issuer could face administrative fines up to EUR 20,000,000, or in the case of an enterprise (*Unternehmen*), up to 4 per cent. of the total worldwide annual turnover of the preceding financial year (*gesamter weltweit erzielter Jahresumsatzes des vorangegangenen Geschäftsjahrs*), whichever is higher (cf. article 83 para. 6 of the General Data Protection Regulation). If the Issuer were required to pay any such fine the Issuer would have less funds

available to meet its obligations under relevant Priority of Payments, in particular with respect to interest and principal payable on the Notes.

(vi) German Consumer Loan Legislation

The provisions of the German Civil Code (*Bürgerliches Gesetzbuch*) applicable to loans to consumers apply to certain of the Purchased Receivables. Consumers are defined as individuals acting for purposes relating neither to their commercial nor independent professional activities. Similarly the German consumer loan legislation also applies to individuals as entrepreneurs who enter into the Auto Loan Contracts to take up a trade or self-employed occupation, unless the net loan amount or the cash price exceeds EUR 75,000. The Auto Loan Contracts will qualify as consumer Auto Loan Contracts and will therefore be subject to the consumer loan provisions of the German Civil Code (*Bürgerliches Gesetzbuch*) (in particular Sections 491 et seqq.). As the Purchased Receivables were originated on or after 11 June 2010, the amended provisions in the German Civil Code (*Bürgerliches Gesetzbuch*) on consumer loans and linked contracts (*verbundene Verträge*) that have been enacted in order to implement the EU Consumer Credit Directive 2008/48/EC into German law apply. Such provisions have been further amended by the law implementing Directive 2011/83/EU on consumer rights which entered into force on 13 June 2014. The Auto Loan Contracts are not all subject to the same, but to varying provisions of the German Civil Code (*Bürgerliches Gesetzbuch*) regarding consumer loans and linked contracts and, in particular, as regards the required instructions on a Debtor's right of withdrawal (*Widerrufsrecht*).

Under the above-mentioned provisions, if the borrower is a consumer (or an individual as entrepreneur who enters into the Auto Loan Contracts to take up a trade or self-employed occupation, unless the net loan amount or the cash price exceeds EUR 75,000), the borrower has the right to withdraw his or her consent to a consumer Auto Loan Contract for a period of fourteen (14) days commencing after the conclusion of the consumer Auto Loan Contract and the receipt of a written notice providing certain information including information regarding such right of withdrawal (*Widerrufsrecht*) (Sections 492 (2), 495, 355, 356b of the German Civil Code (*Bürgerliches Gesetzbuch*) as applicable). In the event that a consumer is not properly notified of his or her right of withdrawal or, in some cases, has not been provided with certain information about the lender and the contractual relationship created under the consumer loan, the consumer may withdraw his or her consent at any time during the term of the consumer Auto Loan Contract. German courts have adopted strict standards with regard to the information and the notice to be provided to the consumer. Such standards have, amongst others, been confirmed by a decision of the German Federal Supreme Court (*Bundesgerichtshof*) published in October 2018 and by a decision of the district court (*Landgericht*) of Hamburg published in November 2018, stating that the consumer's withdrawal period does not commence prior to the receipt of detailed information containing all mandatory information according to section 492 (2) of the German Civil Code, including information as to the accurate length of the withdrawal period. As a result of such strict standards applied by the courts, it cannot be excluded that a German court could consider the language and presentation used in certain Auto Loan Contracts as falling short of such standards. Further, the European Court of Justice ("**ECJ**") recently held that consumer loan agreements have to set out the information to be specified in accordance with European consumer protection laws in a clear and concise manner, including information on how the period of withdrawal is to be calculated. It further argued that European consumer protection laws precluded a loan agreement from making reference, as regards the required information, to a provision of national law which itself refers to other legislative provisions of national law (ECJ ruling C-66/19 dated 26 March 2020). Pursuant to the ECJ, such reference to legislative provisions does not sufficiently enable the borrower to determine the starting point of the period of withdrawal. The wording that appears to have been the subject of ECJ decision is contained in the form of withdrawal notice included in the Introductory Act to the German Civil Code ("**EGBGB**"). However, the German Federal Court of Justice has recently held, in light of the aforementioned ECJ decision, that a withdrawal instruction which follows the form of withdrawal notice published in the EGBGB will continue to be deemed a legal and valid withdrawal instruction which validly initiates the commencement of the 14 day withdrawal period.

Should a Debtor withdraw the consent to the relevant Auto Loan Contract, the Debtor would be obliged to immediately repay the Purchased Receivable (i.e. prior to the contractual repayment date). Hence, the

Issuer would receive interest under such Purchased Receivable for a shorter period of time than initially anticipated. In this instance, the Issuer's claims with regard to such repayment of the Purchased Receivable would not be secured by the Related Collateral granted therefor if the related security purpose agreement does not extend to such claims. In addition, depending on the specific circumstances, a Debtor may be able to successfully reduce the amount to be repaid if it can be proven that the interest he or she would have paid to another lender had the relevant Auto Loan Contract not been made (i.e., that the market interest rate was lower at that time), would have been lower than the interest paid under the relevant Auto Loan Contract until the Debtor's withdrawal of its consent to the relevant Auto Loan Contract (see also — "*Prepayment of Loans*").

If a Debtor is a consumer (or an individual as entrepreneur who enters into the Auto Loan Contract to take up a trade or self-employed occupation, unless the net loan amount or the cash price exceeds EUR 75,000) and the relevant vehicle or other goods or related services are financed in whole or in part by the Auto Loan Contract, such Auto Loan Contract and the related purchase agreement or other agreement may constitute linked contracts (*verbundene Verträge*) within the meaning of Section 358 of the German Civil Code (*Bürgerliches Gesetzbuch*) (as applicable). As a result, if such Debtor has any defences against the supplier of such vehicles or other goods or related services (e.g. in connection with a defect of a vehicle (in individual or collective cases resulting in recall campaigns or driving bans based on two recent rulings of the German Federal Administrative Court (*Bundesverwaltungsgericht*) on 27 February 2018 (docket number 7 C 26.16 and 7 C 30.17), including, but not limited to cases in connection with faulty software affecting emissions and fuel consumption tests used by the car manufacturer, as was revealed in November 2015 in respect of certain Volkswagen vehicles), such defences may also be raised as a defence against the Issuer's claim for payment under the relevant Auto Loan Contract and, accordingly, the Debtor may deny the repayment of such part of the Loan Instalments as relates to the financing of the related vehicle or other goods or related services. In this context it should be noted that the German Federal Court of Justice (*Bundesgerichtshof*) issued an indicative ruling (*Hinweisbeschluss*) on 8 January 2019 (docket number VIII Z 225/17) stating that the fact that a vehicle is equipped with a prohibited software that reduces the level of emissions in a test scenario (compared to the level of emissions in the normal operation) constitutes a defect (*Sachmangel*). Further, the Higher Regional Court of Cologne (*Oberlandesgericht Köln*) issued an indicative ruling (*Hinweisbeschluss*) on 29 April 2019 (docket number 16 U 30/19) stating that devices which impact emission tests constitute a material defect (*gravierender Mangel*) which – if caused deliberately by the relevant car manufacturer – results in damage claims of the debtors which bear interest already from the date of the purchase. Such view has not yet been confirmed by the German Federal Court of Justice (*Bundesgerichtshof*) and is still under discussion in legal literature; however, given that already some lower courts have followed such approach, it cannot be excluded that the German Federal Court of Justice (*Bundesgerichtshof*) will adopt this view in the future as well. In September 2019, the Higher Regional Court of Hamm (*Oberlandesgericht Hamm*) ruled (docket number 13 U 149/18) that the sale of a vehicle containing a manipulated motor control software (*Motorsteuerungssoftware*) constitutes an intentional damage contrary to public policy (*sittenwidrigen vorsätzlichen Schädigung*) within the meaning of section 826 of the German Civil Code (*Bürgerliches Gesetzbuch*). Such view has not yet been confirmed by the German Federal Court of Justice (*Bundesgerichtshof*) and is still under discussion in legal literature.

Further, the withdrawal of the Debtor's consent to one of the contracts linked (*verbunden*) to the Auto Loan Contract may also extend to such Auto Loan Contract and such withdrawal may be raised as a defence against such Auto Loan Contract. In addition, according to Section 360 of the German Civil Code (*Bürgerliches Gesetzbuch*) the withdrawal by the consumer of its consent to a contract extends to another contract that is not linked (*nicht verbunden*) but which qualifies as a related contract (*zusammenhangender Vertrag*). In Section 360 (2) of the German Civil Code (*Bürgerliches Gesetzbuch*), the term "related contract" is defined as a contract which is related to the contract subject to withdrawal and under which goods or services are provided by the same contractor or by a third party on the basis of an agreement between the relevant contractor and such third party. The provision further states that a consumer loan agreement also qualifies as a related contract if (i) the loan exclusively serves to finance the goods or services under the contract subject to withdrawal and (ii) such goods or services are explicitly identified in the consumer loan agreement. Therefore, in the event the requirements of Section 360 of the German Civil Code (*Bürgerliches Gesetzbuch*) are met, the withdrawal extends also to the Auto Loan Contract and the Debtor may raise the withdrawal of its consent to such other contract as a defence against its obligations under the Auto Loan Contract. The notice providing information about the right of

withdrawal must contain information about the aforementioned legal effects of linked and related contracts. In the event that a consumer is not properly notified of its right of withdrawal and such legal effects of linked and related contracts, the consumer may withdraw its consent to any of these contracts at any time during the term of these contracts (and may also raise such withdrawal as a defence against the relevant Auto Loan Contract). If, for example, the purchase agreement for vehicles or other goods or the related services linked to an Auto Loan Contract is invalid or has been rescinded, the Debtor has the right to refuse further payments under the relevant Auto Loan Contract and may in certain circumstances also request repayment of the amount already paid under the Auto Loan Contract.

The German Federal Court of Justice (*Bundesgerichtshof*, 15 December 2009 (11 ZR 45/09)) has decided that the abovementioned provisions and principles as regards linked contracts also apply to insurance policies, in particular to any payment protection insurance policy (*Restschuldversicherung*) (each a "**Relevant Insurance Policy**") entered into by the Debtor. Hence, Section 358 (1) of the German Civil Code (*Bürgerliches Gesetzbuch*) would also apply to cases where the consumer withdraws its consent to a Relevant Insurance Policy, i.e. the Auto Loan Contract would be affected as described above. If the same principles apply to such cases in which the Relevant Insurance Policy is entered into by the Seller as policy holder (*Versicherungsnehmer*) and the Debtor merely accedes to it as insured person (*versicherte Person*), is disputed in literature and in jurisprudence. It could be argued that the Debtor should benefit from the same consumer protection as if the Debtor was the policy holder and the Relevant Insurance Policy and the related Auto Loan Contract constituted linked contracts (to the extent the premiums to the relevant insurance have been financed by the Auto Loan Contract). This would in particular imply that defences may be invoked by the Debtor against the Auto Loan Contract on the basis of rights and claims the Debtor or the Seller may have under the Relevant Insurance Policies. While contradictory court rulings have been issued by a number of Higher Regional Courts (*Oberlandesgerichte*) and Regional Courts (*Landgerichte*), the German Federal Court of Justice (*Bundesgerichtshof*) has not decided this question.

In addition, there is legal uncertainty as to the interpretation of Section 360 of the German Civil Code (*Bürgerliches Gesetzbuch*) (as applicable) regarding the question whether the above described legal consequences could be triggered in relation to a Relevant Insurance Policy which is neither linked nor (on the basis of the line of arguments outlined in the preceding paragraph) treated as if it was linked to an Auto Loan Contract but which is sufficiently specified in, and financed by (as applicable), such Auto Loan Contract. If such consequences were triggered, it would be uncertain whether the Auto Loan Contract would only be affected to the extent it finances the Relevant Insurance Policy or on the whole.

Further, it should be noted that the abovementioned provisions and consequences as regards linked contracts may also apply to other contracts (e.g. GAP insurance policies or extended warranty contracts) related to an Auto Loan Contract if the loan under such Auto Loan Contract serves, amongst others, to finance the relevant other contract and both contracts constitute an economic unit within the meaning of Section 358 of the German Civil Code (*Bürgerliches Gesetzbuch*).

However, if the relevant Auto Loan Contract is revoked or voided due to a revocation of a linked contract, the Seller shall make a payment in form of a Deemed Collection in the amount of the Adjusted Outstanding Principal Amount of Purchased Receivable under such Auto Loan Contract plus any outstanding balance of interest accrued and not paid thereunder. See "*APPENDIX A - CERTAIN DEFINITIONS — Deemed Collection*". As a consequence, the Issuer will, upon receipt of a Deemed Collection, pay such amounts to Noteholders on the next Payment Date in accordance with the Terms and Conditions of the Notes. See "*TERMS AND CONDITIONS OF THE NOTES—Replenishment and Redemption — Amortisation*". Consequently, in the event that any such revocation occurs and the corresponding Deemed Collections are not paid by the Seller, the Issuer's ability to make payments to the Noteholders may be adversely affected.

In addition, it should be noted that the German Federal Court of Justice (*Bundesgerichtshof*) recently decided on the validity of clauses in general terms and conditions restricting set-off by a consumer borrower (judgment dated 20 March 2018 – XI ZR 309/16). The case deals with a clause in the general terms and conditions of a consumer loan agreement of a German savings bank (*Sparkasse*) restricting the right of the borrower to declare set-off to cases where his or her claim is either undisputed (*unbestritten*) or finally adjudicated (*rechtskräftig festgestellt*). This is in line with the scope of Section 309 no. 3 of the

German Civil Code (*Bürgerliches Gesetzbuch*). However, the German Federal Court of Justice (*Bundesgerichtshof*) ruled that such restriction needs to be interpreted as also excluding the right of the borrower to declare setoff with claims upon exercising his or her right of withdrawal (*Widerrufsrecht*) and that such restriction rendered the relevant clause invalid pursuant to Section 307 of the German Civil Code (*Bürgerliches Gesetzbuch*) as it constitutes an unreasonable disadvantage (*unangemessene Benachteiligung*) to the borrower. As the clause in question is worded very similar to the clause used in every version of the template Auto Loan Contracts for consumers as borrowers, there is a risk that such clauses may be regarded as invalid by a competent court. This results in a Debtor being free to declare set-off with claims of its own against payment claims of the Issuer and, as a consequence, investors may suffer losses under the Notes.

(vii) *Economic Conditions in the Euro-zone*

Concerns relating to credit risks (including that of sovereigns and those of entities which are exposed to sovereigns) have intensified over the past few years. In particular, concerns have been raised with respect to current economic, monetary and political conditions in the Euro-zone. If such concerns persist and/or such conditions further deteriorate (including as may be demonstrated by any relevant credit rating agency action, any default or restructuring of indebtedness by one or more states or institutions and/or any changes to, including any break-up of, the Euro-zone), then these matters may cause further severe stress in the financial system generally and/or may adversely affect one or more of the parties to the Transaction Documents (including the Seller and/or the Servicer) and/or any Debtor in respect of the Purchased Receivables. Given the current uncertainties and the range of possible outcomes, no assurance can be given as to the impact of any of the matters described above and, in particular, no assurance can be given that such matters would not adversely affect the rights of the Noteholders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

(viii) *Non-Existence of Purchased Receivables*

The Issuer retains the right to bring indemnification claims against the Seller but no other person if the Purchased Receivables do not exist or cease to exist without encumbrance (*Bestands- und Veritätshaftung*) in accordance with the Receivables Purchase Agreement. If the Auto Loan Contract relating to a Purchased Receivable proves not to have been legally valid as of the Purchase Date, the Seller will pay to the Issuer a Deemed Collection in an amount equal to the Adjusted Outstanding Principal Amount of such Purchased Receivable plus any outstanding balance of interest accrued and not paid thereunder (or the affected portion thereof) pursuant to the Receivables Purchase Agreement. (see also *Creditworthiness of Parties to the Transaction Documents*).

The same applies if a Debtor uses its right of withdrawal (*Widerrufsrecht*). Such withdrawals are legally possible even after the expiry of the regular two week time period for withdrawals if the instruction of withdrawal (*Widerrufsbelehrung*) used by the Seller or the counterparty of a linked contract within the meaning of Section 358 of the German Civil Code (*Bürgerliches Gesetzbuch*) does not comply with legal requirements. The legal requirements applicable to instructions of withdrawal are under constant review of the German courts. See "*RISK FACTORS - German Consumer Loan Legislation*".

(ix) *Credit Risk of the Debtor and Sale of Cars*

If the Seller does not receive the full amount due from the Debtors in respect of the Purchased Receivables, the Noteholders are at risk to receive less than the face value of their Notes and interest payable thereon. Consequently, the Noteholders are exposed to the credit risk of the Debtors. Neither the Seller nor the Issuer guarantees or warrants the full and timely payment by the Debtors of any sums payable under the Purchased Receivables. The ability of any Debtor to make timely payments of amounts due under the relevant Auto Loan Contract will mainly depend on his or her assets and liabilities as well as his or her ability to generate sufficient income to make the required payments. The Debtors' ability to generate income may be adversely affected by a large number of factors.

There is no assurance that the present value of the Purchased Receivables will at any time be equal to or greater than the principal amounts outstanding of the Notes.

In addition, there can be no assurance as to the future geographical distribution of the Debtors or the Cars within Germany and its effect, in particular, on the rate of amortisation of the Purchased Receivables. Consequently, any deterioration in the economic condition of Germany where Debtors and Cars are located could have an adverse effect on the ability of the Debtors to repay the loans and the ability of the Security Trustee to sell the Cars and could trigger losses in respect of the Notes or reduce their yield to maturity. Furthermore, although the Debtors are located throughout Germany, these Debtors may be concentrated in certain locations, such as densely populated or industrial areas. Any deterioration in the economic condition of the area in which the Debtors are located (or any deterioration in the economic condition of other areas) may have an adverse effect on the ability of the Debtors to make payments under the Auto Loan Contracts. A concentration of the Debtors in such area may therefore result in a greater risk that the Noteholders will ultimately not receive the full principal amount of the Notes and interest thereon than if such concentration had not been present.

The rate of recovery upon a Debtor default may itself be influenced by various economic, tax, legal and other factors such as changes in the value of the Cars (including, but not limited to cases in connection with faulty software affecting emissions and fuel consumption tests used by the car manufacturer, as was revealed in November 2015 in respect of certain Volkswagen vehicles) or the level of interest rates from time to time. There might be various risks involved in the sales of used vehicles which could significantly influence the amount of proceeds generated from the sale, *e.g.* high damages and mileages, less popular configuration (engine, colour etc.), oversized special equipment, huge numbers of homogeneous types of vehicles in short time intervals, general price volatility in the used vehicles market or seasonal impact on sales or any legal restrictions on the use of certain types of vehicles which may affect the value of a Car (*e.g.* driving restrictions with respect to certain types of Diesel cars have been adopted for certain areas and are presently under discussion for a number of other areas).

(x) *Balloon Payments*

An Auto Loan Contract may be structured as a loan with a balloon payment, amortising on the basis of equal monthly Loan Instalments (except for the last Instalment), but with a substantial portion of the initial amount advanced under the Receivable being repaid in a single "balloon" instalment at maturity. By deferring the repayment of a substantial portion of the principal amount of a Receivable until its final maturity date, the risk of non-payment of the final Loan Instalment under such "balloon loan" may be higher than would be the case under a loan with equal Loan Instalments up to and including the maturity date and, as a consequence, Noteholders may be subject to an increased risk of losses. However, such risk is mitigated by the obligation of the respective Car Dealer vis-à-vis a Debtor to repurchase such Car at market value and the application of the repurchase price towards full discharge of the final "balloon" instalment. In addition, it should be noted that the obligation by a Borrower to repay the principal amount of a Receivable under the Auto Loan Contract exists independently from the contractual relationship with the Car Dealer (for risks related to any defences arising from linked or related contracts, see — "*German Consumer Loan Legislation*").

(xi) *Risk of Losses in respect of Purchased Receivables; Changing characteristics of the Purchased Receivables during the Revolving Period*

The payment of principal and interest on the Notes is, *inter alia*, conditional on the performance of the Purchased Receivables.

The performance of the Purchased Receivables depends on a number of factors, including general economic conditions, unemployment levels, the circumstances of individual Debtors and PSA Bank Deutschland underwriting standards at origination. In addition, it should be noted that Available Principal Amount will, subject to being sufficient to fund the payment of the Principal Component Purchase Price in whole (but not in part) under item *second* of the Pre-Enforcement Principal Priority of Payments on such Payment Date, be used by the Issuer to purchase and acquire Additional Receivables. As a consequence, the composition and characteristics of the receivables pool may be substantially different from the receivables pool as of the First Selection Date. Such differences could result in faster or slower repayments or higher losses suffered by the Noteholders than originally expected in relation to the portfolio of Purchased Receivables on the Closing Date. Therefore, there is no assurance that the Noteholders will receive the total initial Note Principal Amount in respect of the relevant Class of Notes

plus interest as stated in the Terms and Conditions of the Notes, in particular, as there is no assurance that the payments made under the underlying Auto Loan Contracts will correspond to those originally agreed upon. In order to reduce any potential negative deviations from the Portfolio, the Seller is required to sell and assign only Additional Receivables which are Eligible Receivables and, in addition, following the purchase of such Additional Receivable on a Subsequent Purchase Date, the Portfolio must meet the eligibility criteria for an Eligible Portfolio (and, for the avoidance of doubt, such Additional Receivable shall not be so purchased if, following such purchase, the Portfolio would not meet such eligibility criteria).

(d) Taxation in the Federal Republic of Germany

The following risks relate to taxation which could impact the amount the Issuer has available to pay Noteholders and should be read in conjunction with "TAXATION IN GERMANY" below.

(i) Corporate Income Tax

Business profits derived by the Issuer will be subject to German corporate income tax (*Körperschaftsteuer*) at a rate of 15% and solidarity surcharge (*Solidaritätszuschlag*) at a rate of 5.5% thereon, as the Issuer is a corporation with its statutory seat and its place of effective management in Germany. The aggregate rate of corporate income tax and solidarity surcharge thereon will amount to 15.825%.

The Issuer's income subject to tax will be determined under German tax accounting rules on an accruals basis modified by certain tax rules. On this basis, the Issuer's corporate income tax base will generally be calculated by deducting the interest payable on the Notes as well as any business expenses incurred by it, such as for instance fees from its income derived from the Purchased Receivables, such as interest, unless specific restrictions apply.

Notes as equity-like instruments (Genussrechte) (Section 8 (3) sentence 2 KStG)

If the Notes were to classify as equity-like instruments within the meaning of Section 8 (3) sentence 2 of the German Corporate Income Tax Act (*Körperschaftsteuergesetz* or "KStG") the Issuer would be disallowed to deduct any interest payments on the Notes from its taxable income. Consequently, interest paid under Notes would be subject to German corporate income tax (as well as trade tax) at the level of the Issuer. It should be unlikely, however, that the Notes are to be seen as equity like instruments.

Section 5 (2a) EStG (Rangrücktritt)

If Section 5 (2a) of the German Income Tax Act (*Einkommensteuergesetz* or "EStG") was applicable, the Issuer would be disallowed to recognize its obligations regarding payments of principal and interest on the Notes in its tax accounts. As a result, amounts received in return for the issuance of the Notes would result in taxable income as they could not be offset against obligations regarding payments of principal and interest. A later repayment of principal and interest on the Notes would result in tax-deductible expenses which most likely cannot be offset against (sufficient) positive income of the Issuer at this point in time. However, there is limited likelihood of Section 5 (2a) EStG being applicable.

Interest Barrier Rule

The deductibility of interest expenses for German tax purposes may, under certain circumstances, be limited under so called interest barrier rule (*Zinsschranke*) ("**Interest Barrier Rule**"). As a general rule, net interest expenses (i.e. interest income less interest expenses) exceeding 30% of the Issuer's earnings before interest, tax, depreciation and amortization (*EBITDA*) as determined for German tax purposes are not deductible. The Interest Barrier Rule only applies if the net interest expenses equal or exceed EUR 3,000,000 in the relevant business year. It should be noted that this is not an allowance (*Freibetrag*), but a so-called exemption limit (*Freigrenze*), which ceases to apply completely as soon as the limit is reached or exceeded.

The Interest Barrier Rule would not apply to the Issuer if the Issuer were to be considered as a non-consolidated entity within the meaning of the applicable accounting law. An undertaking belongs to a group if it is or could be consolidated with one or more other undertakings in accordance with the applicable accounting standard. It is envisaged that the Issuer will be included in the consolidated accounts of the Seller. Consequently, the Interest Barrier Rule would generally apply to the Issuer and may restrict interest deduction for German corporate income tax (and trade tax) purposes. However, based on a fairness ruling (*Billigkeitsregelung*) in a decree issued by the German Federal Ministry of Finance (*Bundesfinanzministerium*) on 4 July 2008 (German Federal Tax Gazette (*Bundessteuerblatt*) Vol. I 2008, 718) ("**Interest Barrier Decree**"), a company may be treated as a non-consolidated company if it is a special purpose vehicle used in securitization transactions and is exclusively consolidated because of economic considerations regarding the allocation of risks and rewards. The aforementioned exemption from the applicability of the Interest Barrier Rule is only based on administrative guidance in terms of a fairness ruling (*Billigkeitsregelung*) and not on law. Pursuant to the case law of the German Federal Fiscal Court administrative fairness rulings may not be enforceable in court if a dispute arises (see BFH Beschluss 28.11.2016 - GrS 1/15 Rn. 107, 108).

If the Interest Barrier Rule applied to the Issuer, the deductibility of interest payments would be limited in accordance with the principles described above, and any interest payments that are not deductible could be carried forward and would generally be deductible in subsequent business years, again subject to limitations of the Interest Barrier Rule which may effectively result in non-deductible interest expenses.

In case the beneficial ownership to the Purchased Receivables were not transferred solely for German tax law purposes (Section 39 (2) no. 1 German General Tax Code ("**AO**")), it is likely, however, that the Issuer by collecting the Purchased Receivables would earn interest income and not profit according to German tax law (cf. no. 14 of Interest Barrier Decree). The acquisition of the Purchased Receivables by the Issuer would then be classified as a financing transaction (in contrast to factoring/forfeiting). Therefore, the Issuer should earn interest income within the meaning of Section 20 (1) no. 7 EStG and no capital gains in terms of Section 20 (2) no. 7 EStG. Assuming that the (deemed) interest income from the Notes is not lower than the interest paid to the Noteholders, the deduction of such interest expenses on the Notes would not be restricted by the Interest Barrier Rule.

If, in contrast, the beneficial ownership to the Purchased Receivables were to be transferred to the Issuer for German tax law purposes (Section 39 (2) no. 1 AO), the Issuer should earn capital gains in terms of Section 20 (2) no. 7 EStG and no interest income within the meaning of Section 20 (1) no. 7 EStG. Consequently, the interest paid to the Noteholders may be fully subject to the restrictions of the Interest Barrier Rule resulting in about 70% non-deductible interest expenses or more (in case the EUR 3 million limit was reached or exceeded).

However, based on a fairness ruling (*Billigkeitsregelung*) granted by the Interest Barrier Decree no 32, 14 income from purchased receivables in case of factoring/forfeiting may be treated as interest income (instead of capital gains) provided that the Issuer and the Seller applied jointly and in written form with their competent tax offices. In this event, the Issuer's capital gains from the Purchased Receivables could be treated as interest income. Whether the Issuer and the Seller have applied or will apply jointly and in written form with their competent tax office is not confirmed. Furthermore, the aforementioned treatment of capital gains as interest income is only based on administrative guidance in terms of a fairness ruling (*Billigkeitsregelung*) and not on law. Pursuant to the case law of the German Federal Fiscal Court administrative fairness rulings may not be enforceable in court if a dispute arises (see BFH Beschluss 28.11.2016 - GrS 1/15 Rn. 107, 108).

Minimum Taxation and Tax Impairment (Teilwertabschreibung)

The Issuer may choose to impair the Purchased Receivables to the lower going-concern value for German tax accounting purposes according to Section 6 (1) no. 2 sentence 2 EStG ("**Tax Impairment**"). Such Tax Impairment would result in a loss that is generally tax deductible. If the Issuer can subsequently collect the Purchased Receivables, it will realize a profit again. Since such profit has to be offset from the impairment loss suffered earlier, the Issuer should economically be in a neutral position. However, according to minimum taxation rules under Section 10d (2) EStG and Section 10a GewStG losses that cannot be fully utilized to off-set taxable income in the relevant year or origination of such losses can

generally be carried-forward for tax purposes ("**Tax Loss Carry-Forward**") and be used to set-off taxable profits arising in subsequent business years. However, such set-off is limited to an amount of taxable profits of EUR 5,000,000 (for FY 2021, subsequently EUR 1,000,000) whereas only 60% of the taxable profits exceeding such threshold amount can be offset by the remainder of the Tax Loss Carry-Forward. As a result, a tax liability ("**Minimum Taxation**") would arise to the extent that (i) the profits from a subsequent collection of the Purchased Receivables may not be set-off against the remaining Tax Loss Carry-Forward resulting from the loss from the Tax Impairment and (ii) the threshold of EUR 5,000,000 (for FY 2021, subsequently EUR 1,000,000) is exceeded. The aforementioned restrictions on the deduction of Tax Loss Carry-Forwards can be mitigated by the Issuer if it does not carry out any Tax Impairment. Such impairments are not mandatory for tax purposes, as the Issuer has a relevant option right.

(ii) *Trade Tax*

Since the Issuer's statutory seat and place of effective management is in Germany, the Issuer will be subject to German trade tax. In principle, the taxpayer's corporate income tax base also constitutes the tax base for German trade tax purposes.

However, as a general rule, for trade tax purposes, 25% of the interest payable by the Issuer (to the extent the interest (i) is deductible under the Interest Barrier Rule (*Zinsschranke*) and (ii) exceeds a threshold of EUR 200,000) will be "added-back" to the Issuer's tax base and, consequently, increases the trade tax burden of the Issuer. As a result, only 75% of interest expenses on the Notes are deductible for German trade tax purposes. If this rule were to apply in the present case, the Issuer would therefore have to pay German trade tax even if it were to generate no or only a very small profit under accounting principles.

The Issuer's tax base would, however, not have to be increased under the aforementioned add-back rule if it benefited from an exception to the add-back rule provided for by Section 19 (3) no 2 of the German Trade Tax Application Directive (*Gewerbsteuerdurchführungsverordnung* - "**GewStDV**"). This exception applies where a trade tax payer exclusively (i) acquires certain credit receivables (*Kredite*) or (ii) assumes certain credit risks (*Kreditrisiken*) pertaining to loans originated by credit institutions (*Kreditinstitute*) within the meaning of Section 1 of the German Banking Act (*Kreditwesengesetz*) and refinances (i) the purchase price in case of the acquisition of the acquired receivables or (ii) the provision of collateral in case of the assumption of credit risk, by way of issuing debt instruments (*Schuldtitel*).

Following published statements of an expert committee of the German Institute of Chartered Accountants (*Institut der Wirtschaftsprüfer* - *IDW*), however, the Seller may still be considered as beneficial owner of the Purchased Receivables (IDW RS HFA 8) for German accounting purposes because the credit risk may not be transferred to the Issuer due to the selected discounts, including the subordinated loans and the excess spread. According to the IDW, the credit risk is also not transferred if the seller takes over all or most of the issued notes. Even if the IDW only comments on issues of German accounting and not on tax law, the IDW was indirectly confirmed by the German Federal Fiscal Court (*Bundesfinanzhof*). The court held in a decision dated 26 August 2010 (I R 17/09) that in respect of securitisation transactions beneficial ownership (*wirtschaftliches Eigentum*) in the receivables is not necessarily being transferred to the purchaser of the receivables for German tax purposes (Section 39 (2) no. 1 AO). Instead, it generally remains with the seller if the risk of the inability of the debtors to pay their obligations (*Bonitätsrisiko*) has not been fully transferred to the purchaser which would, pursuant to the guiding principles (*Leitsatz*) of the decision, be the case if the purchaser - in determining the purchase price - takes directly or indirectly into account a discount that is significantly higher than the expected default ratio, but which is adjustable depending on the actual receipt of payments under the receivables. Furthermore, the German Federal Fiscal Court (*Bundesfinanzhof*) does not comment on the tax consequences for the credit risk (*Bonitätsrisiko*) in case the seller takes over all or most of the notes.

It is unclear whether Section 19 (3) no. 2 GewStDV requires that beneficial ownership within the meaning of Section 39 (2) AO is transferred to the buyer of the credit receivables. The legislative history and the explanatory memorandum may suggest that it could be sufficient if there is a true sale in the legal sense. However, there is neither German case law nor relevant published statements of the tax authorities on this issue.

If the Issuer was regarded as not becoming the beneficial owner of the Purchased Receivables for German tax law purposes (Section 39 (2) no. 1 AO), there is a risk, consequently, that the Issuer is not able to meet the requirements of Section 19 (3) no. 2 GewStDV and, thus, has to apply the 25% add-back rule. This would mean that 25% of the total interest expenses of the Issuer may be subject to about 16% German Trade Tax.

(iii) VAT

In transactions in which the seller of the receivables (Originator) retains the servicing of the receivables sold, the sale, purchase and assignment of the Purchased Receivables is generally exempt from German value added tax (*Umsatzsteuer*; "**VAT**"). Under the criteria set forth in section 2.4 of the German VAT Guidelines (*Umsatzsteuer-Anwendungserlass "UStAE" – "VAT Guidelines"*), the acquisition of the Purchased Receivables is, for VAT purposes, treated as VAT-exempt loan granted by the Issuer to the Originator. The related transfer of the receivables by the Originator to the Issuer is treated as VAT-exempt assignment of receivables (<https://www.steuerlinks.de/gesetz/ustg/par4.html>). The collection activities by the seller (as Servicer for the transferred receivables) is generally treated as non-taxable and otherwise as VAT-exempt in such constellations (cf. section 2.4 (3) VAT Guidelines). Accordingly, the Issuer, being a taxable person (*Unternehmer*) for VAT purposes, is not required to charge VAT on the acquisition of the Purchased Receivables.

It should be noted that the aforementioned conclusions of the German tax authorities with respect to the VAT-exemptions of the transactions between the Seller and the Issuer (particularly about the absence of a taxable factoring service in such a constellation) have not yet been confirmed by the German Federal Fiscal Court (*Bundesfinanzhof*). It can hence not be fully excluded that these conclusions could be overruled by a decision of the German Federal Fiscal Court, or that the tax authorities might change their interpretation and subject the transactions to VAT (even though this would currently appear unlikely).

If, on the other hand, the purchaser (or a third party appointed by the purchaser) should service the purchased receivables during the transaction, the Issuer would likely be considered as supplying a taxable 'factoring' service to the Seller. Such a factoring service would not be exempt from German VAT (Section 2.4 Para. 4 Sentence 3 UStAE). In consequence the difference between the nominal value of the sold receivables and the purchase price could be subject to German VAT to be remitted by the Issuer to the tax authorities (the courts have not clearly confirmed such a result yet for the transfer of performing loans in securitization transactions), however, so that the taxation would not be certain in such event; see e.g. Tax Court Dusseldorf, 15 February 2008 (1 K 3682/05 U); German Federal Fiscal Court (V R 18/08), 10 December 2009; European Court of Justice (C-93/10), 27 October 2011; BFH, 26 January 2012 (V R 18/08) and 4 July 2013 (V R 8/10).

In the event of a substitute servicer being appointed by the Issuer, fees payable by the Issuer to a German substitute servicer would be subject to German value added tax to be invoiced to the Issuer. The Issuer would not be entitled to deduct input-VAT (*Vorsteuer*), given that the 'output' supplies rendered by the Issuer itself are exempted from VAT (as the Issuer grants VAT-exempt loans to the seller, see above; and the issuance of Notes by the Issuer is likewise VAT-exempt). It is uncertain how the German tax authorities or courts would classify the subsequent collection of the Purchased Receivables by the substitute servicer for VAT purposes. It is unlikely that this event would change the VAT classification of the overall transaction to create a taxable factoring service (by the Issuer) retroactively. With regard to the servicing activities after the date of replacement of the seller as servicer, one could argue that the new servicer, from this moment onwards, merely acts as an auxiliary person (*Erfüllungsgelhilfe*) of the Issuer which in turn should be regarded as the Issuer providing a taxable factoring service to the seller from this moment onwards for which the Issuer would need to remit VAT to the tax authorities.

In addition, the Issuer would in this situation be liable in accordance with the Pre-Enforcement Interest Priority of Payments for any costs, fees (including VAT) and expenses charged to it by the substitute servicer. Furthermore, pursuant to the Servicing Agreement the Servicer has the right to delegate the performance of all or part of its duties under the Servicing Agreement to (i) a direct or indirect subsidiary of PSA Bank Deutschland or of a parent of PSA Bank Deutschland where such subsidiary constitutes an affiliated company and (ii) with the prior written consent of the Issuer and the Security Trustee, to any third party. In the latter case, the Issuer would have to reimburse the Servicer for any fees (including

VAT, if any), costs, charges and expenses, indemnity claims and other amounts payable by the Servicer to any such agent in accordance with the Pre-Enforcement Interest Priority of Payments. The Issuer would not be entitled to deduct input-VAT (*Vorsteuer*) in such event.

The Issuer could under certain circumstances become secondarily liable for VAT owed and not paid by the Seller in respect of the Purchased Receivables pursuant to Section 13c UStG. However, it can be expected that the Seller and originator of the Purchased Receivables could not and has not opted to a VAT-able treatment of its financing services rendered to the Debtors and, therefore, no VAT liability and consequently also no secondary liability should arise.

(iv) Withholding Tax

Withholding Tax to be deducted by the Issuer

The Issuer has been advised that withholding tax (*Kapitalertragsteuer*) and solidarity surcharge thereon does not have to be withheld by the Issuer on payments of interest on the Notes. This is based upon the consideration that the Notes do not qualify as profit participating loans (*partiarische Darlehen*) or silent partnerships (*stille Gesellschaft*) within the meaning of Section 20 (1) no. 4 EStG. If the Notes qualified as profit participating loans (*partiarische Darlehen*) or silent partnerships (*stille Gesellschaft*) within the meaning of Section 20 (1) no. 4 EStG, the Issuer would have to withhold withholding tax (*Kapitalertragsteuer*) in an amount of 26.375% (plus church tax, if applicable upon payment to an individual noteholder in case no blocking notice (*Sperrvermerk*) has been filed) on payments of interest on the Notes. It should be noted that the *Bundesfinanzhof* (decision dated 22 June 2010, I R 78/09) has stated as an obiter dictum that the mere fact that an interest payment is deferred until the borrower has sufficient liquidity would give rise to a treatment of the loan as profit participating as, in such a case, the interest claim would only be fulfilled once the borrower has realised an operating profit.

Furthermore, there is a risk that the Issuer could be required to withhold and pay German withholding tax at a rate of 26.375% (plus church tax, if applicable upon payment to an individual noteholder in case no blocking notice (*Sperrvermerk*) pursuant to section 44 (1) sentence 4 no. 1 literature b) EStG if the Notes are not held in collective safe custody in Germany. It is clear from the legislative material and history that the aforementioned provision should only apply in certain exceptional cases, which should not be relevant here. However, due to the ambiguous wording of the German legal text, there remains a risk that the German tax authorities might take a different position.

Withholding Tax to be deducted by the Seller

In case the Issuer did not become the beneficial owner of the Purchased Receivables for German tax law purposes (cf. Section Trade Tax above), the purchase of Receivables would be considered being a loan granted from the Issuer to the Seller for German tax purposes. Consequently, the Seller being a German credit institution would likely be required to deduct German withholding tax in the amount of 26,375% on the deemed interest payments pursuant to Sections 43 (1) sentence 1 no. 7 lit. b) and 44 (1) sentence 4 no. 2 EStG on behalf of the Issuer. Even if the withholding tax is credited or refunded to the Issuer in the following annual tax return, the Issuer will suffer a liquidity disadvantage. The tax deduction (and the liquidity disadvantage) may be avoided if the Issuer were able to present a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) as a permanent excess payer (*Dauerüberzahler*) pursuant to Section 44a (5) EStG issued by the competent tax office.

(v) Potential change in law

Please note that pursuant to the coalition agreement of CDU, CSU and SPD - the flat tax regime shall be abolished for certain investment income, which might also affect the taxation of income from the Notes. As a consequence, interest income (if the Notes were recharacterised as profit participating loans or as a silent partnership) might become taxed at the progressive tax rate of up to 45% (excluding solidarity surcharge). Although the solidarity surcharge will generally be abolished from the year 2021 on **provided that** certain thresholds are not exceeded, the solidarity surcharge will remain unaltered with respect to corporate income tax

The Issuer has not applied for an advance binding ruling (*verbindliche Auskunft*) with the competent tax office regarding the tax treatment of certain issues described in the preceding paragraphs. Therefore, the tax authorities did not have the opportunity to review the structure of the transaction before and to confirm by way of a binding statement the interpretation of the relevant tax law provisions as outlined in this Prospectus. Hence, it is unclear which position the tax authorities will take when it comes to assessing the tax liabilities of the Issuer.

(vi) The proposed European financial transaction tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**Participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has a very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

However, according to the ECOFIN Council, further work is required before a final agreement may be reached. Accordingly, the FTT proposal may be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. It may, however, be reasonably expected that the FTT may be introduced in certain EU Member States.

Prospective holders of the Notes should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing for, purchasing, holding and disposing of the Notes.

(vii) U.S. Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986 (commonly known as "**FATCA**"), a "foreign financial institution" may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer may be qualified as a foreign financial institution for these purposes. A number of jurisdictions (including Germany) have entered into intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of the German IGA as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years following the publication of final regulations defining the term "foreign passthru payments" in the U.S. Federal Register and Notes characterized as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal income tax purposes that are issued on or prior to the date that is six months following the publication of final regulations defining the term "foreign passthru payments" in the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer).

Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect

to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on proposed regulations and official guidance, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their own tax advisers on how these rules may apply to the Issuer or investors and to payments they may receive in connection with the Notes.

(viii) No Gross-Up for Taxes

If required by law, any payments under the Notes will only be made after deduction of any applicable withholding taxes (including FATCA Withholdings) and other deductions. The Issuer will not be required to pay additional amounts in respect of any withholding or other deduction for or on account of any present or future taxes, duties or charges of whatever nature. See "*TERMS AND CONDITIONS OF THE NOTES — Taxes*". In such event, subject to certain conditions, the Issuer will be entitled (but will have no obligation) to redeem the Notes in whole but not in part at their then Aggregate Outstanding Note Principal Amount. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Optional Redemption for Taxation Reasons*".

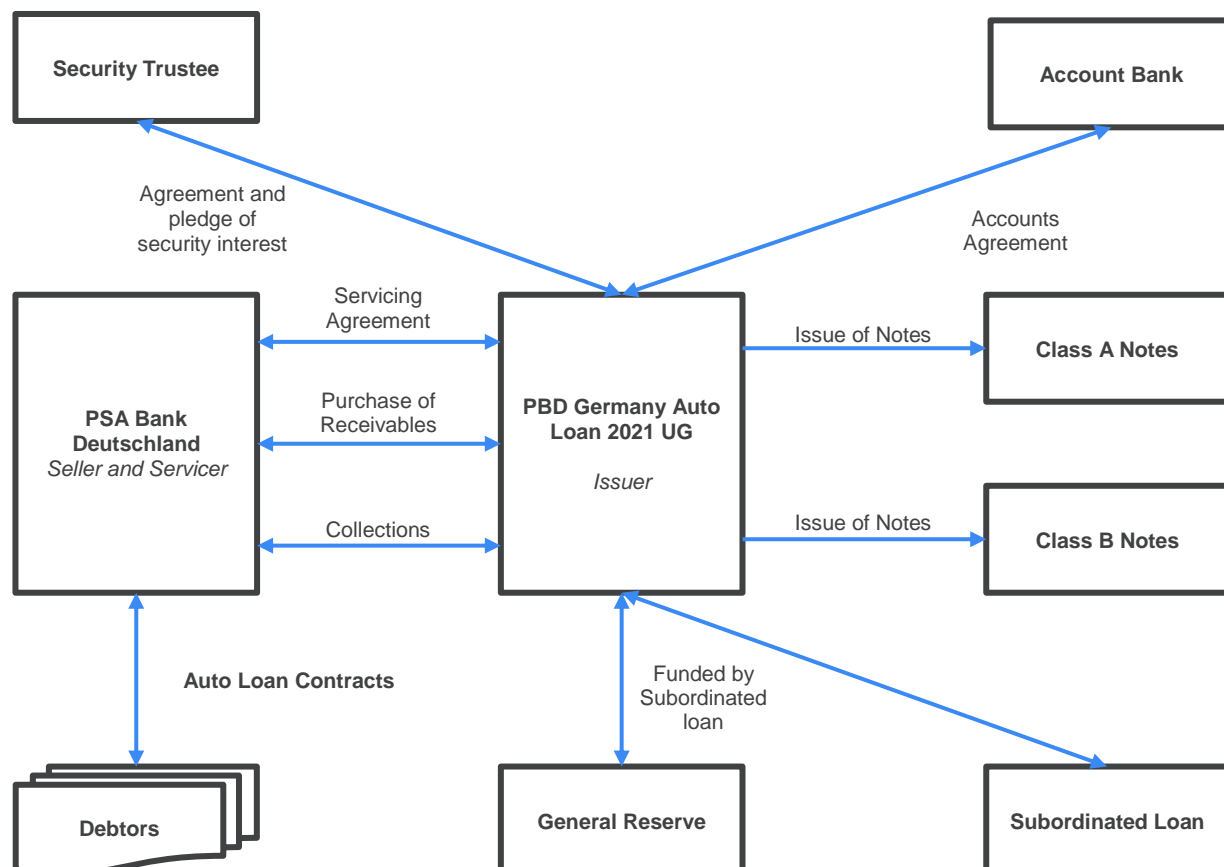

The Issuer believes that the risks described above are the principal risks inherent in the transaction for the Noteholder. Although the Issuer believes that the various structural elements described in this Prospectus lessen some of these risks for the Noteholders, there can be no assurance that these measures will be sufficient to ensure payment to Noteholders of interest, principal or any other amounts on or in connection with the Notes on a timely basis or at all.

During the Revolving Period, the Issuer is, pursuant to the terms of the Receivables Purchase Agreement and subject to certain requirements set out therein, obliged on each Subsequent Purchase Date to purchase Additional Receivables offered by the Seller by applying the Available Principal Amount. See " <i>OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Receivables Purchase Agreement</i> ".
Classes of Notes	On the Closing Date the Issuer will issue Class A Fixed Rate Notes in an initial aggregate principal amount of EUR 466,200,000 (the " Initial Class A Notes ") and Class B Fixed Rate Notes in an initial aggregate principal amount of EUR 33,800,000 (the " Initial Class B Notes "), which will be backed by the Portfolio. The Issuer may issue Further Class A Notes (together with the Initial Class A Notes, the " Class A Notes ") and Further Class B Notes (together with the Initial Class B Notes, the " Class B Notes ") on each Further Notes Issue Date in accordance with the Terms and Conditions of the Notes. See " <i>TERMS AND CONDITIONS OF THE NOTES</i> ".
Closing Date	29 January 2021.
Form and Denomination	Each of the Class A Notes and the Class B Notes will initially be represented by a Temporary Global Note of the relevant Class in bearer form, without interest coupons attached. The Global Notes representing the Class A Notes will be deposited with a common safekeeper for Clearstream Luxembourg and Euroclear and the Global Notes representing the Class B Notes will be deposited with a common safekeeper for Clearstream Luxembourg and Euroclear. The Notes will be transferred in book-entry form only. The Notes will be issued in denominations of EUR 100,000 and will have an initial principal amount of EUR 100,000. The Global Notes will not be exchangeable for definitive securities. See " <i>TERMS AND CONDITIONS OF THE NOTES — Form and Denomination</i> ".
Status and Priority	The Notes constitute direct, secured and (subject to Condition 3.2 (<i>Limited Recourse</i>)) of the terms and conditions of the Notes (the " Terms and Conditions of the Notes ") unconditional obligations of the Issuer. The Class A Notes (including, for the avoidance of doubt, any Class A Notes issued on a Further Notes Issue Date) rank <i>pari passu</i> among themselves in respect of security. Following the occurrence of an Issuer Event of Default (as defined in Condition 3.5 (<i>Issuer Event of Default</i>)), the Class A Notes rank against all other current and future obligations of the Issuer in accordance with the Post-Enforcement Priority of Payments. The Class B

Notes (including, for the avoidance of doubt, any Class B Notes issued on a Further Notes Issue Date) rank pari passu among themselves in respect of security. Following the occurrence of an Issuer Event of Default, the Class B Notes rank against all other current and future obligations of the Issuer in accordance with the Post- Enforcement Priority of Payments, see "*CREDIT STRUCTURE — Post-Enforcement Priority of Payments*" and "*TERMS AND CONDITIONS OF THE NOTES — Status and Priority*".

Prior to the occurrence of an Issuer Event of Default, the Issuer's obligations to make payments of principal and interest on the Class A Notes and the Class B Notes rank in accordance with the respective Pre- Enforcement Priority of Payments. Other than an amortisation due to the occurrence of the balance standing to the credit of the Principal Account Ledger exceeding 10% of the outstanding Class A Principal Amount during the Revolving Period (in which case the amortisation of the Notes will be on *pro rata* basis between the Class A Notes and the Class B Notes), the Issuer's obligations to make payments of principal and interest on the Class B Notes are subordinated to the Issuer's obligations to make respective payments of principal and interest on the Class A Notes in accordance with the Terms and Conditions of the Notes, see "*CREDIT STRUCTURE — Pre-Enforcement Priorities of Payments*" and "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption— Pre-Enforcement Principal Priority of Payments*".

Limited Recourse

The Notes will be limited recourse obligations of the Issuer. See "*TERMS AND CONDITIONS OF THE NOTES — Provision of Security; Limited Payment Obligation; Issuer Event of Default*" and "*RISK FACTORS — Liability under the Notes, Limited Recourse*".

Replenishment

On each Subsequent Purchase Date during the Revolving Period, the Issuer is, pursuant to the terms of the Receivables Purchase Agreement and subject to certain requirements set out therein obliged to purchase Additional Receivables offered by the Seller by applying the Available Principal Amount. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption*" and "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Receivables Purchase Agreement*".

Any Additional Receivable must be an Eligible Receivable and following the purchase of such Additional Receivable on a Subsequent Purchase Date, the Portfolio must meet the eligibility criteria for an Eligible Portfolio (and, for the avoidance of doubt, such Additional Receivable shall not be so purchased if, following such purchase, the Portfolio would not meet such eligibility criteria):

- (a) the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables (as of such Subsequent Purchase Date and taking into account all Additional Receivables to be purchased on such Subsequent Purchase Date):
 - (i) which derive from Auto Loan Contracts in respect of Balloon Loans entered into with a Commercial Debtor does not exceed 35% of the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables, taking into account those Additional Receivables;
 - (ii) which derive from Auto Loan Contracts entered into with a Commercial Debtor does not exceed 45% of the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables, taking into account those Additional Receivables;

- (iii) which derive from Auto Loan Contracts in respect of Balloon Loans does not exceed 85% of the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables, taking into account those Additional Receivables;
 - (iv) which derive from Auto Loan Contracts entered into to purchase Used Cars does not exceed 35% of the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables, taking into account those Additional Receivables; and
 - (v) which are owed by the same Debtor does not exceed 0.05% of the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables, taking into account those Additional Receivables;
- (b) the aggregate of the Balloon Amounts in respect of all Purchased Receivables that are Performing Receivables as of such date, taking into account all Additional Receivables to be purchased on such Subsequent Purchase Date, is less than 60% of the aggregate Outstanding Principal Amount of all Purchased Receivables that are Performing Receivables, taking into account those Additional Receivables; and
 - (c) the average remaining term weighted by the Outstanding Principal Amount under the Auto Loan Contracts from which the Receivables arising are Performing Receivables, taking into account all Additional Receivables to be purchased on such Subsequent Purchase Date, does not exceed 46 months.

Revolving Period

The Revolving Period will start on the Closing Date (inclusive) and will end on the earliest to occur of:

- (a) the Scheduled Revolving Period End Date (inclusive); or
- (b) the Payment Date immediately following the date on which an Amortisation Event or an Issuer Event of Default has occurred (exclusive).

Amortisation Event

The occurrence of any of the following events during the Revolving Period shall constitute an "**Amortisation Event**"

- (a) a Principal Deficiency Shortfall;
- (b) breach of an Average Delinquency Trigger;
- (c) breach of a Cumulative Default Trigger;
- (d) a Seller Event of Default;
- (e) a Servicer Termination Event; or
- (f) the Calculation Agent determines that the balance standing to the credit of the General Reserve Account on the immediately following Payment Date after applying the Available Interest Amount in accordance with the Pre-Enforcement Interest Priority of Payments is expected to be less than the General Reserve Required Amount.

Interest

On each Payment Date, interest on each Class A Note is payable monthly in arrears by applying a fixed interest rate of 0.30% per annum to the Note Principal Amount (as defined in Condition 5.2 (*Note Principal Amount*)) of

the Terms and Conditions of the Notes) of such Note. On each Payment Date, interest on each Class B Note is payable monthly in arrears by applying a fixed interest rate of 1.00% per annum to the Note Principal Amount (as defined in Condition 5.2 (*Note Principal Amount*) of the Terms and Conditions of the Notes) of such Note. See "*TERMS AND CONDITIONS OF THE NOTES — Payments of Interest*".

The Interest Period with respect to each Payment Date will be the period commencing on (and including) the Payment Date immediately preceding such Payment Date and ending on (but excluding) such Payment Date with the first Interest Period commencing on (and including) the Closing Date and ending on (but excluding) the first Payment Date. See "*TERMS AND CONDITIONS OF THE NOTES — Payments of Interest*".

Payment Dates

During the Revolving Period, payments of interest, and following the expiration of the Revolving Period or (in relation to the occurrence of the balance standing to the credit of the Principal Account Ledger exceeding 10% of the outstanding Class A Principal Amount during the Revolving Period, in which case the amortisation of the Notes will be on *pro rata* basis between the Class A Notes and the Class B Notes) during the Revolving Period (as applicable), payments of principal and interest, will be made to the Noteholders on the twenty-fifth (25th) day of each calendar month. The First Payment Date will be the Payment Date falling on 25 February 2021.

Final Maturity Date

Unless previously redeemed as described herein, each Class of Notes will be redeemed on the Payment Date falling on 29 December 2032, subject to the limitations set forth in Condition 3.2 (*Limited Recourse*) of the Terms and Conditions of the Notes. Any claims arising from the Notes, i.e. claims to interest and principal, cease to exist with the expiration of five (5) years after the Final Maturity Date, unless the Global Note representing such Class of Notes is submitted to the Issuer for redemption prior to the expiration of five (5) years after the Final Maturity Date, in which case, the claims will become time-barred after two (2) years beginning with the end of the period for presentation (ending five (5) years after the Final Maturity Date in accordance with the Terms and Conditions). The commencement of judicial proceedings in respect of the claim arising from a Global Note will have the same legal effect as the presentation of a Global Note.

See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Final Maturity Date*".

Amortisation

The amortisation of the Notes will commence on the earlier to occur of:

- (a) the Scheduled Revolving Period End Date (exclusive); and
- (b) the Payment Date immediately following (and inclusive of) the date on which an Amortisation Event has occurred; and
- (c) during the Revolving Period, the occurrence of the balance standing to the credit of the Principal Account Ledger exceeding 10% of the outstanding Class A Principal Amount, in which case amortisation of the Notes will be on *pro rata* basis between the Class A Notes and the Class B Notes and this amortisation will not end the Revolving Period.

in each case in accordance with the relevant Pre-Enforcement Priority of Payments or Post-Enforcement Priority of Payments, as applicable, in the following order: first the Class A Notes until full redemption and thereafter the Class B Notes. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Amortisation*".

Clean-up Call

On any Payment Date on or following which the Aggregate Outstanding Principal Amount has been reduced to 10% of the highest Aggregate Outstanding Principal Amount during the Revolving Period, the Seller will have, subject to certain requirements, the right under the Receivables

Purchase Agreement to repurchase all outstanding Purchased Receivables (together with any Related Collateral) held by the Issuer, and the Issuer shall, upon due exercise of such repurchase option, redeem all (but not some only) of the Notes on the Early Redemption Date, if the proceeds distributable as a result of such repurchase will be at least equal to the then outstanding Note Principal Amounts of the Class A Notes plus accrued but unpaid interest thereon together with all amounts ranking prior thereto according to the Pre-Enforcement Priority of Payments. See "*TERMS AND CONDITIONS OF THE NOTES—Replenishment and Redemption — Early Redemption*".

Optional Redemption for Taxation Reasons

In the event that the Issuer is required by law to deduct or withhold certain taxes with respect to any payment under the Notes, the Notes may, at the option of the Issuer and subject to certain conditions, be redeemed in whole but not in part at their then outstanding aggregate Note Principal Amounts, together with accrued interest (if any) to the date (which must be a Payment Date) fixed for redemption. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Optional Redemption for Taxation Reasons*".

Taxation

All payments of principal of, and interest on, the Notes will be made free and clear of, and without any withholding or deduction for or on account of, tax (if any) applicable to the Notes under any applicable jurisdiction, unless such withholding or deduction is required by law. If any such withholding or deduction is imposed, the Issuer will not be obliged to pay any additional or further amounts as a result thereof. See "*TAXATION IN GERMANY*".

Resolutions of Noteholders

In accordance with the German Act on Debt Securities of 2009 (*Schuldverschreibungsgesetz*), the Notes contain provisions pursuant to which the Noteholders may agree by resolution to amend the Terms and Conditions of the Notes and to decide upon certain other matters regarding the Notes including, without limitation, the appointment or removal of a common representative for the Noteholders of any Class. Resolutions of Noteholders of any Class properly adopted, by vote taken without a meeting in accordance with the Terms and Conditions of the Notes, are binding upon all Noteholders of such Class. Resolutions which do not provide for identical conditions for all Noteholders of any Class are void, unless Noteholders of such Class which are disadvantaged expressly consent to their being treated disadvantageously. In no event, however, may any obligation to make any payment or render any other performance be imposed on any Noteholder of any Class by resolution. As set out in the Terms and Conditions of the Notes, resolutions providing for certain material amendments to the Terms and Conditions of the Notes require a majority of not less than 75% of the votes cast. Resolutions regarding other amendments are passed by a simple majority of the votes cast. See "*TERMS AND CONDITIONS OF THE NOTES — Resolutions of Noteholders*".

Note Collateral

The obligations of the Issuer under the Notes will be secured by first ranking security interests granted to the Security Trustee for the benefit of the Beneficiaries in respect of (i) the Issuer's claims under the Purchased Receivables and the Related Collateral acquired by the Issuer pursuant to the Receivables Purchase Agreement; and (ii) the Issuer's claims under certain Transaction Documents all of which have been assigned, transferred and pledged by way of security to the Security Trustee pursuant to the Transaction Security Agreement (collectively, the "**Collateral**"). In addition, the obligations of the Issuer will be secured by a first priority security interest granted to the Security Trustee in the Issuer's rights in respect of the Accounts and to all amounts standing to the credit of the Accounts from time to time, in accordance with the Irish Security Deed (such security interests together with the Collateral, the "**Note Collateral**").

Upon the occurrence of an Issuer Event of Default and upon receipt of the Enforcement Instructions by the Security Trustee, the Security Trustee will enforce or will arrange for the enforcement of the Note Collateral and any

amounts standing to the credit of the General Collection Account, the Principal Account, the Interest Account, and the General Reserve Account (excluding certain amounts stated in Clause 23.1 of the Transaction Security Agreement) and any proceeds obtained from the enforcement of the Note Collateral pursuant to the Transaction Security Agreement will be applied exclusively in accordance with the Post-Enforcement Priority of Payments. See "*APPENDIX B - THE MAIN PROVISIONS OF THE TRANSACTION SECURITY AGREEMENT — Post-Enforcement Priority Of Payments*".

The Portfolio

The Portfolio underlying the Notes consists of car loan receivables originated by the Seller in its ordinary course of business. The Aggregate Outstanding Principal Amount of the Portfolio as of 20 January 2021 is EUR 499,999,909.63. The Purchased Receivables constitute loan instalment claims arising under amortising (either standard or balloon amortisation) loan agreements (the "**Auto Loan Contracts**") entered into between the Seller, as lender, and certain debtors (the "**Debtors**"), as borrowers, for the purpose of financing the acquisition of the Cars. The Initial Receivables, together with the Related Collateral, will be assigned and transferred to the Issuer on or before the Closing Date and any Additional Receivables, together with the Related Collateral, will be assigned and transferred to the Issuer on the relevant Subsequent Payment Date during the Revolving Period, in each case pursuant to the terms of the Receivables Purchase Agreement. The Related Collateral includes, *inter alia*, the security interest in the Cars obtained by the Seller, any guarantee given for the loan and insurance claims relating to the Cars. See "*APPENDIX B - THE MAIN PROVISIONS OF THE TRANSACTION SECURITY AGREEMENT*".

Servicing of the Portfolio

The Purchased Receivables and the Related Collateral will be administered, collected and enforced by the Seller in its capacity as Servicer under a servicing agreement (as amended or amended and restated from time to time, the "**Servicing Agreement**") dated on or about 27 January 2021 and, upon termination of the appointment of the Servicer following the occurrence of a Servicer Termination Event, by a substitute servicer appointed by the Issuer. Available Collections shall be transferred by the Servicer to the General Collection Account not later than two (2) Business Days following receipt of the collections.

See "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Servicing Agreement*" and "*APPENDIX D - CREDIT AND COLLECTION POLICY*".

General Reserve

The Class A Notes will have the benefit of a cash reserve which will provide liquidity support in the event of shortfalls in the available funds of the Issuer to pay interest due and payable under the Notes and certain senior expenses. See "*CREDIT STRUCTURE — General Reserve*" and "*RISK FACTORS— Limited Availability of the General Reserve*".

On the Closing Date, advances by the Subordinated Loan Provider shall be credited in accordance with the Subordinated Loan Agreement to an account of the Issuer held with the Account Bank (the "**General Reserve Account**") in an amount equal to the General Reserve Initial Cash Deposit, being EUR 1,398,600. The Subordinated Loan Provider shall pay any Further Notes Subordinated Loan Amount to the General Reserve Account for value no later than as of each Further Notes Issue Date. Prior to the occurrence of an Issuer Event of Default, the amount standing to the credit of the General Reserve Account (such amount from time to time, the "**General Reserve**") as of any Determination Date shall be transferred on the Payment Date immediately following such Determination Date to the Interest Account and shall be applied as part of the Available Interest Amount in accordance with the Pre-Enforcement Interest Priority of Payments.

If and to the extent that the Available Interest Amount on any Payment Date exceeds the amounts required to meet the items ranking higher than item *third* in the Pre-Enforcement Interest Priority of Payments, the excess amount will be applied on such Payment Date to replenish the General Reserve until the balance standing to the credit of the General Reserve Account equals the General Reserve Required Amount.

If and to the extent that the Available Interest Amount on any Payment Date exceeds the amounts required to meet the items ranking higher than item *sixth* in the Pre-Enforcement Interest Priority of Payments, an amount equal to the General Reserve Required Decrease Amount (if any) will be applied towards payments of principal and interest under Subordinated Loan in accordance with the Pre-Enforcement Interest Priority of Payments. "**General Reserve Required Decrease Amount**" means, with respect to any Calculation Date immediately preceding a Payment Date, the excess (if any) of the balance standing to the credit of the General Reserve Account (after taking into account any amounts to be further applied in accordance with the Pre-Enforcement Interest Priority of Payments on such Payment Date) over the General Reserve Required Amount on such Payment Date.

Following the occurrence of an Issuer Event of Default, the General Reserve will be transferred to the General Collection Account and applied in accordance with the Post-Enforcement Priority of Payments.

General Reserve Required Amount "**General Reserve Required Amount**" means, on the Closing Date, an amount equal to 0.3% of the initial Class A Principal Amount and, thereafter, on any Calculation Date, an amount equal to 0.3% of the relevant Class A Principal Amount on such Calculation Date, including Further Class A Notes on the immediately following Payment Date, **provided that** the General Reserve Required Amount shall be at least an amount equal to 0.15% of the highest Class A Principal Amount during the Revolving Period and **provided further that** the General Reserve Required Amount shall be zero on the Calculation Date preceding (i) the Final Maturity Date or (ii) each Payment Date on which the Class A Principal Amount is zero. See "*APPENDIX A - CERTAIN DEFINITIONS — General Reserve Required Amount*".

Subordinated Loan PSA Bank Deutschland GmbH (the "**Subordinated Loan Provider**") will make available to the Issuer an interest-bearing subordinated loan (the "**Subordinated Loan**") in the principal amount of EUR 1,398,600 for the purpose of establishing the General Reserve on the Closing Date. The Subordinated Loan Provider shall pay any Further Notes Subordinated Loan Amount to the General Reserve Account for value no later than as of each Further Notes Issue Date. Prior to the occurrence of an Issuer Event of Default, interest under the Subordinated Loan will be payable by the Issuer monthly in arrears on each Payment Date, subject to and in accordance with the Pre-Enforcement Priority of Payments. The outstanding principal amount of the Subordinated Loan will be repaid by the Issuer from reductions of the General Reserve Required Amount in accordance with the Pre-Enforcement Priority of Payments. See "*CREDIT STRUCTURE — Subordinated Loan*" and "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Subordinated Loan Agreement*".

Issuer's Sources of Income The following amounts will be used by the Issuer to pay interest on and principal of the Notes and to pay any amounts due to the other creditors of the Issuer: (i) all payments of principal and interest and certain other payments and any Deemed Collections received under or with respect to the Purchased Receivables pursuant to the Receivables Purchase Agreement and/or the Servicing Agreement, (ii) all amounts of interest (if any) earned on the euro denominated interest bearing Accounts of the Issuer, (iii) all amounts standing to the credit of the General Collection Account, and (iv) all other amounts which comprise the Available Interest Amount or the

- (c) all amounts to be transferred from the Interest Account to the Principal Account under item *fourth* of the Pre-Enforcement Interest Priority of Payments on such Payment Date; and
- (d) the Further Notes Amount, provided all Noteholders confirmed the respective Further Notes Amount on the relevant Further Notes Confirmation Date; and

- (b) any Deemed Collections payable on such Payment Date; and

Pursuant to the Receivables Purchase Agreement, the Seller has undertaken to pay to the Issuer any Deemed Collection which is equal to the amount of the Adjusted Outstanding Principal Amount plus any outstanding balance of interest accrued and not paid thereunder (or the affected portion thereof) of any Purchased Receivable if such Purchased Receivable proves not to have been an Eligible Receivable on the Purchase Date, such Purchased Receivable is subject to Commercial Renegotiations other than in accordance with the Servicing Agreement or certain other events occur. The Servicer will determine the Deemed Collections in respect of Purchased Receivables payable during a relevant Collection Period on the Calculation Date immediately following a relevant Collection Period. Deemed Collections will be paid by the Seller to the Issuer on the Payment Date following the end of the relevant Collection Period in respect of which Deemed Collections have been determined. See "*APPENDIX A - CERTAIN DEFINITIONS — Deemed Collection*".

Pre-Enforcement Interest Priority of Payments

On each Payment Date prior to the occurrence of an Issuer Event of Default, the Available Interest Amount will be applied in accordance with the following order of priorities (the "**Pre-Enforcement Interest Priority of Payments**"), **provided that** in each case payments to be made under a certain priority will only be made if payments of all higher priorities have been made in full:

- (a) *first*, to pay the Issuer Expenses and, in priority to such payment (if any), to pay any Issuer Expenses Arrears;
- (b) *second*, to pay, pari passu and on a pro rata basis, the Class A Notes Interest Amount due and payable on such Payment Date on each Class A Note;
- (c) *third*, to transfer to the General Reserve Account such amount as is necessary for the balance standing to the credit of the General Reserve Account to be equal to the General Reserve Required Amount applicable on that Payment Date;

- (d) *fourth*, unless a Servicing Report Delivery Failure has occurred, to transfer to the Principal Account such amount as would reduce any debit balance of the Principal Deficiency Ledger to zero;
- (e) *fifth*, unless a Servicing Report Delivery Failure has occurred, to pay, *pari passu* and on a *pro rata* basis, the Class B Notes Interest Amount due and payable on such Payment Date on each Class B Note and, in priority to such payment, to pay any Interest Arrears on each Class B Note;
- (f) *sixth*, unless a Servicing Report Delivery Failure has occurred, to pay to the Subordinated Loan Provider, first, interest due and payable under the Subordinated Loan Agreement and thereafter, outstanding principal under the Subordinated Loan Agreement in the event of any reduction of the General Reserve Required Amount from time to time (if any), in an amount (if any) which is equal to the General Reserve Required Decrease Amount; and
- (g) *seventh*, unless a Servicing Report Delivery Failure has occurred, to pay any remaining Available Interest Amount to the Seller pursuant to the terms of the Receivables Purchase Agreement,

provided that any payment to be made by the Issuer under the first item with respect to taxes shall be made on the Business Day on which such payment is then due and payable using any amounts then credited to the relevant Account.

Pre-Enforcement Principal Priority of Payments

On each Payment Date prior to the occurrence of an Issuer Event of Default, the Available Principal Amount shall be applied in accordance with the following order of priorities (the "**Pre-Enforcement Principal Priority of Payments**"), provided that in each case payments to be made under a certain priority will only be made if payments of all higher priorities have been made in full:

discharging the same, or such proceedings are not instituted for lack of assets;

2. the Issuer defaults in the payment of any interest due and payable in respect of any Class A Note and such default continues for a period of at least five (5) Business Days;
3. (except as referred to under item 2 above), the Issuer defaults in the payment of any amounts due and payable in respect of any Class A Notes or in the due payment or performance of any other Transaction Secured Obligation (as such term is defined in Clause 7 (*SECURITY PURPOSE*) of the Transaction Security Agreement), other than those mentioned under items *sixth* and *seventh* of the Pre-Enforcement Interest Priority of Payments, in each case to the extent that the Available Interest Amount or, as applicable, the Available Principal Amount would have been sufficient to pay such amounts, and such default continues for a period of at least five (5) Business Days;
4. the Issuer fails to perform or observe any of its other material obligations under the Terms and Conditions or the Transaction Documents (other than the Subordinated Loan Agreement) and, in each such case (except where such failure is incapable of remedy when no notice will be required) such failure is continuing for a period of thirty (30) calendar days following (i) if the Security Trustee was notified by the Issuer of such failure, the receipt of such notice by the Security Trustee or (ii) in all other cases, the service by the Security Trustee on the Issuer of a notice requiring such failure to be remedied; or

Post-Enforcement Priority of Payments

Upon the occurrence of an Issuer Event of Default, on any Payment Date any available funds of the Issuer (including Credit upon the servicing of an Enforcement Instruction) shall be applied in the following order towards fulfilling the payment obligations of the Issuer (the "**Post-Enforcement Priority of Payments**"), provided that in each case payments to be made under a certain priority will only be made if payments of all higher priorities have been made in full:

- (a) *first*, to pay the Issuer Expenses and, in priority to such payment (if any), to pay any Issuer Expenses Arrears;
- (b) *second*, to pay, *pro rata* and on a *pari passu* basis, the Class A Notes Interest Amounts due and payable on any Class A Notes;

Ratings

The Class A Notes are expected on issue to be assigned a long-term rating of AA by Fitch, which denotes very high credit quality, expectations of very low default risk, very strong capacity for payment of financial commitments which is not significantly vulnerable to foreseeable events, and a long-term rating of Aa2 by Moody's, which denotes high quality and very low credit risk. The Issuer has not requested a rating of the Class B Notes.

CREDIT STRUCTURE

Auto Loan Contract Interest Rates

The Receivables which will be purchased by the Issuer include loans originated *vis-à-vis* consumers or enterprises and comprise annuity loans, under which instalments are calculated on the basis of constant monthly amounts during the life of each loan, and balloon loans under which the final instalment may be higher than the previous instalments. Each instalment (including the balloon instalment) is comprised of a portion allocable to interest and a portion allocable to principal under such loan. In general, the interest portion of each instalment under annuity loans decreases in proportion to the principal portion over the life of such loans whereas towards maturity of such loans a greater part of each monthly instalment is allocated to principal.

Cash Collection Arrangements

Payments by the Debtors under the Purchased Receivables are due on a monthly basis, with interest being payable in arrears. The calendar day of the month on which such payments are due is chosen by the relevant Debtor at the time of entering into the relevant Auto Loan Contract. Prior to a Servicer Termination Event, Available Collections shall be transferred by the Servicer to the General Collection Account not later than two (2) Business Days following receipt of the collections.

The Calculation Agent will on each Payment Date arrange for transfer from the General Collection Account the Available Interest Collections to the Interest Account. During the Revolving Period, the Available Principal Amount will be applied to the replenishment of the Portfolio (including by way of set-off, where relevant) in accordance with the relevant Pre-Enforcement Priority of Payments and the terms of the Receivables Purchase Agreement.

If at any time (i) the Account Bank ceases to have the Account Bank Required Rating or (ii) the Account Bank is no longer rated by any of the Rating Agencies (each of such events listed in (i) or (ii), an "**Account Bank Downgrade**"), the Issuer shall (and, if the Issuer does not terminate, the Security Trustee acting on behalf of the Issuer may) terminate the account relationship with the Account Bank within sixty (60) calendar days after the occurrence of an Account Bank Downgrade. Following the occurrence of an Account Bank Downgrade, the Account Bank will continue to operate the Accounts until the Issuer has appointed a new bank and any and all amounts credited to any Account have been transferred to that new bank and credited to a new account held with such new bank corresponding to such Account at no cost (associated with the actual transfer of the funds to such new account) to the Issuer and unless and until the Issuer has granted security over such new account in a form satisfactory to the Security Trustee (acting reasonably) and any balance standing to its credit from time to time.

"**Account Bank Required Rating**" means, at any time in respect of any financial institution acting as Account Bank:

- (A) a long-term deposit rating (or, if it does not have a long-term deposit rating assigned by Moody's, a long-term unsecured, unguaranteed and unsubordinated debt obligations rating) of at least A2 (or its replacement) by Moody's or a short-term deposit rating (or, if it does not have a short-term deposit rating assigned by Moody's, a short-term unsecured, unguaranteed and unsubordinated debt obligations rating) of at least P-1 (or its replacement) by Moody's;
- (B) a long-term deposit rating (or, if it does not have a long-term deposit rating assigned by Fitch, a long-term unsecured, unsubordinated und unguaranteed debt obligations rating) of at least 'A' (or its replacement) or a short-term deposit rating (or, if it does not have a short-term deposit rating by Fitch, a short-term credit rating) of 'F1' (or its replacement) by Fitch; and
- (C) or such other rating or ratings as may be agreed by the relevant Rating Agency from time to time as would maintain the then current ratings of the Notes;

Available Interest Amount and Available Principal Amount

The Available Interest Amount and the Available Principal Amount will, with respect to each Payment Date, be calculated by the Calculation Agent on the Calculation Date immediately preceding a Payment Date for the purpose of determining, *inter alia*, the amount to be applied under the relevant Pre-Enforcement Priority of Payments on such Payment Date. The Available Interest Amount and the Available Principal Amount are each defined in Appendix A to the Terms and Conditions of the Notes. See "*APPENDIX A - CERTAIN DEFINITIONS — Available Interest Amount*" and "*APPENDIX A - CERTAIN DEFINITIONS — Available Principal Amount*".

Pre-Enforcement Priorities of Payments

The amounts to be applied under the relevant Pre-Enforcement Priority of Payments will vary during the life of the transaction as a result of possible variations in the amount of Available Collections and certain costs and expenses of the Issuer. The amount of Available Collections received by the Issuer under the Receivables Purchase Agreement will vary during the life of the Notes as a result of the level of delinquencies, defaults, repayments and prepayments in respect of the Purchased Receivables. In order to mitigate the effect of such variations, prior to the occurrence of an Issuer Event of Default, the amount standing to the credit of the General Reserve Account as of any Determination Date will be, however, transferred on the Payment Date immediately following such Determination Date to the Interest Account and shall be applied as part of the Available Interest Amount in accordance with the Pre-Enforcement Interest Priority of Payments.

On each Payment Date, the Available Interest Amounts will be applied in accordance with the Pre-Enforcement Interest Priority of Payments, and the Available Principal Amounts will be applied in accordance with the Pre-Enforcement Principal Priority of Payments. The availability of each of the Available Interest Amount and the Available Principal Amount on each Payment Date will depend primarily on the amount of Available Collections received by the Issuer during the Collection Period immediately preceding such Payment Date and certain costs and expenses of the Issuer. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Pre-Enforcement Principal Priority of Payments*".

Payments to satisfy amounts due to third parties (other than pursuant to the Transaction Documents) and payable in connection with the Issuer's business may be made from the General Collection Account, the Principal Account and the Interest Account, and the General Reserve Account, other than on a Payment Date, as applicable and in accordance with the Transaction Documents.

Residual Payment to the Seller

On each Payment Date prior to the occurrence of a Seller Event of Default and the occurrence of an Issuer Event of Default, the difference (if any) between the Available Interest Amount and the sum of all amounts payable or to be applied (as the case may be) by the Issuer under items *first* to *sixth* (inclusive) of the Pre-Enforcement Interest Priority of Payments, with respect to the Determination Date immediately preceding such Payment Date, shall be disbursed to the Seller in accordance with the Receivables Purchase Agreement as residual payment in accordance with and subject to the Pre-Enforcement Interest Priority of Payments. Upon the occurrence of an Issuer Event of Default, the difference (if any) between the available funds of the Issuer (including Credit upon the servicing of an Enforcement Instruction) and the sum of all amounts payable or to be applied (as the case may be) by the Issuer under items *first* to *eighth* (inclusive) of the Post-Enforcement Priority of Payments shall be paid to the Seller in accordance with the Receivables Purchase Agreement as residual payment in accordance with and subject to the Post-Enforcement Priority of Payments.

Post-Enforcement Priority of Payments

Upon the occurrence of an Issuer Event of Default prior to the full discharge of all Transaction Secured Obligations, any amounts payable by the Issuer will be paid in accordance with the Post-Enforcement Priority of Payments set out in Clause 23.2 (*Post-Enforcement Priority Of Payments*) of the Transaction Security Agreement. See "*APPENDIX B - THE MAIN PROVISIONS OF THE TRANSACTION SECURITY AGREEMENT—Post-Enforcement Priority Of Payments*".

General Reserve

On the Closing Date, advances by the Subordinated Loan Provider shall be credited in accordance with Subordinated Loan Agreement to an account of the Issuer held with the Account Bank (the "**General Reserve Account**") in an amount equal to the General Reserve Initial Cash Deposit, being EUR 1,398,600. The Subordinated Loan Provider shall pay any Further Notes Subordinated Loan Amount to the General Reserve Account for value no later than as of each Further Notes Issue Date. Prior to the occurrence of an Issuer Event of Default, the amount standing to the credit of the General Reserve Account (such amount from time to time, the "**General Reserve**") as of any Determination Date shall be transferred on the Payment Date immediately following such Determination Date to the Interest Account and shall be applied as part of the Available Interest Amount in accordance with the Pre-Enforcement Interest Priority of Payments.

If and to the extent that the Available Interest Amount on any Payment Date exceeds the amounts required to meet the items ranking higher than item *third* in the Pre-Enforcement Interest Priority of Payments, the excess amount will be applied on such Payment Date to replenish the General Reserve until the balance standing to the credit of the General Reserve Account equals the General Reserve Required Amount.

If and to the extent that the Available Interest Amount on any Payment Date exceeds the amounts required to meet the items ranking higher than item *sixth* in the Pre-Enforcement Interest Priority of Payments, an amount equal to the General Reserve Required Decrease Amount (if any) will be applied towards payments of principal and interest under Subordinated Loan in accordance with the Pre-Enforcement Interest Priority of Payments. "**General Reserve Required Decrease Amount**" means, with respect to any Calculation Date immediately preceding a Payment Date, the excess (if any) of the balance standing to the credit of the General Reserve Account (after taking into account any amounts to be further applied in accordance with the Pre-Enforcement Interest Priority of Payments on such Payment Date) over the General Reserve Required Amount on such Payment Date.

Following the occurrence of an Issuer Event of Default, the General Reserve will be transferred to the General Collection Account and applied in accordance with the Post-Enforcement Priority of Payments.

Credit Enhancement

As, on the Closing Date and, thereafter, on any Subsequent Purchase Date, the average interest rate under the Auto Loan Contracts exceeds the average interest rate of the Notes, it is expected that the aggregate interest portions of the Available Collections received and forming part of item (a) of the definition of Available Interest Amount will exceed the amounts required to meet the items ranking higher than Class A Notes Interest Amount (*second* item) in the Pre-Enforcement Interest Priority of Payments.

The Class A Notes will have the benefit of a cash reserve which will provide liquidity support in the event of shortfalls in the available funds to pay interest due and payable under the Notes and certain senior expenses. Prior to the occurrence of an Issuer Event of Default, the amount standing to the credit of the General Reserve Account as of any Determination Date shall be transferred on the Payment Date immediately following such Determination Date to the Interest Account and shall be applied as part of the Available Interest Amount in accordance with the Pre-Enforcement Interest Priority of Payments. Following the occurrence of an Issuer Event of Default, the General Reserve will be transferred to the General Collection Account and applied in accordance with the Post-Enforcement Priority of Payments.

Following the occurrence of an Issuer Event of Default, the Class A Notes have the benefit of credit enhancement provided through the subordination, both as to payment of interest and principal and on enforcement of the Note Collateral, of the Class B Notes and the General Reserve, whilst the Class B Notes have, to a limited extent, the benefit of credit enhancement provided through the General Reserve.

Subordinated Loan

The Subordinated Loan Provider will make available to the Issuer an interest-bearing subordinated loan (the "**Subordinated Loan**") in the principal amount of EUR 1,398,600 for the purpose of establishing

the General Reserve. The Subordinated Loan Provider shall pay any Further Notes Subordinated Loan Amount to the General Reserve Account for value no later than as of each Further Notes Issue Date.

Prior to the occurrence of an Issuer Event of Default, interest under the Subordinated Loan will be payable by the Issuer monthly in arrears on each Payment Date, subject to and in accordance with the Pre-Enforcement Priority of Payments. The outstanding principal amount of the Subordinated Loan will be repaid by the Issuer from reductions of the General Reserve Required Amount in accordance with the Pre-Enforcement Priority of Payments. See "*OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS — Subordinated Loan Agreement*".

The obligations of the Issuer under the Class B Notes rank *pari passu* amongst themselves in respect of security. - (c) Other than if the balance standing to the credit of the Principal Account Ledger exceeds 10% of the outstanding Class A Principal Amount during the Revolving Period (in which case the amortisation of the Notes will be on *pro rata* basis between the Class A Notes and the Class B Notes), the Issuer's obligations to make payments of principal and interest on the Class B Notes are subordinated to the Issuer's obligations to make respective payments of principal and interest on the Class A Notes.

3. Provision of Security; Limited Payment Obligation; Issuer Event of Default

3.1 Security

Pursuant to the Transaction Security Agreement, the Issuer has transferred or pledged to the Security Trustee its rights and claims in all Purchased Receivables and the Related Collateral transferred by the Seller to it under the Receivables Purchase Agreement, all of its rights and claims arising under certain Transaction Documents to which the Issuer is a party and certain other rights specified in the Transaction Security Agreement (such collateral as defined in Clause 7 (*Security Purpose*) of the Transaction Security Agreement, the "**Collateral**") as security for the Notes and

other obligations specified in the Transaction Security Agreement. As to the form and contents of such provision of security, reference is made to Clauses 5 (*Transfer for Security Purposes of the Assigned Security*) and 6 (*Pledge*) and the other provisions of the Transaction Security Agreement (see Appendix B). In addition, the Issuer has granted a security interest to the Security Trustee in respect of all present and future rights, claims and interests which the Issuer is or becomes entitled to from or in relation to, the Account Bank and/or the Calculation Agent and/or any other party pursuant to or in respect of the Accounts Agreement and over the Accounts and all amounts standing to the credit of the Accounts from time to time as security for the payment and/or discharge on demand of all monies and liabilities due by the Issuer to the Security Trustee in accordance with an Irish security deed dated on or about 27 January 2021 (the "**Irish Security Deed**", the security interests granted in accordance with the Irish Security Deed together with the Collateral, the "**Note Collateral**").

3.2 Limited Recourse

- (a) All payment obligations of the Issuer under the Notes constitute exclusive obligations to pay out the Credit (as defined in Clause 23.2 (*Post-Enforcement Priority Of Payments*) of the Transaction Security Agreement) in accordance with the Post-Enforcement Priority of Payments. Such funds shall be generated by, and limited to (i) payments made to the Issuer by the Servicer under the Servicing Agreement, (ii) payments made to the Issuer under the other Transaction Documents, (iii) proceeds from the realisation of the Note Collateral, and (iv) interest (if any) earned on the balance credited to the Accounts as available on the relevant Payment Date (if any) (Condition 5.1 (*Payment Dates*)) according to the Post-Enforcement Priority of Payments (Clause 23 (*Post-Enforcement Priority Of Payments*) of the Transaction Security Agreement) provided that, prior to the occurrence of an Issuer Event of Default, the Available Interest Amount shall be applied in accordance with the Pre-Enforcement Interest Priority of Payments (Condition 6.6 (*Pre-Enforcement Interest Priority of Payments*)) and the Available Principal Amount shall be applied in accordance with the Pre-Enforcement Principal Priority of Payments (Condition 7.6 (*Pre-Enforcement Principal Priority of Payments*)). The payment obligations of the Issuer shall only be settled if and to the extent that the Issuer is in a position to settle such claims using future profits (*künftige Gewinne*), any remaining liquidation proceeds (*Liquidationsüberschuss*) or any current positive balance of the net assets (*anderes freies Vermögen*) of the Issuer. The Notes shall not give rise to any payment obligation in excess of the Credit and recourse shall be limited accordingly.
- (b) The Issuer shall hold all monies paid to it in the General Collection Account, the Principal Account or the Interest Account, except the General Reserve which the Issuer shall hold in the General Reserve Account. Furthermore, the Issuer shall exercise all of its rights under the Transaction Documents with the due care of a prudent businessman such that obligations under the Notes may be performed to the fullest extent possible.
- (c) The obligations of the Issuer arising hereunder are limited recourse obligations payable solely from the proceeds of the Note Collateral or any other future profits (*künftige Gewinne*), remaining liquidation proceeds (*Liquidationsüberschuss*) or other positive balance of net assets (*anderes freies Vermögen*) and, following realisation of the Note Collateral and the application of the proceeds thereof in accordance with the Post-Enforcement Priority of Payments set out in Clause 23.2 (*Post-Enforcement Priority Of Payments*) of the Transaction Security Agreement, any claims of the Noteholders under the Notes against the Issuer (and the obligation of the Issuer) shall be extinguished.

"**Extinguished**" for these purposes means that such claim shall not lapse, but shall be subordinated in accordance with Section 39 para 2 of the German Insolvency Code (*Insolvenzordnung*) to all current and future claims of the other creditors of the Issuer as set out in Section 39 para 1 no 1 to 5 of the German Insolvency Code (*Insolvenzordnung*). Any such claims shall be settled only after all current and future claims of the Issuer's other creditors have been settled if and to the extent the Issuer is in a position to settle such claims using future profits

(*künftige Gewinne*), any remaining liquidation proceeds (*Liquidationsüberschuss*) or any positive balance of the net assets (*anderes freies Vermögen*) of the Issuer.

3.3 Enforcement of Payment Obligations

The enforcement of the payment obligations under the Notes shall only be effected by the Security Trustee for the benefit of all Noteholders, **provided that** each Noteholder shall be entitled to proceed directly against the Issuer in the event that the Security Trustee, after having become obliged to enforce the Note Collateral and having been given notice thereof, fails to do so within a reasonable time period and such failure continues. The Security Trustee shall foreclose on the Note Collateral upon the occurrence of an Issuer Event of Default on the conditions and in accordance with the terms of the Transaction Security Agreement including, in particular, Clauses 19 (*Enforcement of Note Collateral*) and 20 (*Payments upon Occurrence of an Issuer Event of Default*) of the Transaction Security Agreement (see Appendix B) and the terms of the Irish Security Deed.

3.4 Obligations of the Issuer only

The Notes represent obligations of the Issuer only and do not represent an interest in or obligation of the Security Trustee, any other party to the Transaction Documents or any other third party.

3.5 Issuer Event of Default

An "**Issuer Event of Default**" shall occur when:

- (i) the Issuer becomes overindebted (*überschuldet*) or is unable to pay its debts as they fall due (*zahlungsunfähig*) or the inability of the Issuer to pay its debts as they fall due is imminent (*drohende Zahlungsunfähigkeit*) or measures under Section 21 of the German Insolvency Code (*Insolvenzordnung*) are taken with respect to the Issuer or the Issuer initiates or otherwise becomes subject to liquidation, insolvency, or similar proceedings under any applicable law, which affect or prejudice the performance of its obligations under the Notes or the other Transaction Documents, and are not, in the opinion of the Security Trustee, being disputed in good faith with a reasonable prospect of discontinuing or discharging the same, or such proceedings are not instituted for lack of assets;
- (ii) the Issuer defaults in the payment of any interest due and payable in respect of any Class A Note and such default continues for a period of at least five (5) Business Days;
- (iii) (except for a default as referred to under item (ii) above), the Issuer defaults in the payment of any amounts due and payable in respect of any Class A Note or in the due payment or performance of any other Transaction Secured Obligation (as such term is defined in Clause 7 (*Security Purpose*) of the Transaction Security Agreement), other than those mentioned under items *sixth* and *seventh* of the Pre-Enforcement Interest Priority of Payments, in each case to the extent that the Available Interest Amount or, as applicable, the Available Principal Amount would have been sufficient to pay such amounts, and such default continues for a period of at least five (5) Business Days;
- (iv) the Issuer fails to perform or observe any of its other material obligations under the Terms and Conditions or the Transaction Documents (other than the Subordinated Loan Agreement) and, in each such case (except where such failure is incapable of remedy when no notice will be required) such failure is continuing for a period of thirty (30) calendar days following (i) if the Security Trustee was notified by the Issuer of such failure, the receipt of such notice by the Security Trustee or (ii) in all other cases, the service by the Security Trustee on the Issuer of a notice requiring such failure to be remedied; or
- (v) the Security Trustee ceases to have a valid and enforceable security interest in any of the Note Collateral or any other security interest created under any Transaction Security Document.

Upon the occurrence of an Issuer Event of Default, the full Class Principal Amount shall become due and payable in accordance with the Post-Enforcement Priority of Payments.

4. General Covenants of the Issuer

4.1 Restrictions on Activities

As long as any Notes are outstanding, the Issuer shall not be entitled, unless (i) each Rating Agency has been notified of such action and the prior consent of the Security Trustee has been obtained or (ii) required by applicable law, to engage in or undertake any of the activities or transactions specified in Clause 39 (*Actions of the Issuer requiring consent*) of the Transaction Security Agreement (see Appendix B).

"**Class A Principal Amount**" means, as of any date, the sum of the Note Principal Amounts of all Class A Notes and "**Class B Principal Amount**" means, as of any date, the sum of the Note Principal Amounts of all Class B Notes. On any redemption or payment of interest being made in respect of, or purchase and cancellation of, any of the Notes represented by the Global Note the Issuer shall procure that details of any redemption, payment or purchase and cancellation (as the case may be) in respect of the Global Note shall be entered *pro rata* in the records of the ICSDs and, upon any such entry being made, the aggregate principal amount of the Notes recorded in the records of the ICSDs and represented by the Global Note shall be reduced by the aggregate principal amount of the Notes so redeemed or purchased and cancelled.

On an exchange of a portion only of the Notes represented by a Temporary Global Note, the Issuer shall procure that details of such exchange shall be entered *pro rata* in the records of the ICSDs.

6. Payments of Interest

6.1 Interest Calculation

- (a) Subject to the limitations set forth in Condition 3.2 (*Limited Recourse*) and, in particular, subject to the Pre-Enforcement Interest Priority of Payments and, upon the occurrence of an Issuer Event of Default, the Post-Enforcement Priority of Payments, each Note shall bear interest on its Note Principal Amount from (and inclusive of) the Closing Date until (but exclusive of) the day on which such Note will be redeemed in full.
- (b) The amount of interest payable by the Issuer in respect of each Note on any Payment Date (the "**Interest Amount**") shall be calculated by applying the relevant Interest Rate (Condition 6.3 (*Interest Rate*)), for the relevant Interest Period (Condition 6.2 (*Interest Period*)), to the Note Principal Amount outstanding immediately prior to the relevant Payment Date and multiplying the result by the actual number of days in the relevant Interest Period divided by 360 and rounding the result to the nearest EUR 0.01 (with EUR 0.005 being rounded upwards). "**Class A Notes Interest Amount**" means the aggregate Interest Amount payable (including any Interest Arrears) in respect of all Class A Notes on any date and "**Class B Notes Interest Amount**" means the aggregate Interest Amount payable (including any Interest Arrears) in respect of all Class B Notes on any date.

Interest shall not accrue on Interest Arrears at any time.

6.6 Pre-Enforcement Interest Priority of Payments

On each Payment Date prior to the occurrence of an Issuer Event of Default, the Available Interest Amount will be applied in accordance with the following order of priorities (the "**Pre-Enforcement Interest Priority of Payments**"), provided that in each case payments to be made under a certain priority will only be made if payments of all higher priorities have been made in full:

- (c) *third*, to transfer to the General Reserve Account such amount as is necessary for the balance standing to the credit of the General Reserve Account to be equal to the General Reserve Required Amount applicable on that Payment Date;

7. Replenishment and Redemption

7.1 Replenishment

On each Payment Date during the Revolving Period, the Seller shall sell and assign to the Issuer, and, if offered to it, the Issuer shall purchase, Additional Receivables in accordance with the provisions of the Receivables Purchase Agreement, subject to the aggregate Outstanding Principal Amount of such Additional Receivables not exceeding the Maximum Receivables Purchase Amount, provided that the following conditions are satisfied as of such Payment Date: (a) any Additional Receivable is an Eligible Receivable and, in addition, following the purchase of such Additional Receivable on a Subsequent Purchase Date, the Portfolio must meet the eligibility criteria for an Eligible Portfolio (and, for the avoidance of doubt, such Additional Receivable shall not be so purchased if, following such purchase, the Portfolio would not meet such eligibility criteria) and (b) each Additional Receivable and the Related Collateral are assigned and transferred in accordance with the provisions of the Receivables Purchase Agreement and the Data Trust Agreement. The Issuer shall be obligated to purchase and acquire Additional Receivables for purposes of a replenishment only to the extent that the obligation to pay the Principal Component Purchase Price on such Subsequent Purchase Date can be satisfied in whole (but not in part) by the Issuer by applying the Available Principal Amount in accordance with item *second* of the Pre- Enforcement Principal Priority of Payments.

7.2 Amortisation

Subject to the limitations set forth in Condition 3.2 (*Limited Recourse*) and, in particular, subject to the Post-Enforcement Priority of Payments upon the occurrence of an Issuer Event of Default, the Class A Notes and, after the Class A Notes have been redeemed in full, the Class B Notes, in this order sequentially (other than, during the Revolving Period, in the limited circumstance where the balance standing to the credit of the Principal Account Ledger exceeds 10% of the outstanding Class A Principal Amount, in which case there will be an amortisation of the Notes on a *pro rata* basis between the Class A Notes and the Class B Notes), shall be redeemed on each Payment Date in an amount equal to the Available Principal Amount less the sum of all amounts payable or to be applied (as the case may be) by the Issuer as set forth in the Pre-Enforcement Principal Priority of Payments under items *first* and *second* (if relevant), provided that each Note of a particular Class shall be redeemed on each Payment Date in an amount equal to the redemption amount allocated to such Class divided by the number of Notes in such Class.

7.3 Final Maturity Date

On 29 December 2032 (the "**Final Maturity Date**"), each Class A Note shall, unless previously redeemed or purchased and cancelled, be redeemed in full at the then outstanding Note Principal Amount and, after all Class A Notes have been redeemed in full, each Class B Note shall, unless previously redeemed or purchased and cancelled, be redeemed in full at the then outstanding Note Principal Amount, in each case subject to the limitations set forth in Condition 3.2 (*Limited Recourse*). Any claims arising from the Notes, i.e. claims to interest and principal, cease to exist with the expiration of five (5) years after the Final Maturity Date, unless the Global Note representing such Class of Notes is submitted to the Issuer for redemption prior to the expiration of five (5) years after the Final Maturity Date, in which case, the claims will become time-barred

after two (2) years beginning with the end of the period for presentation (ending five (5) years after the Final Maturity Date in accordance with the Terms and Conditions). The commencement of judicial proceedings in respect of the claim arising from a Global Note will have the same legal effect as the presentation of a Global Note.

7.4 Early Redemption

- (a) On any Payment Date on which the Aggregate Outstanding Principal Amount has been reduced to 10% of the highest Aggregate Outstanding Principal Amount during the Revolving Period, the Seller shall have the right under the Receivables Purchase Agreement to repurchase all outstanding Purchased Receivables (together with any Related Collateral) and the proceeds from such repurchase shall constitute Available Collections and shall be deemed to be received during the Collection Period relating to such Payment Date, subject to the following requirements:
 - (i) the proceeds distributable as a result of such repurchase on the Early Redemption Date shall be at least equal to the sum of the then outstanding Class A Principal Amount plus accrued but unpaid interest thereon together with all amounts ranking prior thereto according to the relevant Pre-Enforcement Priority of Payments;
 - (ii) the Seller shall advise the Issuer of its intention to exercise the repurchase option at least one (1) month prior to the contemplated termination date which must be a Payment Date (the "**Early Redemption Date**"); and
 - (iii) the repurchase price to be paid by the Seller is equal to the aggregate Outstanding Principal Amounts as at the Early Redemption Date plus any interest accrued but unpaid on all Purchased Receivables which are not Defaulted Receivables as at such time.
- (b) The repurchase option by the Seller under the Receivables Purchase Agreement and, accordingly, the early redemption of the Notes pursuant to this Condition 7.4 shall be excluded if the sum of the repurchase price determined pursuant to Condition 7.4(a)(iii) above and all other amounts forming part of the Available Interest Amount and the Available Principal Amount relating to such Payment Date is not sufficient to fully satisfy the obligations of the Issuer specified under Condition 7.4(a)(i) above.
- (c) Upon payment in full of the amounts pursuant to Condition 7.4(a)(i) to the Noteholders, the Noteholders shall not receive any further payments of interest or principal.

7.5 Optional Redemption for Taxation Reasons

If the Issuer is or becomes at any time required by law to deduct or withhold in respect of any payment under the Notes current or future taxes, levies or governmental charges, regardless of their nature, which are imposed under any applicable system of law or in any country which claims fiscal jurisdiction by, or for the account of, any political subdivision thereof or government agency therein authorised to levy taxes, the Issuer shall determine within twenty (20) calendar days of such circumstance occurring whether it would be practicable to arrange for the substitution of the Issuer in accordance with Condition 11 (*Substitution of the Issuer*) or to change its tax residence to another jurisdiction approved by the Security Trustee. The Security Trustee shall not give such approval unless each Rating Agency has been notified in writing of such substitution or change of the tax residence of the Issuer. If the Issuer determines that any of such measures would be practicable, it shall effect such substitution in accordance with Condition 11 (*Substitution of the Issuer*) or (as relevant) such change of tax residence within sixty (60) calendar days from such determination. If, however, it determines within twenty (20) calendar days of such circumstance occurring that none of such measures would be practicable or if, having determined that any of such measures would be practicable, it is unable so to avoid such deduction or withholding within such further period of sixty (60) calendar days, then the Issuer shall be entitled at its option (but shall have no obligation) to fully redeem all (but not some only) of the Notes, upon not more than sixty (60)

calendar days' nor less than thirty (30) calendar days' notice of redemption given to the Security Trustee, to the Paying Agent and, in accordance with Condition 13 (*Form of Notices*), to the Noteholders at their then aggregate outstanding Note Principal Amounts, together with accrued but unpaid interest (if any) to the date (which must be a Payment Date) fixed for redemption. Any such notice shall be irrevocable, must specify the date fixed for redemption and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

7.6 Pre-Enforcement Principal Priority of Payments

On each Payment Date prior to the occurrence of an Issuer Event of Default, the Available Principal Amount shall be applied in accordance with the following order of priorities (the "**Pre-Enforcement Principal Priority of Payments**"), provided that in each case payments to be made under a certain priority will only be made if payments of all higher priorities have been made in full:

- (a) *first*, on each Payment Date during the Revolving Period, to pay to the Seller the Principal Component Purchase Price which has become due and payable on that Payment Date;
- (b) *second*, during the Revolving Period, to pay any amounts up to the Maximum Principal Account Ledger Amount;

- (e) in the event the payments to be made on a Payment Date constitute the final payment with respect to Notes pursuant to Condition 7.3 (*Final Maturity Date*), Condition 7.4 (*Early Redemption*) or Condition 7.5 (*Optional Redemption for Taxation Reasons*), of the fact that such is the final payment; and
- (f) the occurrence of a Servicing Report Delivery Failure.

In each case, such notification shall be made by the Paying Agent on the second Business Day preceding the relevant Payment Date.

Each of the Agents shall act solely as agents for the Issuer and shall not have any agency or trustee relationship with the Noteholders. 10. Taxes

Payments shall only be made by the Issuer after the deduction and withholding of current or future taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected (collectively, "**taxes**") under any applicable system of law or in any country which claims fiscal jurisdiction by, or for the account of, any political subdivision thereof or government agency therein authorised to levy taxes, to the extent that such deduction or withholding is required by law or by agreement with the U.S. Internal Revenue Service entered into pursuant to FATCA.

The Issuer shall account for the deducted or withheld taxes with the competent government agencies and shall, upon request of a Noteholder, provide proof thereof. The Issuer is not obliged to pay any additional amounts as compensation for taxes.

If a quorum is not reached, the Chairperson may convene a Noteholders' meeting. Each Noteholder who has taken part in the vote may request from the Issuer, for up to one year following the end of the voting period, a copy of the minutes for such vote and any annexes thereto.

Each Noteholder who has taken part in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the Chairperson. If the Chairperson remedies the objection, the Chairperson shall promptly publish the result. If the Chairperson does not remedy the objection, the Chairperson shall promptly inform the objecting Noteholder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting or appointed or removed the Chairperson, also the costs of such proceedings.

Rules on noteholders' meetings under the German Act on Debt Securities

In addition to the aforementioned rules, the statutory rules applicable to noteholders' meetings apply *mutatis mutandis* to any taking of votes by noteholders without a meeting. The following summarises some of such rules.

Meetings of noteholders may be convened by the issuer and the noteholders' representative if such a representative has been appointed. Meetings of noteholders must be convened if one or more noteholders holding 5 % or more of the outstanding notes so require for specified reasons permitted by statute.

Meetings may be convened not less than fourteen (14) days before the date of the meeting. Attendance and voting at the meeting may be made subject to prior registration of noteholders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The place of the meeting in respect of a German issuer is the place of the issuer's registered office, **provided, however, that** where the relevant notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice must include relevant particulars and must be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each noteholder may be represented by proxy. A quorum exists if noteholders representing by value not less than 50 % of the outstanding notes are present or represented at the meeting. If the quorum is not reached, a second meeting may be called at which no quorum will be required, **provided that** where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25 % of the principal amount of outstanding notes.

All resolutions adopted must be properly published. Resolutions which amend or supplement the terms and conditions of notes certificated by one or more global notes must be implemented by supplementing or amending the relevant global note(s).

In insolvency proceedings instituted in Germany against the issuer, the noteholders' representative, if appointed, is obliged and exclusively entitled to assert the noteholders' rights under the notes. Any *resolutions passed by the noteholders are subject to the provisions of the German Insolvency Code (Insolvenzordnung)*.

If a resolution constitutes a breach of the statute or the terms and conditions of the notes, noteholders may bring an action to set aside such resolution. Such action must be filed with the competent court within one (1) month following the publication of the resolution.

APPENDIX B - THE MAIN PROVISIONS OF THE TRANSACTION SECURITY AGREEMENT

The following sets out the main provisions of the Transaction Security Agreement. The full text of the Transaction Security Agreement (excluding any Schedule thereto) constitutes Appendix B to the Terms and Conditions of the Notes and forms an integral part of the Terms and Conditions of the Notes. The text of the recitals, Clause 1 (*Definitions and Construction*) and Clause 41.2 of the Transaction Security Agreement have been omitted from the following. Consequently, the following outline of the Clauses is starting with Clause 2 (*DUTIES OF THE SECURITY TRUSTEE*).

2. DUTIES OF THE SECURITY TRUSTEE

This Transaction Security Agreement sets out the general rights and obligations of the Security Trustee which govern the performance of its functions under this Transaction Security Agreement. The Security Trustee shall perform the activities and services set out in this Transaction Security Agreement or contemplated to be performed by the Security Trustee pursuant to the terms of any other Transaction Document to which the Security Trustee is a party. The Security Trustee is not obliged to supervise or monitor the discharge by any person of its payment and other obligations arising from the Notes or any other relevant Transaction Documents or to carry out duties which are the responsibility of the Issuer or any other person which is a party to any Transaction Document.

3. POSITION OF SECURITY TRUSTEE IN RELATION TO THE BENEFICIARIES

3.1 The Security Trustee shall acquire and hold the security granted to it under this Transaction Security Agreement and exercise its rights (other than its rights under Clauses 28 (*FEES*) to 31 (*TAXES*) of this Transaction Security Agreement) and discharge its duties under the Transaction Documents as a trustee (*Treuhänder*) for the benefit of the Beneficiaries.

Without prejudice to the Post-Enforcement Priority of Payments pursuant to Clause 23.2 (*POST-ENFORCEMENT PRIORITY OF PAYMENTS*), the Security Trustee shall exercise its duties under this Transaction Security Agreement (i) as long as any of the Class A Notes are outstanding, with regard only to the interests of the Class A Noteholders and (ii) if no Class A Notes remain outstanding, with regard only to the interests of the Class B Noteholders and (iii) if no Notes remain outstanding, with regard only to the interests of the Beneficiary ranking highest in the Post-Enforcement Priority of Payments to whom any amounts are owed.

3.2 This Transaction Security Agreement constitutes a genuine contract for the benefit of third parties (*echter Vertrag zugunsten Dritter*) pursuant to Section 328(1) of the German Civil Code (*Bürgerliches Gesetzbuch*) in respect of the obligations of the Security Trustee contained herein to act as trustee (*Treuhänder*) for the benefit of present and future Beneficiaries. The rights of the Issuer under the Transaction Documents in the event of an enforcement of the Security Trustee Claim pursuant to Clause 4.2 (*Security Trustee Claim*) shall remain unaffected.

4. POSITION OF SECURITY TRUSTEE IN RELATION TO THE ISSUER

4.1 Security Trustee as Secured Party/Insolvency of Security Trustee

With respect to its own claims against the Issuer under this Transaction Security Agreement or otherwise, in particular with respect to any fees, and with respect to the Security Trustee Claim (as set out below in Clause 4.2 (*Security Trustee Claim*)) the Security Trustee shall, in addition to the Beneficiaries, be a secured party (*Sicherungsnehmer*) with respect to the Note Collateral (as defined in Clause 7 (*SECURITY PURPOSE*)).

To the extent that the Assigned Security (as defined in Clause 5.1 (*Assignment and transfer*) below) will be transferred to the Security Trustee for security purposes in accordance with Clause 5 (*TRANSFER FOR SECURITY PURPOSES OF THE ASSIGNED SECURITY*), in the event of insolvency proceedings being commenced in respect of the Security Trustee, any Note Collateral

held by the Security Trustee shall be transferred by the Security Trustee to the relevant new Security Trustee appointed in accordance with this Transaction Security Agreement.

The Issuer and each Beneficiary who is a party to this Transaction Security Agreement hereby undertakes to assign any claim for segregation (*Aussonderung*) it may have in an insolvency of the Security Trustee with respect to this Transaction Security Agreement and the Note Collateral to the relevant new Security Trustee appointed in accordance with this Transaction Security Agreement for the purposes set out herein.

4.2 Security Trustee Claim

- (a) The Issuer hereby grants the Security Trustee a separate claim (the "**Security Trustee Claim**"), entitling the Security Trustee to demand from the Issuer:
 - (i) that any present or future, actual or contingent obligation of the Issuer in relation to any Noteholder under any Note be fulfilled; and
 - (ii) that any present or future, actual or contingent obligation of the Issuer in relation to any Beneficiary under any other Transaction Document to which the Issuer is a party be fulfilled.
- (b) The obligation of the Issuer to make payments to the relevant Beneficiary shall remain unaffected by the provisions of paragraph (a) above. The Security Trustee Claim may be enforced separately from the Beneficiary's claim in respect of the same payment obligation of the Issuer. The Security Trustee agrees with the Issuer and the Beneficiaries to pay any sums received from the Issuer pursuant to this Clause 4.2 to the relevant Beneficiaries in accordance with the Post-Enforcement Priority of Payments (as such term is defined in Clause 23.1 (*POST-ENFORCEMENT PRIORITY OF PAYMENTS*)) upon the occurrence of an Issuer Event of Default; the relevant Transaction Secured Obligation shall only be deemed fulfilled when the payment due has been made by the Security Trustee to the relevant Beneficiary.

5. TRANSFER FOR SECURITY PURPOSES OF THE ASSIGNED SECURITY

5.1 Assignment and transfer

The Issuer hereby assigns and transfers the following rights and claims (including any contingent rights (*Anwartschaftsrechte*) to such rights and claims) to the Security Trustee for the security purposes set out in Clause 7 (*SECURITY PURPOSE*) (*Sicherungsabtretung* or *Sicherungsübereignung*, as the case may be):

- (a) all Initial Receivables purchased and acquired on the Closing Date and any Additional Receivables to be purchased and acquired on any Subsequent Payment Date, in each case together with any Related Collateral and all rights, claims and interests relating thereto;
- (b) all rights, claims and interests which the Issuer is now or may hereafter become entitled to from or in relation to the Seller or the Servicer and/or any other party pursuant to or in respect of the Receivables Purchase Agreement or the Servicing Agreement, including all rights of the Issuer relating to any additional security;

- (g) all present and future rights, claims and interests which the Issuer is now or may hereafter become entitled to from or in relation to the Data Trustee and/or any other party pursuant to or in respect of the Data Trust Agreement;
- (h) all present and future rights, claims and interests which the Issuer is now or may hereafter become entitled to from or in relation to the Paying Agent and/or the Calculation Agent and/or the Reporting Agent pursuant to or in respect of the Agency Agreement;
- (i) all present and future rights, claims and interests which the Issuer is now or may hereafter become entitled to from or in relation to the Corporate Administrator and/or any other party pursuant to or in respect of the Corporate Administration Agreement; and
- (j) all present and future rights, claims and interests in or in relation to any amounts standing to the credit of any account of the Issuer governed by German law which may be opened in replacement of any of the Accounts,

in each case (a) to (j) above including any and all related non-ancillary (*selbständige*) and ancillary (*unselbständige*) rights to determine unilaterally legal relationships (*Gestaltungsrechte*), including any termination rights (*Kündigungsrechte*) (the "**Assigned Security**").

The Issuer hereby covenants in favour of the Security Trustee that it will assign and/or transfer any future assets received by it as security for any of the foregoing or otherwise in connection with the Transaction Documents which are governed by German law, in particular such assets which it receives from any of its counterparties in relation to any of such Transaction Documents as collateral for the obligations of such counterparty towards the Issuer, to the Security Trustee. The Issuer shall perform such covenant in accordance with the provisions of this Transaction Security Agreement.

5.2 The Security Trustee hereby accepts the assignment and the transfer of the Assigned Security and any security related thereto and the covenants of the Issuer hereunder.

5.3 The existing Assigned Security shall pass over to the Security Trustee on the date on which this Transaction Security Agreement becomes effective, and any future Assigned Security shall directly pass over to the Security Trustee at the date on which such Assigned Security arises, and in each case at the earliest at the time at which the Issuer has acquired the rights and claims of which the Assigned Security consists.

The Issuer undertakes to assign and/or transfer to the Security Trustee, on the terms and conditions and for the purposes set out herein, any rights and claims under any further agreements relating to the Transaction Documents upon execution of such documents.

5.4 To the extent that title to the Assigned Security cannot be transferred by mere agreement between the Issuer and the Security Trustee as effected in the foregoing Clauses 5.1 to 5.3, the Issuer and the Security Trustee hereby agree with respect to all Purchased Receivables that:

- (a) the delivery (*Übergabe*) necessary to effect the transfer of title for security purposes with regard to the Cars (and any car certificates (*Fahrzeugbriefe*), registration certificates part II (*Zulassungsbescheinigungen Teil II*) or equivalent documents with respect thereto) and any other moveable Related Collateral with regard to any subsequently inserted parts thereof or with regard to any subsequently arising co-owner's interest, is hereby replaced

in that the Issuer and the Security Trustee hereby agree that the Issuer hereby assigns to the Security Trustee all claims, present or future, to request transfer of possession (*Abtretung aller Herausgabeansprüche gemäß section 931 Bürgerliches Gesetzbuch*) against any third party (including any Debtors, Seller or (if different) Servicer) which is in the direct possession (*unmittelbarer Besitz*) or indirect possession (*mittelbarer Besitz*) of the Cars (and any car certificates (*Fahrzeugbriefe*), registration certificates part II (*Zulassungsbescheinigungen Teil II*) or equivalent documents with respect thereto) or other moveable Related Collateral. In addition to the foregoing it is hereby agreed that the Issuer shall, in the event that (but only in the event that) the related Car or other moveable Related Collateral are in the Issuer's direct possession (*unmittelbarer Besitz*), hold possession as fiduciary (*treuhänderisch*) on behalf of the Security Trustee and shall grant the Security Trustee indirect possession (*mittelbarer Besitz*) of the related Car and other moveable Related Collateral by keeping it with due care free of charge (*als Verwahrer*) and separate from other assets owned by it for the Security Trustee until revoked (*Besitzkonstitut*);

- (b) any notice to be given in order to effect transfer of title in the Assigned Security shall immediately be given by the Issuer in such form as the Security Trustee requires and the Issuer hereby agrees that if it fails to give such notice, the Security Trustee is hereby irrevocably authorised to give such notice on behalf of the Issuer;
- (c) any other thing to be done or form or registration to be effected to perfect a first priority security interest in the Assigned Security for the Security Trustee in favour of the Beneficiaries shall be immediately done and effected by the Issuer at its own costs; and
- (d) the Issuer shall provide any and all necessary details in order to identify the Cars, title to which has been transferred hereunder from the Issuer to the Security Trustee as contemplated herein, at the latest on the date on which this Transaction Security Agreement becomes effective.

The Security Trustee hereby accepts the assignment and transfer.

5.5 Assignment of claims under account relationship

If an express or implied current account relationship (*echtes oder unechtes Kontokorrentverhältnis*) exists or is later established between the Issuer and a third party, the Issuer hereby assigns to the Security Trustee (without prejudice to the generality of the provisions in Clause 5.1 (*Assignment and transfer*)) the right to receive a periodic account statement and the right to receive payment of present or future balances and the right to demand the drawing of a balance (including a final net balance determined upon the institution of any insolvency proceedings in respect of the assets of the Issuer), as well as the right to terminate the current account relationship and the right to receive payment of the closing net balance upon termination. The Issuer shall notify the Security Trustee of any future current account relationship it enters into in accordance with the Transaction Documents.

5.6 Acknowledgement of assignment/transfer

All parties to this Transaction Security Agreement hereby acknowledge that the rights and claims of the Issuer which constitute the Assigned Security and which have arisen under contracts and agreements between the Issuer and the parties hereto and which are owed by such parties, are assigned and/or transferred to the Security Trustee and that the Issuer is entitled to continue to exercise and collect such rights and claims only in accordance with the provisions of, and subject to, the restrictions contained in this Transaction Security Agreement. For the avoidance of doubt, upon notification to any party hereto by the Security Trustee in respect of the occurrence of an Issuer Event of Default, the Security Trustee solely shall be entitled to exercise the rights of the Issuer under the Transaction Documents referred to in Clause 5.1(a) to (j), including, without limitation, the right to give instructions to each such party pursuant to the relevant Transaction

Document and each party hereto agrees to be bound by such instructions of the Security Trustee given pursuant to the relevant Transaction Document to which such party is a party.

5.7 Irish Security Deed

The Issuer shall create security for the benefit of the Beneficiaries in all its present and future rights, claims and interests which the Issuer is now or becomes hereafter entitled to from or in relation to the Account Bank and/or the Calculation Agent and/or any other party pursuant to or in respect of the Accounts Agreement and shall, in addition hereto, create security over the Accounts and all amounts standing to the credit of the Accounts from time to time pursuant to the Irish Security Deed in accordance with Irish law.

6. PLEDGE

The Issuer hereby pledges (*Verpfändung*) to the Security Trustee all its present and future claims against the Security Trustee arising under this Transaction Security Agreement.

The Issuer hereby gives notice to the Security Trustee of such pledge and the Security Trustee hereby confirms receipt of such notice. The Security Trustee is under no obligation to enforce any claims of the Issuer against the Security Trustee pledged to the Security Trustee pursuant to this Clause 6 (*PLEDGE*).

7. SECURITY PURPOSE

The assignment and transfer for security purposes of rights and claims pursuant to Clause 5 (*TRANSFER FOR SECURITY PURPOSES OF THE ASSIGNED SECURITY*) and the pledge pursuant to Clause 6 (*PLEDGE*) (and the Assigned Security together with such pledges are referred to herein as the "**Collateral**", and together with the security interests established under the Irish Security Deed in respect of certain of the Issuer's powers, rights and interests, the "**Note Collateral**") serve to secure the Security Trustee Claim.

In addition, the assignment, the transfer and the pledge for security purposes of the Note Collateral is made for the purpose of securing the due payment and performance by the Issuer of any and all obligations (present and future, actual and contingent) which are (or are expressed to be) or become owing by the Issuer to the Beneficiaries or any of them (including any Replacement Beneficiary following a transfer or assignment, accession, assumption of contract (*Vertragsübernahme*) or novation of certain rights and obligations in accordance with the relevant provision of the relevant Transaction Documents) under or in connection with any of the Transaction Documents, as each may be amended, novated, supplemented or extended from time to time (the "**Transaction Secured Obligations**"), and which Transaction Secured Obligations shall, for the avoidance of doubt, include, without limitation, (i) any fees to be paid by the Issuer to any Beneficiary in connection with the Transaction Documents irrespective of whether such fees are agreed or determined in such Transaction Documents or in any fee arrangement relating thereto, (ii) any obligations incurred by the Issuer on, as a consequence of or after the opening of any insolvency proceedings and (iii) any potential obligations on the grounds of any invalidity or unenforceability of any of the Transaction Documents, in particular claims on the grounds of unjustified enrichment (*ungerechtfertigter Bereicherung*).

8. COLLECTION AUTHORISATION; FURTHER TRANSFER

8.1 Collection authorisation

- (a) Subject to the revocation of the Issuer's collection authorisation in accordance with Sub-Clause (c) or (d), the Issuer shall be authorised (*ermächtigt*) to collect or have collected in the ordinary course of business or otherwise exercise or deal with (which term shall, for the avoidance of doubt, include the enforcement of any security) the rights assigned and transferred for security purposes under Clause 5 (*TRANSFER FOR SECURITY PURPOSES OF THE ASSIGNED SECURITY*) and the rights pledged pursuant to Clause 6 (*PLEDGE*).

- (b) Without affecting the generality of paragraph (a), the Security Trustee hereby consents to the assignments, transfers and/or releases by the Issuer (or by the Servicer on behalf of the Issuer) of Purchased Receivables and Related Collateral to any third party in accordance with the Credit and Collection Policy and the release by the Servicer of any Car in accordance with the Receivables Purchase Agreement and/or the Servicing Agreement.
- (c) The authority and consents contained in paragraphs (a) and (b) may be revoked by the Security Trustee in accordance with Clause 16 (*BREACH OF OBLIGATIONS BY THE ISSUER*).
- (d) The authority and consents contained in paragraphs (a) and (b) shall automatically terminate upon the occurrence of an Issuer Event of Default, but with respect to the Servicer and the Seller only upon notice thereof to the Seller and the Servicer (as the case may be).

8.2 Transfer authorisation

The Security Trustee shall be authorised to transfer the Assigned Security in the event that the Security Trustee is replaced and the Note Collateral is to be transferred to the New Security Trustee pursuant to Clauses 32.1 (*Resignation*) and 34.1 (*Transfer of Note Collateral*).

In any event the Issuer shall be entitled to retain an amount of up to EUR 500 in each calendar year for its free disposal from the Note Collateral.

9. ENFORCEABILITY

The Note Collateral shall be enforced upon an Issuer Event of Default in accordance with Clause 19 (*ENFORCEMENT OF NOTE COLLATERAL*).

10. RELEASE OF COLLATERAL

As soon as the Security Trustee is satisfied that the Issuer has fully performed all obligations secured by this Transaction Security Agreement and to the extent the Collateral has not been previously released pursuant to this Transaction Security Agreement, the Security Trustee shall promptly at the cost of the Issuer transfer back to the Issuer or to the Issuer's order the Collateral assigned and/or transferred to it under this Transaction Security Agreement.

11. REPRESENTATIONS OF THE ISSUER WITH RESPECT TO NOTE COLLATERAL, COVENANTS

11.1 The Issuer hereby represents and warrants to and covenants with the Security Trustee (in the Security Trustee's own name and on behalf of the Beneficiaries) that it has (and will have, insofar as future rights and claims are concerned) full and unaffected title to the Note Collateral and any related security thereto which is assigned and/or transferred or pledged hereby and that such Note Collateral and such related security is (and will be insofar as future rights and claims are concerned) free and clear from any encumbrances and adverse rights and claims of any third parties, always subject only to the rights and encumbrances created under this Transaction Security Agreement and the Irish Security Deed.

11.2 The Issuer hereby represents and warrants to the Security Trustee (in the Security Trustee's own name and on behalf of the Beneficiaries), that, as of the date of execution of this Transaction Security Agreement, it has the corporate power and the authority to enter into this Transaction Security Agreement and that all necessary corporate action has been taken and the validity and enforceability of this Transaction Security Agreement is not subject to any restriction of any kind, consent or other requirement or condition, that has not been satisfied at the date of execution of this Transaction Security Agreement (save that enforceability may be limited by bankruptcy, insolvency or other similar proceedings with respect to the Issuer or by general principles of good faith (*Treu und Glauben*)).

11.3 The Issuer shall be liable (without prejudice to Clause 44 (*NO LIABILITY AND NO RIGHT TO PETITION AND LIMITATION ON PAYMENTS*)) to pay damages (*Schadensersatz wegen Nichterfüllung*) in the event that any Note Collateral transferred for security purposes in accordance with this Transaction Security Agreement proves to be invalid or if the transfer itself proves to be invalid.

11.4 The Issuer hereby covenants with the Security Trustee to notify the Security Trustee of the issue of the Notes within ten (10) Business Days from the date of issue thereof by way of notice substantially in the form set out in Schedule 1 (*Form of Note Identification Notice*).

12. REPRESENTATIONS AND WARRANTIES OF THE SECURITY TRUSTEE AND CERTAIN OTHER PARTIES

The Security Trustee hereby represents and warrants to the other parties:

12.1 with respect to itself only, that, as of the date hereof, it has the corporate power and the authority to enter into this Transaction Security Agreement and the other Transaction Documents to which it is a party and that all necessary corporate action in connection with the entry into this Transaction Security Agreement has been taken.

12.2 It is hereby agreed (without prejudice to the other provisions of this Transaction Security Agreement, and in particular Clauses 33 (*REPLACEMENT OF SECURITY TRUSTEE*) and 34.1 (*Transfer of Note Collateral*) hereof) that, in the event that the Security Trustee does not possess any authorisation, registration or licence which is required for the performance of its duties and obligations hereunder, the Security Trustee shall, without undue delay, remedy any such grounds, obtain such authorisations, registrations and licences, and any other obligations of the Security Trustee and the other provisions of this Transaction Security Agreement shall not be affected by the Security Trustee failing to remedy such grounds or to have obtained such authorisations, registrations or licences.

12.3 Each Beneficiary (other than the Security Trustee) who is a party to this Transaction Security Agreement hereby represents and warrants, that, as of the date of execution of this Transaction Security Agreement, it has the corporate power and the authority to enter into this Transaction Security Agreement and that all necessary corporate action in connection with the entry into this Transaction Security Agreement and the other Transaction Documents to which it is a party has been taken.

13. RECEIPT AND CUSTODY OF DOCUMENTS; NOTICES

The Security Trustee shall take delivery of and keep in custody the documents which are delivered to it under the Transaction Documents (if any) and shall:

- (a) keep such documents for one year after the termination of this Transaction Security Agreement; or
- (b) forward the documents to the New Security Trustee if the Security Trustee is replaced in accordance with Clauses 33 (*REPLACEMENT OF SECURITY TRUSTEE*) and 34 (*Transfer of Note Collateral*) hereof.

14. ACCOUNTS TERMINATION

14.1 Accounts termination

Each Account has been opened, or, if applicable, will be opened by the Issuer in accordance with the Accounts Agreement with the Account Bank. The Issuer shall terminate (and, if the Issuer does not terminate, the Security Trustee may terminate on behalf of the Issuer) the account relationship with the Account Bank within sixty (60) calendar days after the occurrence of any of the following events:

(a) the Account Bank ceases to have the Account Bank Required Rating; or

(b) the Account Bank is no longer rated by any of the Rating Agencies (each of such events listed in (a) and (b), an "**Account Bank Downgrade**"). Following the occurrence of an Account Bank Downgrade, the Account Bank will continue to operate the Accounts until the Issuer has appointed a new bank and any and all amounts credited to any Account have been transferred to that new bank and credited to a new account held with such new bank corresponding to such Account at no cost (associated with the actual transfer of the Account) to the Issuer.

14.2 Successor Bank

(a) Should the account relationship with the Account Bank be terminated by the Account Bank or the Issuer, the Issuer shall promptly inform the Security Trustee and the Rating Agencies of such termination. Unless an Issuer Event of Default has occurred and is continuing or the Note Collateral is enforced, in case of such termination the Issuer, acting in its own name, shall open new accounts with another bank or financial institution (the "**Successor Bank**") on conditions as close as possible to those previously agreed with the previous Account Bank in respect of the Accounts. The Successor Bank shall be a bank having at least the Account Bank Required Rating. The Issuer shall enter into a new account agreement with the Successor Bank, the Security Trustee and the Corporate Administrator as contracting parties and any and all amounts credited to any Account shall be transferred to corresponding new account(s) (as relevant), at the cost (associated with the actual transfer of the funds from the downgraded Accounts to the new corresponding accounts) to the Issuer (and any and all references to "**General Collection Account**", "**Principal Account**", "**Interest Account**", "**General Reserve Account**", and any other Account shall in each case then be read as references to such new corresponding account(s)).

(b) If accounts replacing the Accounts have been opened with a Successor Bank and an Account Bank Downgrade has occurred with respect to such Successor Bank, then within sixty (60) calendar days of such Account Bank Downgrade, the Issuer shall open substitute accounts with another Successor Bank in accordance with the procedure set out in Clause 14.2(a) (*Successor Bank*) and terminate each account with the previous Successor Bank.

15. CONSENT OF THE SECURITY TRUSTEE

If the Issuer requests that the Security Trustee grants its consent pursuant to Clause 39 (*ACTIONS OF THE ISSUER REQUIRING CONSENT*) hereof, the Security Trustee may grant or withhold the requested consent at its discretion taking into account what the Security Trustee believes to be the interests of the Beneficiaries, giving due regard to the provisions of Clause 3 (*POSITION OF SECURITY TRUSTEE IN RELATION TO THE BENEFICIARIES*). In any event, the Security Trustee shall give such consent if (regardless of whether the relevant action could, in the professional judgement of the Security Trustee, be materially prejudicial (*wesentlich nachteilig*) to the Beneficiaries) (i) the Security Trustee or the Issuer has notified each Rating Agency of such proposed action and (ii) one or more Noteholders representing at least 66 2/3% of the then outstanding Class Principal Amount of the most senior outstanding Class of Notes (or, if no Notes remain outstanding, one or more Beneficiaries representing 51% of the then outstanding aggregate amount owed to all Beneficiaries) have given their consent and instructed the Security Trustee to such action, it being understood that the Security Trustee shall be entitled at any time to request such instruction or confirmation, and (iii) the Security Trustee has received full indemnification and/or prefunding and/or security that it may in its discretion require (which may deviate from the indemnification otherwise provided for in the Transaction Documents and which may include payment in advance) for any cost, loss, expense or liability (together with any applicable VAT) which it may incur in complying with those instructions.

16. BREACH OF OBLIGATIONS BY THE ISSUER

- 16.1** If the Security Trustee in the course of its activities obtains actual knowledge or is notified that the existence or the value of the Note Collateral is at risk due to any failure of the Issuer properly to discharge its obligations under this Transaction Security Agreement or the other Transaction Documents to which it is a party, the Security Trustee shall be authorised, at its discretion and subject to Clause 16.2 below, to take or initiate all actions which in the opinion of the Security Trustee are desirable or expedient to avert such risk (including the revocation of the authority and consents contained in Clause 8.1(a) and 8.1(b)). If for any reason the obligations are not duly discharged pursuant to Clause 34 (*TRANSFER OF NOTE COLLATERAL*) in respect of the Note Collateral, the Issuer and the Security Trustee shall do all further acts and implement all further measures necessary in order to effect the transfer of the Note Collateral, and the Security Trustee shall in particular be authorised and obliged to exercise all rights arising under the relevant Transaction Documents on behalf of the Issuer necessary in order to do so.
- 16.2** The Security Trustee shall only be obliged to intervene in accordance with Clause 16.1 if, and to the extent that, (i) it is instructed by one or more Noteholders representing at least 66 2/3% of the then outstanding Class Principal Amount of the most senior outstanding Class of Notes (or, if no Notes remain outstanding, one or more Beneficiaries representing 51% of the then outstanding aggregate amount owed to all Beneficiaries) to act in accordance with Clause 16.1 and (ii) it is satisfied that it will be fully indemnified or secured or pre-funded (either by reimbursement of costs, its ranking under the Pre-Enforcement Interest Priority of Payments or the Post-Enforcement Priority of Payments (as applicable) or in any other way it deems appropriate) against all costs and expenses resulting from its activities (including fees for retaining counsel, banks, auditors or other experts as well as the expenses of retaining third parties to perform certain duties) and against all liabilities, obligations and attempts to bring any action in or outside court. Clause 35 (*STANDARD OF CARE FOR LIABILITY*) shall remain unaffected.

17. FURTHER OBLIGATIONS

- 17.1** The Security Trustee shall perform its tasks and obligations under the other Transaction Documents to which it is a party in accordance with this Transaction Security Agreement.
- 17.2** The Security Trustee shall, unless otherwise provided for under this Transaction Security Agreement, decide on any consents or approvals to be given by it pursuant to the other Transaction Documents in its reasonable discretion in accordance with this Transaction Security Agreement (in particular Clause 36 (*GENERAL*) hereof).

18. POWER OF ATTORNEY

The Issuer hereby grants the Security Trustee power of attorney, waiving, to the fullest extent permitted under applicable law, the restrictions of Section 181 of the German Civil Code (*Bürgerliches Gesetzbuch*) and any similar restrictions under the laws of any other countries, with the right to grant substitute power of attorney, to act in the name of the Issuer with respect to all rights of the Issuer arising under the Transaction Documents (except for the rights vis-à-vis the Security Trustee). Such power of attorney shall be irrevocable.

It shall expire as soon as a New Security Trustee has been appointed pursuant to Clauses 32 (*RESIGNATION*) or 33 (*REPLACEMENT OF SECURITY TRUSTEE*) and the Issuer has issued a power of attorney to such New Security Trustee having the same content as the power of attorney previously granted in accordance with the provisions of this Clause 18 (*POWER OF ATTORNEY*). The Security Trustee shall only act under this power of attorney in relation to the exercise of its rights and obligations under the Transaction Documents.

19. ENFORCEMENT OF NOTE COLLATERAL

19.1 Issuer Event of Default

The Note Collateral shall be subject to enforcement upon the occurrence of an Issuer Event of Default. The Security Trustee shall without undue delay, but in any event no later than within ten (10) Business Days, upon obtaining knowledge of an Issuer Event of Default, give notice thereof to the Noteholders pursuant to Clause 19.3 (*Notification, Instruction*) and each other Beneficiary as well as the Rating Agencies pursuant to Clause 41 (*NOTICES*).

19.2 Enforcement of Note Collateral

Upon being notified by any person of the occurrence of an Issuer Event of Default or otherwise obtaining actual knowledge thereof, the Security Trustee shall enforce or cause enforcement of the Note Collateral as instructed in writing by (i) one or more Class A Noteholders representing at least 51 % of the outstanding Class A Principal Amount, (ii) if no Class A Notes are outstanding, one or more Class B Noteholders representing at least 51 % of the outstanding Class B Principal Amount, or (iii) if no Notes remain outstanding, any other Beneficiary or Beneficiaries representing at least 51 % of the aggregate outstanding amount owed by the Issuer to all Beneficiaries ((i) to (iii) each an "**Enforcement Instruction**"), subject to Clause 19.3 (*Notification, Instruction*), Clause 19.4 (*Indemnification*) and Clause 30 (*RIGHT TO INDEMNIFICATION*). For the avoidance of doubt, if an Issuer Event of Default has occurred, the Security Trustee is not obliged to perform any action or omission with respect to the enforcement of the Note Collateral until it has received an Enforcement Instruction.

19.3 Notification, Instruction

Promptly upon receipt of an Enforcement Instruction, the Security Trustee shall provide the Noteholders, each other Beneficiary as well as the Rating Agencies with a copy thereof pursuant to Clause 41 (*NOTICES*).

19.4 Indemnification

For the avoidance of doubt, the Security Trustee shall not be obliged to undertake any action required to be taken in accordance with an Enforcement Instruction (other than notification thereof pursuant to Clause 19.3 (*Notification, Instruction*)) unless it is fully indemnified or secured or pre-funded to its satisfaction in accordance with Clause 30.2.

20. PAYMENTS UPON OCCURRENCE OF AN ISSUER EVENT OF DEFAULT

Upon the occurrence of an Issuer Event of Default:

- (a) The Note Collateral may be exercised, collected, claimed and enforced exclusively by the Security Trustee.
- (b) The Security Trustee shall deposit the proceeds of any enforcement which it receives in the General Collection Account held in the name of the Issuer (but only to the extent the rights and claims arising from or with respect to the General Collection Account have been validly assigned to it under the Irish Security Deed or this Transaction Security Agreement, as applicable), or, in the event that the Security Trustee has opened an account for collecting and/or depositing enforcement proceeds in its own name, such account.
- (c) The Security Trustee shall not be required to make payments on the obligations of the Issuer if, and so long as, in the opinion of the Security Trustee, there is a risk that such payment will jeopardise the fulfilment of any later maturing obligation of the Issuer ranking with senior priority pursuant to and in accordance with the Post-Enforcement Priority of Payments.
- (d) The Security Trustee shall make payments out of the proceeds of any enforcement of Note Collateral in accordance with Clause 23.2 (*POST-ENFORCEMENT PRIORITY OF PAYMENTS*).

- (e) Subject to the Post-Enforcement Priority of Payments, after all Transaction Secured Obligations have been satisfied in full, the Security Trustee shall pay out any remaining amounts to the Issuer.

21. CONTINUING DUTIES

For the avoidance of doubt and without affecting general applicable law with respect to any continuing effect of any other provisions of this Transaction Security Agreement, it is hereby agreed that Clauses 13 (*RECEIPT AND CUSTODY OF DOCUMENTS; NOTICES*) to 18 (*POWER OF ATTORNEY*) shall continue to apply after the occurrence of an Issuer Event of Default.

22. ACCOUNTS; SET-OFF

22.1 The General Collection Account of the Issuer set up and maintained pursuant to the Accounts Agreement shall be used for receipt of amounts relating to the Transaction Documents. The Principal Account and the Interest Account of the Issuer set up and maintained pursuant to the Accounts Agreement shall be used for the fulfilment of the payment obligations of the Issuer. The General Reserve Account of the Issuer set up and maintained pursuant to the Accounts Agreement shall be reserved for any amounts paid into the General Reserve.

22.2 The Issuer shall ensure that all payments and transfers made to the Issuer be made by way of a bank transfer to or deposit in the General Collection Account or, in case of a transfer of any amount towards the General Reserve, to the General Reserve Account. Should any amounts payable to the Issuer be paid in any way other than as set forth in the preceding sentence, the Issuer shall promptly credit such amounts to, or (as the case may be) deposit such securities in, the General Collection Account. The Pre-Enforcement Priorities of Payments and the Post-Enforcement Priority of Payments set out in Clause 23.2 shall remain unaffected.

22.3 The Issuer shall not open any new bank account in addition to the Accounts, or as a replacement of any Account, unless it has granted a security interest over any and all rights relating thereto to the Security Trustee under the relevant applicable law for the security purposes set out in Clause 7 (*SECURITY PURPOSE*), and only after having obtained the consent of the Security Trustee in accordance with this Transaction Security Agreement. For the avoidance of doubt, upon notification to the Account Bank by the Security Trustee in respect of the occurrence of an Issuer Event of Default, the Security Trustee shall be entitled to exercise the rights of the Issuer under the Accounts Agreement assigned to the Security Trustee in accordance with this Transaction Security Agreement and over the Accounts secured in favour of the Security Trustee in accordance with the Irish Security Deed, including, without limitation, the right to give instructions to the Account Bank pursuant to the Accounts Agreement.

22.4 Without prejudice to Clause 44 (*NO LIABILITY AND NO RIGHT TO PETITION AND LIMITATION ON PAYMENTS*), all payments by any party hereto (other than the Issuer and the Security Trustee) are to be rendered without any deduction or retention due to any set-off or counterclaim.

23. POST-ENFORCEMENT PRIORITY OF PAYMENTS

23.1 Upon the occurrence of an Issuer Event of Default and prior to the full discharge of all Transaction Secured Obligations, any credit on the relevant Account (including, for the avoidance of doubt, any account of the Security Trustee opened in accordance with Clause 14 (*ACCOUNTS TERMINATION*)) and any proceeds obtained from the enforcement of the Note Collateral in accordance with Clause 19 (*ENFORCEMENT OF NOTE COLLATERAL*) (together, the "Credit") shall be applied exclusively in accordance with the post-enforcement priority of payments ("**Post-Enforcement Priority of Payments**") set out in Clause 23.2.

23.2 Upon the occurrence of an Issuer Event of Default, on any Payment Date any available funds of the Issuer (including Credit upon the servicing of an Enforcement Instruction) shall be applied in the following order towards fulfilling the payment obligations of the Issuer (the "**Post-**

Enforcement Priority of Payments"), provided that in each case payments to be made under a certain priority will only be made if payments of all higher priorities have been made in full:

- (a) *first*, to pay the Issuer Expenses and, in priority to such payment (if any), to pay any Issuer Expenses Arrears;
- (b) *second*, to pay, *pro rata* and on a *pari passu* basis, the Class A Notes Interest Amount due and payable on each Class A Note;
- (c) *third*, *pro rata* and on a *pari passu* basis, towards redemption in full of the Class A Notes;
- (d) *fourth*, to pay to the Seller the Principal Component or portion of Principal Component Purchase Price of any Purchased Receivables purchased on any prior Purchase Date during the Revolving Period and remaining unpaid on such Payment Date (if any);
- (e) *fifth*, to pay, to pay, *pro rata* and on a *pari passu* basis, the Class B Notes Interest Amount due and payable on each Class B Note;
- (f) *sixth*, *pro rata* and on a *pari passu* basis, towards redemption in full of the Class B Notes;
- (g) *seventh*, subject to the full redemption of the Notes of each Class, to pay to the Subordinated Loan Provider, interest due and payable under the Subordinated Loan Agreement;
- (h) *eighth*, subject to the full redemption of the Notes of each Class, to pay to the Subordinated Loan Provider, outstanding principal due and payable under the Subordinated Loan Agreement; and
- (i) *ninth*, to pay any remaining available amount to the Seller pursuant to the terms of the Receivables Purchase Agreement,

provided that any payment to be made by the Issuer under the *first* item with respect to taxes will be made on the Business Day on which such payment is then due and payable using the Credit.

24. RELATIONSHIP TO THIRD PARTIES

24.1 In relation to the Note Collateral, the Post-Enforcement Priority of Payments shall, subject to applicable law, be binding on all creditors of the Issuer, provided that in relation to any other assets of the Issuer, the Post-Enforcement Priority of Payments shall only apply internally between the Beneficiaries, the Security Trustee and the Issuer; in respect of third party relationships, the rights of the Beneficiaries and the Security Trustee shall have equal rank to those of third party creditors of the Issuer.

24.2 The Post-Enforcement Priority of Payments shall also apply if the Transaction Secured Obligations are transferred to third parties by way of assignment, subrogation into a contract or otherwise.

25. OVERPAYMENT

All payments to Beneficiaries which are parties to this Transaction Security Agreement shall be subject to the condition that, if a payment is made to a creditor in breach of the Post-Enforcement Priority of Payments, such creditor shall re-pay the amount so received to the Security Trustee by payment to the General Collection Account (including any account established by the Security Trustee in accordance with Clause 14 (*ACCOUNTS TERMINATION*) hereof). The Security Trustee shall then pay out the monies so received in the way that they were payable in accordance with the Post-Enforcement Priority of Payments on the relevant Payment Date. If such overpayment is not repaid by the Payment Date following the overpayment or if the claim to

repayment is not enforceable, the Security Trustee is authorised and obliged to make payments in such a way that any over- or under-payments made in breach of Clause 23.2 are set off by correspondingly decreased or increased payments on such Payment Date (and, to the extent necessary, on all subsequent Payment Dates).

26. RETAINING THIRD PARTIES

26.1 The Security Trustee may retain the services of (a) legal counsel, financial consultants, banks and other experts in Germany or elsewhere for the purpose of seeking information and advice to assist it in performing the duties assigned to it under this Transaction Security Agreement and the other Transaction Security Documents, and/or (b) a suitable law firm, accounting firm or credit or trust institution for the purpose of delegating the entire or partial performance of its duties hereunder and the other Transaction Documents (as it deems appropriate), in each case, at the cost of the Issuer (any of the aforementioned persons so retained, a "**retained third party**"). The Security Trustee will obtain at least three (3) fee quotes prior to the appointment of such third party (unless this would be, as determined by the Security Trustee, inappropriate in the specific case considering factors such as timing and the type of services) and select the relevant third party also on the basis of the obtained fee quotes.

- (a) The Security Trustee shall not be liable for the performance or non-performance or any wilful misconduct or negligence of such retained third parties (*Vorsatz und Fahrlässigkeit*). In any event, however, the Security Trustee shall remain liable for diligently selecting and supervising such delegates in accordance with Clause 35 (*STANDARD OF CARE FOR LIABILITY*) hereof.
- (b) Subject to Clause 26.1(a), the Security Trustee may rely on any information and advice obtained from such retained third parties without having to make its own investigations or to supervise such retained parties.

26.2 The Security Trustee may sub-contract the performance of some (but not all) or any of its obligations. Any breach in the performance of the delegated obligations by such sub-contractor shall not be treated as a breach of obligation by the Security Trustee pursuant to Section 278 of the German Civil Code (*Bürgerliches Gesetzbuch*); however, the Security Trustee shall remain liable for diligently selecting and supervising such sub-contractors in accordance with Clause 35 (*STANDARD OF CARE FOR LIABILITY*) hereof.

27. REPRESENTATIONS AND WARRANTIES OF THE ISSUER

In the event of the Note Collateral becoming enforceable or in the event of the Security Trustee finding it, in its professional judgment and after good faith consultation (except that in the case of the enforcement of the Note Collateral where fees are charged on a time-spent basis and such consultation is not required) with the Seller, expedient or being required to undertake any duties which the Security Trustee determines to be of an exceptional nature or otherwise outside the scope of the normal duties of the Security Trustee under this Transaction Security Agreement and the other Transaction Documents to which it is a party, the Issuer shall pay such additional remuneration as shall be agreed between the Security Trustee and the Issuer, and the Issuer shall be responsible to promptly inform the Rating Agencies of any change of the regular Security Trustee's fees (except for additional fees due to exceptional circumstances and outside the scope of its normal duties). In the event of the Security Trustee and the Issuer failing to agree upon such increased or additional remuneration, such matters shall be determined by an independent investment bank (acting as an expert and not as an arbitrator) selected by the Security

Trustee and approved by the Issuer or, failing such approval, nominated by the Corporate Administrator, the expenses involved in such nomination and the fees of such investment bank being for the account of the Issuer, and the decision of any such investment bank shall be final and binding on the Issuer and the Security Trustee.

29. REIMBURSEMENT OF EXPENSES

In addition to the remuneration of the Security Trustee, the Issuer shall pay all reasonable out-of-pocket costs, charges and expenses (including, without limitation, legal and travelling expenses, any stamp, issue, registration, documentary or other taxes paid or payable by the Security Trustee in connection with any action taken or contemplated by or on behalf of the Security Trustee for enforcing, or resolving any doubt concerning, or for any other purpose in relation to, this Transaction Security Agreement or any other Transaction Document and fees and expenses of its agents, delegates and advisors) which the Security Trustee properly incurs in relation to the negotiation, preparation and execution of, the exercise of its powers and the performance of its duties under this Transaction Security Agreement and the other Transaction Documents, any action taken by it under or in relation to this Transaction Security Agreement or any of the other Transaction Documents or any amendment, renewals or waivers made in accordance with the Transaction Documents in respect hereof.

- 30.1** The Issuer shall indemnify the Security Trustee in respect of all proceedings (including claims and liabilities in respect of taxes other than on the Security Trustee's own overall net profits, income or gains and subject to Clause 31.2), losses, claims and demands and all costs, charges, expenses, and liabilities to which the Security Trustee (or any third party pursuant to Clause 26 (*RETAINING THIRD PARTIES*)) may be or become liable or which may be incurred by the Security Trustee (or any such third party) in respect of anything done or omitted in relation to this Transaction Security Agreement and any of the other Transaction Documents, unless such costs and expenses are incurred by the Security Trustee due to a breach of the duty of care provided for in Clause 35 (*STANDARD OF CARE FOR LIABILITY*).

Without prejudice to the indemnity given under this Clause 30.1, the Security Trustee and every agent or third party appointed by the Security Trustee hereunder shall be entitled to be indemnified out of the Note Collateral in respect of all liabilities incurred by them or him in the execution or purported execution of any powers, authorities or discretions vested in them or him pursuant to this Transaction Security Agreement or any other Transaction Document and against all actions, proceedings, costs, claims and demands in respect of any matter or things done or omitted in any way relating to the Note Collateral, and after enforcement the Security Trustee may retain any part of monies in its hands arising from the Note Collateral necessary to effect such indemnity and also meet the remuneration of the Security Trustee.

For the avoidance of doubt it is hereby agreed that any indemnities shall be owed by the Issuer and that the Security Trustee has no right of indemnification against the Beneficiaries hereunder unless it has received an Enforcement Instruction from any Beneficiary or Beneficiaries (other than the Noteholders) in accordance with Clause 19.3 (*Notification, Instruction*).

- 30.2** The Security Trustee shall not be bound to take any action under or in connection with this Transaction Security Agreement or any other Transaction Document or any document executed pursuant to any of them including, without limitation, forming any opinion or employing any agent, unless in all cases, it is fully indemnified or secured or pre-funded to its satisfaction (including under the Post-Enforcement Priority of Payments), and is reasonably satisfied that the Issuer will be able to honour any indemnity in accordance with the Post-Enforcement Priority of Payments as set out in Clause 23.2 hereof, against all liabilities, proceedings, claims and demands to which it may be or become liable and all costs, charges and expenses which may be incurred by it in connection with them for which purpose the Security Trustee may require payment in advance of such liabilities being incurred of an amount which it considers (without prejudice to any further demand) sufficient to indemnify it or security satisfactory to it.

30.3 The obligation of the Issuer to indemnify the Security Trustee (for the avoidance of doubt subject to Clause 44 (*NO LIABILITY AND NO RIGHT TO PETITION AND LIMITATION ON PAYMENTS*)) will survive the termination of this Agreement.

32. RESIGNATION

32.1 Resignation

The Security Trustee may resign from its office as Security Trustee at any time by giving two (2) months prior written notice, provided that upon or prior to the last Business Day of such notice period a reputable accounting firm or financial institution or other suitable service provider which is experienced in the business of Security Trusteeship in the context of securitisations of assets originated in Germany and which has obtained any required authorisations and licences (an "**eligible institution**") has been appointed by the Issuer as successor (the "**New Security Trustee**") and such appointee assumes all rights and obligations arising from this Transaction Security Agreement and each other Transaction Document to which the Security Trustee is a party and which has been furnished with all authorities and powers that have been granted to the Security Trustee. The Security Trustee shall promptly notify in advance and in writing the Issuer and the Rating Agencies of its intention of resignation. The Issuer shall, upon receipt of the written notice of resignation referred to in the first sentence of this Clause 32.1 (*Resignation*), promptly appoint an eligible institution as New Security Trustee. The Security Trustee shall have the right (but no obligation) to nominate a New Security Trustee for appointment by the Issuer. The Issuer shall have the right to veto any nomination of a New Security Trustee by the resigning Security Trustee if such New Security Trustee is not an eligible institution or if any other eligible institution has been appointed by the Issuer to be the New Security Trustee and has accepted such appointment. The proposed appointment of the New Security Trustee shall further be subject to Clauses 32.2 (*Effects of resignation*) and 34.4 (*Notification; publications*) below.

32.2 Effects of resignation

Any termination of the appointment of the Security Trustee shall not become effective unless (i) the Issuer has been liquidated and the proceeds of liquidation distributed to the Beneficiaries in accordance with this Transaction Security Agreement or, if earlier, no obligations under the Transaction Secured Obligations are outstanding, or (ii) a New Security Trustee has been appointed and has accepted such Security Trusteeship (subject to Clause 34.4 (*Notification; publications*) below).

32.3 Continuation of rights and obligations

Notwithstanding a termination pursuant to Clause 32.1 (*Resignation*), the rights and obligations of the Security Trustee under all the Transaction Documents to which it is a party shall continue until the appointment of the New Security Trustee has become effective and the assets and rights have been assigned or transferred to it pursuant to Clause 34.1 (*Transfer of Note Collateral*). 33. REPLACEMENT OF SECURITY TRUSTEE

The Issuer shall be authorised and obliged to replace the Security Trustee under all Transaction Documents to which the Security Trustee is a party with a reputable accounting firm or financial institution (which is experienced in the business of Security Trusteeship in securitisation transactions and which has obtained any required authorisations, registrations and licences), if the Issuer has been so instructed in writing by (i) one or more Class A Noteholders representing at least 25 % of the outstanding Class A Principal Amount, unless Class A Noteholders representing at least 50% of the outstanding Class A Principal Amount instruct the Issuer not to replace the Security Trustee, (ii) if no Class A Notes are outstanding, one or more Class B Noteholders representing at least 25% of the outstanding Class B Principal Amount, unless Class B Noteholders representing at least 50% of the outstanding Class B Principal Amount instruct the Issuer not to replace the Security Trustee or (iii) if no Notes remain outstanding, any Beneficiary or Beneficiaries representing at least 25% of all Beneficiaries to which any amounts are owed, unless Beneficiaries representing at least 50% of all Beneficiaries to which any amounts are owed instruct the Issuer not to replace the Security Trustee. Any replacement of the Security Trustee shall be notified by the Issuer to the Rating Agencies by giving not less than thirty (30) calendar days' notice.

If the Security Trustee fails to assign or transfer the Note Collateral to the New Trustee within a reasonable timeframe, the Issuer shall hereby be irrevocably authorised to effect such assignment, transfer or pledge on behalf of the Security Trustee as set out in the first sentence and is for that purpose exempted to the fullest extent permitted under applicable law from the restrictions under Section 181 of the German Civil Code (*Bürgerliches Gesetzbuch*) and any similar provisions contained in the laws of any other country.

34.2 Assumption of obligations

Subject to the consent of all other parties to the Transaction Documents, in the event of a replacement of the Security Trustee pursuant to Clause 32 (*Resignation*) or Clause 33 (*REPLACEMENT OF SECURITY TRUSTEE*), the Security Trustee shall reach an agreement with the New Security Trustee that the New Security Trustee assumes the obligations of the Security Trustee under each Transaction Document to which the Security Trustee is a party.

34.3 Costs

The costs incurred in connection with replacing the Security Trustee pursuant to Clause 32 (*Resignation*) or Clause 33 (*REPLACEMENT OF SECURITY TRUSTEE*) shall be borne by the Issuer. If such replacement pursuant to Clause 33 (*REPLACEMENT OF SECURITY TRUSTEE*) is due to the conduct of the Security Trustee constituting good cause (*wichtiger Grund*) for termination, the Issuer shall be entitled, without prejudice to any additional rights, to claim damages from the Security Trustee in the amount of such costs, provided that such claim for damages is limited to an amount of EUR 25,000

34.4 Notification; publications

shall take effect and shall be (i) published without delay in accordance with the Terms and Conditions of the Notes or, if this is not possible, in any other appropriate way and (ii) notified by email or facsimile to each Beneficiary other than the Noteholders.

34.5 Accounting

The Security Trustee shall be obliged to account to the New Security Trustee for its activities under or with respect to each Transaction Security Document.

34.6 Transfer of documents and information

The Security Trustee shall be obliged to provide the New Security Trustee with all documents and other information relating its activities under or with respect to each Transaction Security Document as the New Security Trustee may reasonably request.

35. STANDARD OF CARE FOR LIABILITY

The Security Trustee shall be liable for any breach of its obligations under this Transaction Security Agreement only if it fails to meet the standard of care it exercises in its own affairs (*Sorgfalt in eigenen Angelegenheiten*) and only for gross negligence (*grobe Fahrlässigkeit*) or wilful misconduct (*Vorsatz*).

36. GENERAL

36.1 The Security Trustee shall not be liable for: (i) any action or failure to act of the Issuer or of other parties to the Transaction Documents; (ii) the Transaction Documents (including any security interest created thereunder) not being legal, valid, binding or enforceable, or for the fairness of the provisions of the Transaction Documents; and (iii) a loss of documents related to the Note Collateral not attributable to the gross negligence (*grobe Fahrlässigkeit*) or wilful misconduct (*Vorsatz*) of the Security Trustee.

36.2 No obligations or duties of the Security Trustee that are not expressly stated herein shall be implied.

36.4 The Security Trustee may call for and shall be at liberty to accept a certificate signed by any two managing directors of the Issuer as sufficient evidence of any fact or matter or the expediency of any transaction or thing, and to treat such a certificate to the effect that any particular dealing or transaction or step or thing is, in the opinion of the persons so certifying, expedient or proper as sufficient evidence that it is expedient or proper, and the Security Trustee shall not be bound in any such case to call for further evidence or be responsible for any loss or liability that may be caused by acting on any such certificate.

36.5 The Security Trustee shall (save as otherwise expressly provided herein) as regards all the powers, authorities and discretions vested in it by or pursuant to any Transaction Document (including this Transaction Security Agreement) to which the Security Trustee is a party or conferred upon the Security Trustee by operation of law (the exercise of which, as between the Security Trustee and the Beneficiaries, shall be conclusive and binding on the Beneficiaries) have discretion as to the exercise or non-exercise thereof and, provided it shall not have acted in violation of its standard of care as set out in Clause 35 (*STANDARD OF CARE FOR LIABILITY*), the Security Trustee shall not be responsible for any loss, costs, damages, expenses or inconvenience that may result from the exercise or non-exercise thereof.

acts or proceedings of the Security Trustee, shall be conclusive and shall bind the Security Trustee and the Beneficiaries. In particular, the Security Trustee may determine whether or not any event described in this Transaction Security Agreement is, in its opinion, materially prejudicial to the interests of Beneficiaries and if the Security Trustee shall certify that any such event is, in its opinion, materially prejudicial, such certificate shall be conclusive and binding upon the Issuer and the relevant Beneficiaries.

- 36.7** The Security Trustee may determine whether or not a default in the performance by the Issuer of any obligation under the provisions of any Transaction Document is capable of remedy and, if the Security Trustee shall certify that any such default is, in its opinion, not capable of remedy, such certificate shall be conclusive and binding upon the Issuer and the Beneficiaries.

(b) The Issuer acknowledges that communication by way of facsimile and email are not secure and accepts the limitation of liability on the part of the Security Trustee as set out in Clause 41.3(a). The Issuer shall use all reasonable endeavours to ensure that any Instruction transmitted or communicated by it or any Authorised Person to the Security Trustee pursuant to this Transaction Security Agreement is complete and correct.

For the purposes of this Clause 41.3, the following terms shall have the following specific meanings:

"**Authorised Person**" means any person who is designated in writing by the Issuer from time to time to give Instructions to the Security Trustee under the terms of this Transaction Security Agreement.

"**Losses**" means any and all claims, losses, liabilities, damages, costs, expenses and judgments (including legal fees and expenses) sustained by any party to the Transaction Documents or any Noteholder due to the contents contained in any Instruction received by the Security Trustee from any Authorised Person being incomplete or incorrect.

Any such notice referred to under this Clause 41.4 (i) shall be deemed to have been given to all Noteholders on the seventh (7th) calendar day after the day on which such notice was delivered to the ICSDs. Any notice referred to under this Clause 41.4 (ii) shall be deemed to have been given to all Noteholders on the day on which it is made available on the website, provided that if so made available after 4:00 p.m. (Frankfurt time) it shall be deemed to have been given on the immediately following calendar day.

- 42.1** Without prejudice to any other provision hereof, if one or more provisions hereof is or becomes invalid, illegal or unenforceable for any reason in any jurisdiction or with respect to any party, such invalidity, illegality or unenforceability in such jurisdiction or with respect to such party or parties shall not, to the fullest extent permitted by applicable law, render invalid, illegal or unenforceable such provision or provisions in any other jurisdiction or with respect to any other party or parties hereto. Such invalid, illegal or unenforceable provision shall be replaced by the relevant parties with a provision which comes as close as reasonably possible to the commercial intentions of the invalid, illegal or unenforceable provision. In the event of any contractual gaps, that provision shall be considered as agreed upon which most closely approximates the intended commercial purpose hereof.

For the avoidance of doubt and without affecting the generality of the foregoing, it is hereby agreed that any invalidity, illegality or unenforceability of this Transaction Security Agreement shall not be affected by the invalidity, illegality or unenforceability with respect to any provision in any jurisdiction or with respect to any party of any other Transaction Document or amendment agreement thereto in any jurisdiction or with respect to any party or parties shall not affect the validity, legality or enforceability of this Agreement in any jurisdiction and with respect to any party or parties.

- 42.2** The Parties mutually agree to take all measures and actions that become necessary under Clause 42.1 or for other reasons for the continued performance of this Transaction Security Agreement.

43. VARIATIONS, REMEDIES AND WAIVERS

- 43.1** No variation of this Transaction Security Agreement (including to this Clause 43) shall be effective unless it is in writing, unless expressly provided otherwise, and provided that each Rating Agency has been notified in writing of such variation. Waivers of this requirement as to form shall also be made in writing. Any requirement of a written form (*Schriftformerfordernis*) agreed between the parties to this Transaction Security Agreement shall not prevent the parties

from making a reference to any other agreement or document which is not attached as such to this Transaction Security Agreement. The Issuer shall immediately inform the Rating Agencies in writing of any variation of this Transaction Security Agreement.

- 43.2** This Transaction Security Agreement may be amended by the Issuer and the Security Trustee without the consent of the Beneficiaries (but with effect for the Beneficiaries) if such amendments, in the opinion of the Security Trustee, are not materially prejudicial (*wesentlich nachteilig*) to the interests of the Beneficiaries. For that purpose the Security Trustee is hereby irrevocably authorised to execute such amendments for and on behalf of the Beneficiaries and is hereby irrevocably exempted to the fullest extent permitted under applicable law from the restrictions set out in Section 181 of the German Civil Code (*Bürgerliches Gesetzbuch*) and any similar provisions under any applicable law of any other country.
- 43.3** No failure to exercise, nor any delay in exercising, on the part of any party hereto, any right or remedy hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any right or remedy prevent any further or other exercise thereof or the exercise of any other right or remedy.
- 43.4** The rights and remedies herein provided are cumulative and not exclusive of any rights or remedies provided by law or any other Transaction Document.

44. NO LIABILITY AND NO RIGHT TO PETITION AND LIMITATION ON PAYMENTS

- 44.1** No recourse under any obligation, covenant, or agreement of the Issuer contained in this Transaction Security Agreement shall be held against any shareholder, officer, agent or managing director of the Issuer as such, by the enforcement of any obligation (including, for the avoidance of doubt, any obligation arising from false representations under this Transaction Security Agreement (other than by wilful default or gross negligence)) or by any proceeding, by virtue of any statute or otherwise; it being expressly agreed and understood that this Transaction Security Agreement is a corporate obligation of the Issuer and no liability shall attach to or be incurred by the shareholders, officers, agents or managing directors of the Issuer as such, or any of them, under or by reason of any of the obligations, covenants or agreements of such Issuer contained in this Transaction Security Agreement, or implied therefrom, and that any and all personal liability for breaches by the Issuer of any of such obligations, covenants or agreements, either at law or by statute or constitution, of every such shareholder, officer, agent or managing director is hereby expressly waived by the other parties hereto as a condition of and consideration for the execution of this Transaction Security Agreement. The aforementioned limitations shall not release or restrict any liabilities that may arise in case of wilful misconduct or gross negligence of a shareholder, officer, agent or managing director of the Issuer.
- 44.2** Each party (other than the Issuer) hereby agrees with the other parties and the Issuer that it shall not (otherwise than as contemplated in this Transaction Security Agreement or any other Transaction Security Document), until the expiration of two (2) years and one (1) day after all outstanding amounts under the last maturing Note issued by the Issuer have been paid in full:
- (a) take any corporate action or other steps or legal proceedings for the winding-up, administration, examinership, dissolution or re-organisation or for the appointment of a receiver, administrator, examiner, administrative receiver, trustee in bankruptcy, liquidator, sequestrator or similar officer regarding some or all of the revenues and assets of the Issuer; or
 - (b) have any right to take any steps for the purpose of obtaining payment (other than through the enforcement of the Note Collateral) of any amounts payable to it under the Transaction Documents by the Issuer (including, for the avoidance of doubt, any payment obligation arising from false representations under this Transaction Security Agreement) and shall not until such time take any steps to recover any debts or liabilities of any nature whatsoever owing to it by the Issuer.

44.3 Notwithstanding any provision contained in any Transaction Document to the contrary, the Issuer shall not, and shall not be obligated to, pay any amount pursuant to this Transaction Security Agreement unless the Issuer has received funds or has any other future profits (*künftige Gewinne*), remaining liquidation proceeds (*Liquidationsüberschuss*) or other positive balance of net assets (*anderes freies Vermögen*) which may be used to make such payment in accordance with the relevant Pre-Enforcement Priority of Payments. Each party hereto acknowledges that the obligations of the Issuer arising hereunder are limited recourse obligations payable solely from the proceeds of the Note Collateral or any other future profits (*künftige Gewinne*), remaining liquidation proceeds (*Liquidationsüberschuss*) or other positive balance of net assets (*anderes freies Vermögen*) and, following realisation of the Note Collateral and the application of the proceeds thereof in accordance with the Post-Enforcement Priority of Payments set out in Clause 23.2 of this Transaction Security Agreement, any claims of any party to this Transaction Security Agreement against the Issuer (and the obligations of the Issuer) shall be extinguished.

"**Extinguished**" for these purposes means that such claim shall not lapse, but shall be subordinated in accordance with Section 39 para 2 of the German Insolvency Code (*Insolvenzordnung*) to all current and future claims of the other creditors of the Issuer as set out in Section 39 para 1 no 1 to 5 of the German Insolvency Code (*Insolvenzordnung*). Any such claims shall be settled only after all current and future claims of the Issuer's other creditors have been settled if and to the extent the Issuer is in a position to settle such claims using future profits (*künftige Gewinne*), any remaining liquidation proceeds (*Liquidationsüberschuss*) or any positive balance of the net assets (*anderes freies Vermögen*) of the Issuer.

44.4 The provisions of this Clause 44 shall survive the termination of this Transaction Security Agreement.

45. APPLICABLE LAW; PLACE OF PERFORMANCE; JURISDICTION; MISCELLANEOUS

45.1 This Transaction Security Agreement (and any non-contractual obligation arising out of it) shall be governed by, and construed in accordance with, the German law.

45.2 Place of performance for all obligations of all parties is Frankfurt am Main.

45.3 The courts of Frankfurt am Main shall have non-exclusive jurisdiction over disputes arising out of or in connection with this Transaction Security Agreement.

46. CONDITION PRECEDENT

The parties hereto hereby agree that this Transaction Security Agreement and the rights and obligations hereunder shall only become effective upon fulfilment of the condition precedent (*aufschiebende Bedingung*) that, on or about the Closing Date, the Issuer has issued the Notes.

47. REPORTING ENTITY

47.1 The Parties appoint the Originator to act as "reporting entity" pursuant to Article 7(2) of the Securitisation Regulation. The Originator accepts such appointment. In such capacity, the Originator shall fulfil the information requirements pursuant to Article 7 of the Securitisation Regulation.

47.2 For such purpose:

- (a) the Issuer shall deliver to the Seller and the Originator a copy of the Transaction Documents, the Prospectus and any other document or report received in connection with the Transaction, unless the Seller and the Originator already have possession of the respective documents;
- (b) the Servicer shall deliver to the Seller and the Originator the loan level data on a quarterly basis;

- (c) the Servicer shall deliver to the Seller and the Originator the Servicing Report on each Reporting Date; and
- (d) upon the occurrence of an event triggering the existence of any inside information as referred to in Article 7(1)(f) and (g) of the Securitisation Regulation, the Servicer has undertaken to prepare and deliver to the Reporting Entity the Inside Information Report containing such information without undue delay, subject to the timely receipt of all necessary information from the relevant parties.

47.3 The Originator will make available the information required under Article 7(1) of the Securitisation Regulation and set out in points (a), (b), (c) and (d) above on the website of European Data Warehouse (being, as at the date of the Prospectus, www.eurodw.eu). Once a securitisation repository is registered in accordance with Article 10 of the Securitisation Regulation, the Originator will make the information available via such securitisation repository.

OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS

Receivables Purchase Agreement

On the Closing Date, the Issuer will purchase the Initial Receivables from the Seller in accordance with the Receivables Purchase Agreement. The Seller will represent under the Receivables Purchase Agreement, that each Receivable and any part thereof to be sold and assigned to the Issuer meets the eligibility criteria set out in "*DESCRIPTION OF THE PORTFOLIO — APPENDIX C - ELIGIBILITY CRITERIA –Part 1 – Individual Receivable Eligibility Criteria*" herein.

On each Subsequent Selection Date, the Seller will flag - randomly selected - the Additional Receivables which meet the Eligibility Criteria in its systems which it intends to offer for sale, transfer and assignment on the following Subsequent Purchase Date in accordance with the Receivables Purchase Agreement for the relevant Principal Component Purchase Price, subject to the aggregate Outstanding Principal Amount of such Additional Receivables not exceeding the Maximum Receivables Purchase Amount. On each Subsequent Purchase Date during the term of the Revolving Period, the Seller will offer such Additional Receivables for sale to the Issuer and, in such case, the Issuer will be obligated to purchase and acquire such Additional Receivables for purposes of a replenishment, **provided that** that the obligation to pay the Principal Component Purchase Price on such Subsequent Purchase Date can be satisfied in whole (but not in part) by the Issuer by applying the Available Principal Amount in accordance with item second of the Pre-Enforcement Principal Priority of Payments, and provided further that the aggregate Outstanding Principal Amount of such Additional Receivables does not exceed the Maximum Receivables Purchase Amount.

The obligation of the Issuer to pay the purchase price for any Additional Receivables in accordance with the Receivables Purchase Agreement may (to the extent possible) be netted against the obligation of the Seller acting as Servicer under the Servicing Agreement to transfer Available Collections (or, with respect to Deemed Collections, pay Deemed Collections as long as the Seller is identical with the Servicer) to the Issuer on the respective Payment Date falling on the Purchase Date on which the Issuer purchases the relevant Additional Receivables from the Seller. The Seller shall sell and assign only Additional Receivables which are Eligible Receivables and, in addition, following the purchase of such Additional Receivable on a Subsequent Purchase Date, the Portfolio must meet the eligibility criteria for an Eligible Portfolio (and, for the avoidance of doubt, such Additional Receivable shall not be so purchased if, following such purchase, the Portfolio would not meet such eligibility criteria). See "*DESCRIPTION OF THE PORTFOLIO — APPENDIX C - ELIGIBILITY CRITERIA – Part 1 – Individual Receivable Eligibility Criteria*" and "*DESCRIPTION OF THE PORTFOLIO — APPENDIX C - ELIGIBILITY CRITERIA – Part 2 –Portfolio Criteria*".

Any offer of the Seller for the purchase and assignment of Receivables under the Receivables Purchase Agreement shall contain certain relevant information for the purpose of identification of the Receivables. In the offer, the Seller will represent that certain representations and warranties with respect to the relevant Receivable are true and correct on any relevant Purchase Date. Upon acceptance, the Issuer will acquire in respect of the relevant Auto Loan Contracts unrestricted title to any and all outstanding Receivables arising under such Auto Loan Contracts as from the Selection Date immediately preceding the date of the offer, other than any Loan Instalments which have become due prior to such Selection Date, together with all of the Seller's rights, title and interest in the Related Collateral in accordance with the Receivables Purchase Agreement. As a result, the Issuer will obtain the full economic ownership in the Purchased Receivables as from the relevant Selection Date on which such Purchased Receivable has been selected immediately preceding the Purchase Date, including principal and interest, and is free to transfer or otherwise dispose over (*verfügen*) the Purchased Receivables, subject only to the contractual restrictions provided in the relevant Auto Loan Contracts and the contractual agreements underlying the Related Collateral.

If for any reason title to any Purchased Receivable or Related Collateral was not transferred to the Issuer, the Seller, upon receipt of the purchase price and without undue delay, is obliged to take all action necessary to perfect the transfer of title. All losses, costs and expenses which the Issuer incurred or will incur by taking additional measures due to the Purchased Receivables or the Related Collateral not being sold or transferred or only being sold and transferred will be borne by the Seller.

The sale and assignment of the Receivables pursuant to the Receivables Purchase Agreement constitutes a sale without recourse (*regressloser Verkauf wegen Bonitätsrisiken*). This means that the Seller will not bear the risk of the inability of any Debtors to make payment under the relevant Purchased Receivables.

Pursuant to the Receivables Purchase Agreement, the delivery (*Übergabe*) necessary to effect the transfer of title in respect of the Cars (including any subsequently inserted parts in the Cars) and other moveable Related Collateral securing a Purchased Receivable (including any car certificate (*Fahrzeugbrief*), registration certificate part II (*Zulassungsbescheinigung Teil II*) or equivalent document) is replaced by the Seller's assignment to the Issuer of all claims, present or future, to request transfer of possession (*Herausgabeanspruch*) thereof from the relevant third parties holding such possession. In addition, where the Seller holds direct possession of any of the Cars and other moveable Related Collateral, the Issuer is granted constructive possession (*mittelbarer Besitz*) by the Seller in respect thereof.

Deemed Collections

If certain events (see the definition of Deemed Collections in "*APPENDIX A - CERTAIN DEFINITIONS - Deemed Collection*") occur with respect to a Purchased Receivable, the Seller will in certain events be deemed to have received a Deemed Collection in an amount equal to the Adjusted Outstanding Principal Amount of such Purchased Receivable plus any outstanding balance of interest accrued and not paid thereunder (or the affected portion thereof), **provided that**, where such events arise from a breach by the Seller of representations and warranties under the Receivables Purchase Agreement, the Issuer will only be entitled to receive Deemed Collections if such breach has not been remedied by the tenth (10th) Business Day (inclusive) after the Seller has become aware that the respective representations and warranties were inaccurate or incorrect. To this end, the Seller has undertaken to pay to the Issuer such Deemed Collection.

The Servicer will determine the Deemed Collections in respect of Purchased Receivables payable during a relevant Collection Period on the Calculation Date immediately following a relevant Collection Period. Deemed Collections will be paid by the Seller to the Issuer on the Payment Date following the end of the relevant Collection Period in respect of which Deemed Collections have been determined. Upon full receipt of such Deemed Collection in the full amount of the Adjusted Outstanding Principal Amount of such Purchased Receivable plus any outstanding balance of interest accrued and not paid thereunder (or the affected portion thereof), such Purchased Receivable and the relevant Related Collateral (or the affected portion thereof and unless it is extinguished) will be automatically re-assigned or re-transferred to the Seller by the Issuer on the next succeeding Payment Date on a non-recourse or guarantee basis on the part of the Issuer. The costs of such assignment will be borne solely by the Seller.

All amounts corresponding to Deemed Collections will be held by the Seller on trust in the name and for the account of the Issuer until payment is made to the General Collection Account.

Use of Related Collateral

The Issuer has agreed to make use of any Related Collateral only in accordance with the provisions underlying such Related Collateral and the related Auto Loan Contracts.

The Seller will, at its own cost, keep the Related Collateral free of, or release it from, any interference or security rights of third parties and undertake all steps necessary to protect the interest of the Issuer in the Cars.

Taxes and Increased Costs

Pursuant to the Receivables Purchase Agreement, the Seller will pay any stamp duty, registration and other similar taxes to which the Receivables Purchase Agreement or any other Transaction Document or any judgement given in connection therewith may be subject.

In addition, the Seller will pay all taxes levied on the Issuer or other relevant parties involved in the financing of the Issuer (in each case excluding taxes on the net income, profits or net worth of such persons under German law, United States federal or state laws, or any other applicable law) due to the Issuer having entered into the Receivables Purchase Agreement or the Issuer and such other relevant

parties having entered into the Transaction Documents or other agreements relating to the financing of the acquisition by the Issuer of Receivables in accordance with the Receivables Purchase Agreement. Upon demand of the Issuer, the Seller will indemnify the Issuer against any liabilities, costs, claims and expenses which arise from the non-payment or the delayed payment of any such taxes, except for those penalties and interest charges which are attributable to the gross negligence of the Issuer.

All payments to be made by the Seller to the Issuer pursuant to the Receivables Purchase Agreement will be made free and clear of and without deduction for or on account of any tax. The Seller will reimburse the Issuer for any deductions or retentions which may be made on account of any tax. The Seller will have the opportunity and authorisation to raise defences against the relevant payment at the Seller's own costs.

Where the Issuer has received a credit against a relief or remission for, or repayment of, any tax, then if and to the extent that the Issuer determines that such credit, relief, remission or repayment is in respect of the deduction or withholding giving rise to such additional payment or with reference to the liability, expense or loss to which caused such additional payments, the Issuer will, to the extent that it can do so without prejudice to the retention of the amount of such credit, relief, remission or repayment, pay to the Seller such amount as the Issuer will have concluded to be attributable to such deduction or withholding or, as the case may be, such liability, expense or loss, **provided that** the Issuer will not be obliged to make any such payment until it is, in its sole opinion, satisfied that its tax affairs for its tax year in respect of which such credit, relief, remission or repayment was obtained have been finally settled.

Notification of Assignment

The Debtors and other relevant debtors will only be notified by the Seller in respect of the assignment of the Purchased Receivables and Related Collateral upon request by the Issuer following the occurrence of a Notification Event or whenever it is necessary to protect the Issuer's justified interests. Where any Debtor is either a military person, a civil servant, a clergyman or a teacher at a public teaching institution and has assigned its rights and claims to wages and social security benefits (to the extent legally possible) to the Seller as part of the Related Collateral, the Seller will, upon request by the Issuer following the occurrence of a Notification Event or if it becomes necessary to protect the Issuer's justified interests, notify such Debtor's employer of such assignment by way of a notarial deed as required under Section 411 of the German Civil Code (*Bürgerliches Gesetzbuch*). Should the Seller fail to notify the Debtors and the other relevant debtors within five (5) Business Days of such request, the Issuer may, at the Seller's costs, notify the Debtors and other relevant debtors of the assignment of the Purchased Receivables and the Related Collateral itself. Without prejudice to the foregoing, under the Servicing Agreement the Issuer is entitled to notify by itself or through any agent or require the Servicer to notify the Debtors, of the assignment if a Notification Event has occurred or whenever it is necessary to protect the Issuer's justified interests. If the Issuer has to undertake the notification by way of notarial deed, the notarization costs will be borne by the Seller.

Upon notification, the Debtors will be notified to make all payments to the Issuer to the General Collection Account in order to obtain valid discharge of their payment obligations.

Each of the following constitutes "**Notification Events**" pursuant to the Receivables Purchase Agreement:

1. the Seller or the Servicer fails to make a payment due under or with respect to the Servicing Agreement at the latest on the second (2nd) Business Day after its due date, or, in the event no due date has been determined, within three (3) Business Days after the demand for payment;
2. the Seller or the Servicer fails within five (5) Business Days to perform its material obligations (other than those referred to in paragraph 1 above) owed to the Issuer under or with respect to the Servicing Agreement;
3. either of the Seller or the Servicer is in breach of any of the covenants in relation to, *inter alia*, financial reporting, conduct of business, compliance with laws, rules, regulations, judgements, furnishing of information and inspection and keeping of records, tax, software and banking licenses, prolongation or supplementation of Purchased Receivables, change of business policy,

sales and liens as set out in the Receivables Purchase Agreement or any of the covenants set out in the Servicing Agreement;

4. the Seller or the Servicer is in material breach of the Credit and Collection Policy;
5. a Seller Event of Default; or
6. a Servicer Termination Event.

Instalment of new parts or replacement parts in Cars

If, after transfer of title to any Car to the Issuer, any new parts or any new replacement parts are installed into such Car and the Seller acquires title to or a co-ownership interest in such parts, the Seller will transfer such title or co-ownership interest by way of security to the Issuer and the Issuer will not be obliged to make any further payments in respect of such parts.

Clean-up Call

As from any Payment Date on or following which the Aggregate Outstanding Principal Amount has been reduced to 10% of the highest Aggregate Outstanding Principal Amount during the Revolving Period, the Seller will have the right to repurchase from the Issuer all outstanding Purchased Receivables together with any Related Collateral on any Payment Date.

Such resale and retransfer would occur on the Early Redemption Date at the cost of the Seller causing the early redemption of the Notes. See "*TERMS AND CONDITIONS OF THE NOTES — Replenishment and Redemption — Early Redemption*". The Seller may not demand any partial resale of Purchased Receivables. Such resale and retransfer would be for a repurchase price in an amount equal to the Aggregate Outstanding Principal Amount on the Early Redemption Date plus any interest accrued but unpaid on all Purchased Receivables which are not Defaulted Receivables as at such time and without any recourse against, or warranty or guarantee of, the Issuer. The repurchase and early redemption of the transaction will be excluded if the repurchase price determined by the Seller is not sufficient to fully satisfy the obligations of the Issuer under the Class A Notes together with all amounts ranking prior to the Class A Notes according to the relevant Pre-Enforcement Priority of Payments. The Issuer will retransfer the Purchased Receivables (together with any Related Collateral) at the cost of the Seller to the Seller upon receipt (*Zug um Zug*) of the full repurchase price and all other payments owed by the Seller or the Servicer under the Receivables Purchase Agreement, the Servicing Agreement or the Data Trust Agreement.

The Issuer shall assist the Servicer in exercising all rights and legal remedies from and in relation to the Purchased Receivables and the Related Collateral, as is reasonably necessary. The Servicer shall reimburse the Issuer for any costs and expenses incurred in this regard;

- (v) keep and maintain Records, account books and documents in relation to the Purchased Receivables and the Related Collateral in electronic or paper form in a manner such that it is easily distinguishable from records relating to other receivables or collateral to which the Servicer itself is originator, servicer or depository, or otherwise, and shall identify such Records, account books and documents with contract numbers in order to distinguish them from all other records, account books and documents relating to such other receivables or collateral managed by the Servicer;
 - (vi) keep records for taxation purposes, including for the purposes of value added tax;
 - (vii) hold, subject to the Data Protection Standards and banking secrecy duties, all Records relating to the Purchased Receivables and the Related Collateral in its possession in trust (*treuhänderisch*) for, and to the order of, the Issuer;
 - (viii) assist the Issuer in discharging any Related Collateral in respect of the relevant Purchased Receivable which has been paid;
 - (ix) assist the Issuer's auditors and provide information to them upon request; and
 - (x) prepare and deliver the Servicing Report in accordance with the Servicing Agreement, which shall, *inter alia*, contain updated information with respect to the Portfolio.
- (c) The Servicer shall not initiate, nor propose to any Debtor to enter into a Commercial Renegotiation of the terms of any Auto Loan Contract entered into by such Debtor. To the extent to which the Servicer enters into a Commercial Renegotiation at the initiative of any Debtor with respect to the terms of any Auto Loan Contract entered into by such Debtor, the Servicer shall conduct such Commercial Renegotiation in accordance with the Credit and Collection Policy. If, at any time, the Servicer becomes aware that any Commercial Renegotiation would result in a breach of the Servicer's obligations under the Servicing Agreement (with respect to the relevant Auto Loan Contract the subject of such Commercial Renegotiation or otherwise), the Servicer shall notify the Issuer and the Seller accordingly and the Issuer shall be entitled to receive, on the immediately following Payment Date, Deemed Collections in respect of the respective Purchased Receivables in accordance with the Receivables Purchase Agreement.
- (d) The Servicer shall terminate any Auto Loan Contract underlying a Purchased Receivable in accordance with the Credit and Collection Policy. The Servicer agrees that it shall not agree with any Debtor on any provisions which would restrict such termination rights as compared to the situation currently existing at law and under the standard form contracts used by the Seller for Auto Loan Contracts.
- For the avoidance of doubt and without affecting any other obligation of the Seller or the Servicer to pay damages to the Issuer or to indemnify the Issuer against any amounts, and irrespective of whether such other obligations arise under the Servicing Agreement, the Receivables Purchase Agreement or at law, the Servicer shall pay damages to the Issuer if any Auto Loan Contract is not duly and timely terminated in accordance with the preceding paragraph and the Receivables Purchase Agreement, and, additionally (but without double-counting) shall put the Issuer in the position in which the Issuer would have been in if the Servicer had complied with such obligation to terminate such Auto Loan Contract.
- (e) In the event of an enforcement of any Related Collateral, the Servicer shall enforce such Related Collateral or other existing collateral as soon as possible by taking such measures as it deems necessary in its professional discretion, but always in accordance with the Credit and Collection Policy. The Servicer shall pay to the Issuer the portion of the realisation proceeds which have been applied or are to be applied to Purchased Receivables in accordance with Sections 366 (2), 367 (1) or, with respect to consumers, 497 (3) of the German Civil Code (*Bürgerliches Gesetzbuch*) or to which the Issuer is otherwise entitled pursuant to the Receivables Purchase Agreement.

- (f) The Servicer shall take all necessary steps to secure payment of all sums due from or in connection with a Purchased Receivable or Related Collateral. The Servicer shall enforce all covenants and obligations of the Debtors owed pursuant to the Auto Loan Contracts underlying the Purchased Receivables in the same manner as it generally does in relation to its own receivables and, if applicable, in compliance with the Credit and Collection Policy.

The Servicer shall comply with the Credit and Collection Policy with respect to each Purchased Receivable, the Related Collateral and the related Auto Loan Contracts, unless the Issuer has previously approved such change to or deviation from the Credit and Collection Policy in general or with respect to the collection of a specific Purchased Receivable or Related Collateral and notified the Rating Agencies in respect of such change or deviation.

- (g) The Servicer shall transfer into the General Collection Account all collections in respect of the Purchased Receivables and the Related Collateral received by the Servicer not later than two (2) Business Days following receipt of the collections or as otherwise directed by the Issuer or the Security Trustee (as applicable), subject to the provisions of the Receivables Purchase Agreement. Where a Debtor owes at least another receivable in addition to a Purchased Receivable to the Seller and such Debtor has failed to indicate to which receivable (or to which component relating to such receivable) its payment should be allocated, the Servicer shall allocate such payment in accordance with Sections 366 (2), 367 (1) or, with respect to consumers, 497 (3) of the German Civil Code (*Bürgerliches Gesetzbuch*).
- (h) The Servicer covenants and declares that, pending transfer to the Issuer or the General Collection Account, all Available Collections and other amounts in respect of Purchased Receivables or the Related Collateral which the Servicer otherwise receives and to which the Issuer is entitled or which are to be paid to the Issuer or into the General Collection Account, shall be held by it on trust (*treuhänderisch*) for the Issuer and that it will give directions to the relevant banks in relation to such sums accordingly, subject to the terms of the Servicing Agreement and comply with its duties and obligations thereunder. Immediately after the receipt of such funds, the Servicer shall pay or keep them in accordance with the Servicing Agreement or as otherwise directed by the Issuer or, as relevant, the Security Trustee.
- (i) The Servicer shall keep and maintain, subject to the Data Protection Standards and banking secrecy duties, all necessary information and Records for each individual Purchased Receivable and Related Collateral for the purposes of, in particular, identifying at any time amounts which have been paid by or to any individual Debtor, amounts to be paid by or to any individual Debtor, and the outstanding balance with respect to each Debtor. The Servicer shall give notice to the Issuer, the Security Trustee and the Rating Agencies regarding any material change in its administrative or operating procedures relating to the keeping and maintaining of the Records. Any such material change shall only take effect with the Issuer's prior written consent.
- (j) All payments due under the Servicing Agreement shall be made free of all bank charges and costs for the recipient thereof. Without prejudice to the other provisions of the Servicing Agreement, all payments by any party thereto (other than the Issuer and the Security Trustee) are to be rendered without any deduction or retention due to any set-off or counterclaim; however, if the parties to the Servicing Agreement are under the obligation to make payments under the Servicing Agreement or the Receivables Purchase Agreement in the same currency on the same day, the party owing the higher amount shall pay to the other party the difference between the amounts owed and the payment of such difference will discharge the obligation of the parties hereto to make such payments, **provided that** such payment netting shall be excluded if and to the extent any of such obligations to make payments is disputed in whole or in part by the relevant party.
- (k) All payments to be made by the Servicer to the Issuer shall be made free and clear of and without deduction for or on account of any tax. In the event the Servicer is obliged to render a payment with any deduction or withholding of tax, the Servicer shall reimburse the Issuer in an amount corresponding to such deduction or retention so that the net amount paid to the Issuer corresponds

to the amount to which the Issuer would have been entitled had the deduction or retention not been made.

Any demand which the Issuer makes pursuant to this paragraph (k) must specify the details of the claim for reimbursement and be duly signed by an authorised officer of the Issuer.

The Issuer shall immediately inform the Servicer if the Issuer becomes aware of any circumstances which could reasonably be expected to lead to a claim on the part of the Issuer under this paragraph (k).

The Issuer shall give the Servicer the opportunity and authorisation to raise defences against Debtors (in its own name or in the name of the Issuer, but in any event at the Servicer's own costs (and insofar the Servicer undertakes to reimburse the Issuer and indemnify the Issuer against any costs, expenses and damages which might be incurred by the Issuer because of or within the course of the Servicer taking such action)) against the relevant payment. In the event that the Servicer intends to raise such defences it shall inform the Issuer of such intention and the nature of the defences to be raised by it. Unless the Issuer notifies the Servicer within ten (10) Business Days of receipt of the foregoing notification of the Servicer that it intends to raise defences on its own, the Servicer may proceed with such defences and the Issuer shall provide the Servicer with any information which the Servicer reasonably requests in the context of such defence. The obligation of the Servicer to immediately indemnify or reimburse the Issuer or otherwise make payments to the Issuer in accordance with this paragraph (k) and the Servicing Agreement shall not be affected by the foregoing, in particular the foregoing shall not be interpreted as to give the Servicer any additional time for making payments (*kerne Stundung*).

- (l) The Servicer shall not make any deposit or otherwise credit, or cause or permit to be so deposited or credited, to the General Collection Account cash or cash proceeds other than Available Collections (including Deemed Collections) and other amounts owed to the Issuer under the Servicing Agreement, the Receivables Purchase Agreement or otherwise.

- (vi) inspect and satisfy itself or themselves that the systems are in place, maintained in working order and are capable of providing the information to which it or they are entitled pursuant to the Servicing Agreement or the Receivables Purchase Agreement and which the Servicer has failed to supply within five (5) calendar days of receiving written notice of such failure, or to verify any such information which has been provided and which the Issuer has reason to believe is inaccurate; and

The Servicer has undertaken not to agree with any Debtor to restrict such termination rights and will pay damages to the Issuer if it does not affect due and timely termination.

The Servicer will pay the portion of the enforcement proceeds to the Issuer which have been or are to be applied to the Purchased Receivables or the Issuer is otherwise entitled to in accordance with the Servicing Agreement.

Pursuant to the Servicing Agreement, the Issuer may at any time terminate the appointment of the Servicer and appoint a substitute servicer if a Servicer Termination Event has occurred, and/or notify or require the Servicer to notify the relevant Debtors of the assignment of the Purchased Receivables to the Issuer such that all payments in respect to such Purchased Receivables are to be made to the Issuer or a substitute servicer appointed by the Issuer if a Notification Event has occurred. The Servicer is only entitled to resign as Servicer under the Servicing Agreement for good cause (*aus wichtigem Grund*) and, if the Servicer is the Seller, upon outsourcing of the servicing and collection of the receivables and the related collateral in whole or in part by the Seller to a (direct or indirect) subsidiary of the Seller or of a parent of the Seller where such subsidiary constitutes any related enterprise in accordance with Section 15 of the German Stock Corporation Act (*Aktiengesetz*) in accordance with the Servicing Agreement.

Pursuant to the terms of the Servicing Agreement, Wilmington Trust SP Services (Frankfurt) GmbH has agreed that it will act as back-up servicer facilitator (the "**Back-Up Servicer Facilitator**") and facilitate the appointment of a suitable entity with all necessary facilities available to act as successor servicer and will use reasonable efforts to ensure that such entity enters into a successor servicing agreement, the terms of which are similar to the terms of the Servicing Agreement by negotiating with such entity and the other relevant parties on behalf of the Issuer.

The outgoing Servicer and the Issuer will execute such documents and take such actions as the Issuer may require for the purpose of transferring to the substitute servicer the rights and obligations of the outgoing Servicer, assumption by any substitute servicer of the specific obligations of substitute servicers under the Servicing Agreement and releasing the outgoing Servicer from its future obligations under the Servicing Agreement.

Upon termination of the Servicing Agreement with respect to the Servicer and the appointment of a substitute servicer, the Servicer will transfer to any substitute servicer all Records and any and all related material, documentation and information. Any substitute servicer will have all required licences, authorisations and registrations, in particular, any registrations required under the German Legal Services Act (*Rechtsdienstleistungsgesetz*).

Any termination of the appointment of the Servicer or of a substitute servicer as well as the appointment of any new servicer will be notified by the Issuer to the Rating Agencies, the Security Trustee and the Corporate Administrator and by the Paying Agent, acting on behalf of the Issuer, to the Noteholders in accordance with the Terms and Conditions of the Notes.

Pursuant to the Irish Security Deed, the Issuer has granted a security interest to the Security Trustee in respect of all present and future rights, title, claims and interests which the Issuer is or becomes entitled to from or in relation to the Accounts and all amounts standing to the credit of each Account from time to time.. The Security Trustee will hold such security interest on trust for the Beneficiaries as security for the payment and/or discharge on demand of all monies and liabilities due by the Issuer to the Security Trustee. Such security interest will secure the Transaction Secured Obligations. The Irish Security Deed is governed by the laws of Ireland.

Subordinated Loan Agreement

Pursuant to the Subordinated Loan Agreement, a committed credit facility was made available to the Issuer by the Subordinated Loan Provider. Pursuant to the terms of the Subordinated Loan Agreement, the Issuer has drawn amounts made available thereunder in one single drawdown on or before the Closing Date which have been credited to the General Reserve Account. The Subordinated Loan Provider has also agreed in the Subordinated Loan Agreement not to take any corporate action or any legal proceedings regarding some or all of the Issuer's revenues or assets, and not to have any right to take any steps for the purpose of obtaining payment of any amounts payable to it under the Subordinated Loan Agreement by the Issuer.

Data Trust Agreement

Pursuant to the Data Trust Agreement the Data Trustee will safeguard the Decoding Key (and any updated Decoding Key will be sent to the Data Trustee on each relevant Payment Date) pursuant to which encrypted Personal Data, including, *inter alia*, the names and addresses of the Debtors under the Purchased Receivables and of any third party which has provided security which forms part of the Related Collateral contained in the relevant Encryption File may be decrypted. The Data Trustee will release the Decoding Key to the Issuer, the Security Trustee and any back-up servicer only subject to certain limited events which grant the Issuer the right to notify the Debtors in accordance with the Receivables Purchase Agreement. In the event that Insolvency Proceedings are commenced with respect to the Issuer, the Data Trustee will deliver to the Security Trustee the Decoding Key. If a substitute servicer has been appointed, the Decoding Key will be released to it.

Agency Agreement

Pursuant to the Agency Agreement, the Reporting Agent, the Paying Agent and the Calculation Agent are appointed by the Issuer and each will act as agent of the Issuer to make certain calculations, determinations and to effect payments in respect of the Notes.

The Calculation Agent shall make the required calculations and determinations in respect of the Portfolio as well as the Notes as set out in the Agency Agreement, based on information provided in the Servicing Report (or any additional servicing report) by the Servicer under the Servicing Agreement and any information received from any other party in order to enable the Calculation Agent to perform its services under the Transaction Documents. regarding the envisaged payments to be effected on the immediately following Payment Date and any post-issuance transaction information regarding the performance of the Purchased Receivables and the Notes agreed for inclusion between the Servicer and the Reporting Agent). The Investor Report shall also contain an overview of the retention of the material net economic interest in accordance with the EU Risk Retention Requirements. The Reporting Agent shall make available such Investor Report on its reporting platform by posting it at <https://investorreporting.gbm.hsbc.com/> on any Reporting Date prior to the respective Payment Date to which such Investor Report relates. The Reporting Agent shall make available to the Originator the Annexes XII and XIV of Commission Implementing Regulation (EU) 2020/1225 of 29 October 2019, as amended, supplemented or modified from time to time on any Reporting Date prior to the respective Payment Date to which such Annexes XII and XIV relate. The Reporting Agent shall only be obliged to perform the relevant calculations and prepare the Investor Report after having received the relevant data in a workable format from the Servicer.

The functions, rights and duties of the Paying Agent, the Reporting Agent and the Calculation Agent are set out in the Terms and Conditions of the Notes as well as the Agency Agreement. See "*TERMS AND CONDITIONS OF THE NOTES*".

The Agency Agreement provides that the Issuer may terminate the appointment of any Agent with regard to some or all of its functions with the prior written consent of the Security Trustee upon giving such Agent not less than thirty (30) calendar days' prior notice. Any Agent may at any time resign from its office by giving the Issuer and the Security Trustee not less than thirty (30) calendar days' prior notice, **provided that** at all times there shall be a Paying Agent, a Calculation Agent and a Reporting Agent appointed as long as the Notes are outstanding. Any termination of the appointment of any Agent and any resignation of such Agent shall only become effective upon the appointment by the Issuer with the prior written consent of the Security Trustee of one or more, as the case may be, banks or financial institutions in the required capacity and the giving of prior notice of such appointment to the Noteholders in accordance with the Terms and Conditions of the Notes. The right to termination or resignation for good cause will remain unaffected. If no replacement agent is appointed within twenty (20) calendar days after the receipt of the resignation notice given by the resigning Agent, then such Agent may itself, at the cost of the Issuer, appoint such replacement agent in the name and for the account of the Issuer, by giving (i) prior notice of such appointment to the Noteholders in accordance with the Terms and Conditions of the Notes and (ii) at least thirty (30) calendar days prior notice of such appointment to the Issuer and the Security Trustee.

Each party to the Corporate Administration Agreement may terminate the Corporate Administration Agreement or any part thereof for good cause (*aus wichtigem Grund*) and, if possible, give the other party and the Security Trustee not less than thirty (30) calendar days' prior notice thereof. The Issuer may, with the prior written consent of the Security Trustee, terminate the appointment of the Corporate Administrator under the Corporate Administration Agreement by giving the Corporate Administrator not less than thirty (30) calendar days' prior notice of such termination. The Corporate Administrator may at any time resign from its office by giving the Issuer and the Security Trustee not less than thirty (30) calendar days' prior notice.

Any such resignation shall become effective only upon (i) the appointment by the Issuer, with the prior written consent of the Security Trustee, of another entity (the "**New Corporate Administrator**") and (ii) the giving of prior notice of such appointment to the Noteholders in accordance with Condition 13 (*Form of Notices*) of the Terms and Conditions of the Notes. If the Issuer fails to appoint a New Corporate Administrator within twenty (20) calendar days after receipt of the resignation notice given by the Corporate Administrator in accordance with the Corporate Administration Agreement, then the resigning Corporate Administrator may appoint such New Corporate Administrator in the name and for the account of the Issuer by giving (i) prior notice of such appointment to the Noteholders in accordance with Condition 13 (*Form of Notices*) of the Terms and Conditions of the Notes and (ii) at least fifteen (15) calendar days' prior notice of such appointment to the Issuer and the Security Trustee in accordance with the Corporate Administration Agreement.

In the event that the Corporate Administrator resigns from its office in accordance with the Corporate Administration Agreement without good cause (*ohne wichtigen Grund*) or that the Issuer terminates the appointment of the Corporate Administrator due to its conduct constituting good cause (*wichtiger Grund*) for termination, the Corporate Administrator shall bear all costs and expenses directly associated with the appointment of a New Corporate Administrator (including the costs of all required publications and legal fees, if any).

Upon the termination or resignation of the Corporate Administrator becoming effective, the Corporate Administrator shall deliver to the Issuer, as it shall direct, all books of accounts, papers, records, registers, correspondence and documents in its possession or under its control relating to the affairs of or belonging to the Issuer, any original contracts and/or Transaction Documents, any monies then held by the Corporate Administrator on behalf of the Issuer and any other assets of the Issuer and shall take such further action as the Issuer may reasonably direct.

At any time following the appointment of a New Corporate Administrator in accordance with the terms of the Corporate Administration Agreement, the Corporate Administrator shall:

- (i) provide to the New Corporate Administrator all such information available to the Corporate Administrator as the New Corporate Administrator may reasonably require for the purposes of performing the functions of corporate administrator under the Corporate Administration Agreement;
- (ii) take such further action within its power with regard to the appointment of a New Corporate Administrator as the Issuer or the Security Trustee may reasonably request; and
- (iii) not take any action which would be likely to have a material adverse effect on the ability of the New Corporate Administrator to perform its obligations under the Corporate Administration Agreement.

COMPLIANCE WITH THE SECURITISATION REGULATION

Compliance with the EU Risk Retention Requirements

For the purposes of this Transaction, the Originator confirms to be the entity to fulfil the EU Transparency Requirements. The Originator undertakes vis-à-vis the Arranger that it will retain, as of the Closing Date and thereafter on an on-going basis, a material net economic interest of not less than 5% in accordance with Article 6(3)(a) of the Securitisation Regulation (i.e. "the retention of not less than 5% of the nominal value of each of the tranches sold or transferred to investors", as set out in Article 6(3)(a) of the Securitisation Regulation (the "**Retained Risk**"). As of the Closing Date, such interest will, in accordance with Article 6(3)(a) of the Securitisation Regulation, be retained through the holding of at least 5% of the nominal value of each of the Class A Notes and the Class B Notes. Any change to the manner in which such interest is held will be notified to investors.

For the purposes of this Transaction, the Originator confirms to be the entity to fulfil the EU Transparency Requirements. The Reporting Agent shall assist the Originator to comply with the EU Transparency Requirements.

For this purpose:

- (i) The Reporting Agent shall assist the Originator to comply with the EU Transparency Requirements. The Reporting Agent undertakes to, on a timely basis and upon request by the Originator, prepare the Annexes XII and XIV of Commission Implementing Regulation (EU) 2020/1225 of 29 October 2019, as amended, supplemented or modified from time to time;
- (ii) The Originator shall provide all information in its possession necessary for any reporting obligation to be undertaken by the Reporting Agent on behalf of the Originator in accordance with the Securitisation Regulation, including without limitation, the information required to be disclosed pursuant to Article 7 of the Securitisation Regulation;
- (iii) The Originator shall make available on Bloomberg (www.bloomberg.com) a cash flow model. The Originator shall procure that such cash flow model (i) precisely represents the contractual relationship between the Purchased Receivables and the payments flowing between the Originator, investors in the Notes, other third parties and the Issuer, and (ii) is made available to investors in the Notes before pricing of the Notes and on an ongoing basis and to potential investors in the Notes upon request; and
- (iv) The Originator shall direct in writing the form, consent, method of distribution and frequency of the reporting contemplated in the manner required by the technical standards required under the Securitisation Regulation, which are, in relation to Annexes XII and XIV of Commission Implementing Regulation (EU) 2020/1225 of 29 October 2019, set out in Commission Delegated Regulation (EU) 2020/1224 of 16 October 2019 supplementing Regulation (EU) 2017/2402 of the European Parliament and of the Council and which the Reporting Agent shall follow or, any new standards to the extent such new standards can reasonably be implemented and additional costs (for the implementation and ongoing), if any, are agreed to be reimbursed by the Originator.

The Reporting Agent shall process any such comments; and
 - (b) publish on a monthly basis Investor Reports via <https://investorreporting.gbm.hsbc.com/>.

The information set out above shall be published on the website of the European Data Warehouse at www.eurodw.com, being a website which conforms with the requirements set out in Article 7(2) of the Securitisation Regulation. The Originator shall procure that the Reporting Agent complies with the requirements of the technical standards under the Securitisation Regulation.

The Originator hereby represents and warrants that the information required to be published under Article 7 of the Securitisation Regulation was made available to potential Noteholders prior to the pricing of the Notes through the website of the European Data Warehouse (www.eurodw.com).

Investors to assess compliance; Information

Each prospective investor is required to independently assess and determine the sufficiency of the information described in the preceding two paragraphs for the purposes of complying with Article 5 of the Securitisation Regulation, and none of the Issuer, the Originator (in its capacity as Originator, Seller and Servicer), nor the Arranger makes any representation that the information described above is sufficient in all circumstances for such purposes. In addition, each prospective Noteholder should ensure that it complies with any implementing provisions in respect of Article 5 of the Securitisation Regulation in its relevant jurisdiction.

Prospective investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction, should seek guidance from their regulator.

COMPLIANCE WITH STS REQUIREMENTS

The Transaction is intended to meet the requirements for simple, transparent and standardised nonABCP securitisations provided for by Articles 19 to 22 of the Securitisation Regulation (the "**STS Requirements**").

For such purpose, *inter alia*, external verification according to Article 22(2) of the Securitisation Regulation is expected to be obtained prior to the Closing Date. Such external verification shall include the verification of compliance of the Purchased Receivables with certain Eligibility Criteria and the verification of the fact that the data disclosed in any formal offering document in respect of the Purchased Receivables is accurate.

The compliance of the Transaction with the STS Requirements as of the Closing Date is expected to be verified by STS Verification International GmbH, in its capacity as third party verification agent authorised pursuant to Article 28 of the Securitisation Regulation. No assurance can be provided that the Transaction does or continues to qualify as an STS-securitisation under the Securitisation Regulation at any point in time in the future.

The Originator will notify ESMA that the Transaction meets the STS Requirements in accordance with Article 27 of the Securitisation Regulation and such notification will be available under <https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation>.

As the STS status of the Transaction as described in this Prospectus is not static, investors should verify the current status of the Transaction on the ESMA website. Non-compliance with such status may result in higher capital requirements for investors as an investment in the Notes would not benefit from Articles 260, 262 and 264 of the CRR. Furthermore, non-compliance could result in various administrative sanctions and/or remedial measures being imposed on the Issuer or otherwise payable or reimbursable by the Issuer. As the Transaction Documents do not contemplate the payment or reimbursement by the Issuer of any of such administrative sanctions and/or remedial measures the redemption of the Notes may be adversely affected thereby.

Compliance with the STS Requirements is not a recommendation to buy, sell or hold securities. It is not investment advice whether generally or as defined under Markets in Financial Instruments Directive (2014/65/EU) and it is not a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC).

VERIFICATION BY SVI

STS Verification International GmbH ("**SVI**") has been authorised by the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht) as third party verification agent pursuant to Article 28 of the Securitisation Regulation (Regulation (EU) 2017/2402) (the "**Securitisation Regulation**").

The verification label "verified – STS VERIFICATION INTERNATIONAL" has been officially registered as a trade mark and is licensed to an issuer of securities if the securities meet the requirements for simple, transparent and standardised securitisation as set out in Articles 19 to 22 of the Securitisation Regulation ("**STS Requirements**").

The verification label is issued on the basis of SVI's verification process, which is explained in detail on the SVI website (www.sts-verification-international.com). The verification process is based on the SVI verification manual. It describes the verification process and the individual inspections in detail. The verification manual is authoritative for all parties involved in the verification process and its application ensures an objective and uniform verification of transactions to be verified.

The originator will include in its notification pursuant to Article 27(1) of the Securitisation Regulation a statement that compliance of its securitisation with the STS Requirements has been verified by SVI.

The aim of the Securitisation Regulation is to restart high-quality securitisation markets, and the implementation of a framework for simple, transparent and standardised transactions with corresponding STS criteria shall contribute to this. However, it should be noted that the verification performed by SVI does not affect the liability of such originator or special purpose vehicle in respect of their legal obligations under the Securitisation Regulation. Furthermore, the use of such verification by SVI shall not affect the obligations imposed on institutional investors as set out in Article 5 of the Securitisation Regulation. Notwithstanding verification by SVI which verifies compliance of a securitisation with the STS Requirements, such verification by SVI does not ensure the compliance of a securitisation with the general requirements of the Securitisation Regulation.

SVI has carried out no other investigations or surveys in respect of the issuer or the securities concerned other than as such set out in SVI's final Verification Report and disclaims any responsibility for monitoring continuing compliance with the STS Requirements by the parties concerned or any other aspect of their activities or operations.

Verification by SVI is not a recommendation to buy, sell or hold securities. Investors should therefore not evaluate their investment in securities solely on the basis of this verification.

WEIGHTED AVERAGE LIFE OF NOTES AND ASSUMPTIONS

The expected average life of the Class A Notes and the Class B Notes cannot be predicted as the actual rate at which the Purchased Receivables will be repaid and a number of other relevant factors are unknown, including the amount of any Further Class A Notes and Further Class B Notes issued on a Further Notes Issue Date.

Calculated estimates as to the expected average life of the Class A Notes and the Class B Notes can be made based on certain assumptions. These estimates have certain inherent limitations. No representations are made that such estimates are accurate, that all assumptions relating to such estimates have been considered or stated or that such estimates will be realised. The calculated estimates as to the expected average life of the Class A Notes and the Class B Notes are subject to change should one or more than one of the assumptions (a) to (k) below turn out to be incorrect.

- (g) no liquidation of the Issuer except for the 10% Clean-up Call;
- (h) payments of interest due and payable under the Notes are received on the 25th day of each month, commencing in February 2021;

20.0%	4.09	Feb 24	Aug 26	5.65	Aug 26	Aug 26

The CPR is an assumed annual constant rate of payment of principal not anticipated by the scheduled amortisation of the Portfolio which, when applied monthly, results in the expected portfolio of the Purchased Receivables balance and allows to calculate the monthly prepayment. The Constant Prepayment Rates shown above are purely illustrative and do not represent the full range of possibilities for constant prepayment rates.

The average lives of the Class A Notes and the Class B Notes are subject to factors largely outside of the Issuer's control and consequently no assurance can be given that the assumptions and estimates above will prove in any way to be realistic and they must therefore be viewed with considerable caution.

ASSUMED AMORTISATION OF THE NOTES

Assumed Amortisation of the Notes if Clean-up Call is exercised

The following estimated amortisation scenario is based on (a) the assumptions listed above under "Weighted Average Life of Notes And Assumptions" and (b) for different CPR scenarios. It should be noted that the actual amortisation of the Class A Notes may differ substantially from the amortisation scenario indicated below. The amortisation is calculated on certain monthly payment dates and under the scenario of the constant CPR shown as a percentage of the initial Class A Principal Amount at the Closing Date and rounded at the nearest decimal.

DESCRIPTION OF THE PORTFOLIO

The Portfolio consists of the Purchased Receivables arising under the Auto Loan Contracts and the Related Collateral, originated by the Seller pursuant to the Credit and Collection Policy. See "*APPENDIX D - CREDIT AND COLLECTION POLICY*". The Purchased Receivables included in the Portfolio are derived from a portfolio of loans to retail customers to finance the purchase of Cars and were acquired by the Issuer pursuant to the Receivables Purchase Agreement. The Aggregate Outstanding Principal Amount of the Portfolio as of 20 January 2021 is EUR 499,999,909.63.

The Seller has made, *inter alia*, the following representations and warranties with respect to the Portfolio under the Receivables Purchase Agreement to the Issuer:

- (a) On each Purchase Date any Receivable offered for purchase is an Eligible Receivable.
- (b) All the Auto Loan Contracts are legally valid, binding, enforceable and assignable and that all Auto Loan Contracts were entered into with respect to a Car registered in Germany title to which has been transferred by the relevant Debtor to the Seller as Related Collateral.
- (c) There exists in respect of each Receivable offered for sale and assignment to the Issuer under the Receivables Purchase Agreement the Related Collateral contemplated in the relevant Auto Loan Contract.
- (d) Upon the payment of the purchase price for the Receivables and the Related Collateral on the Purchase Date under the Receivables Purchase Agreement the Issuer will acquire the ownership of each Purchased Receivable assigned on the Purchase Date and the Related Collateral contemplated in the relevant Auto Loan Contract free and clear of any Adverse Claim.
- (e) Neither the Purchased Receivables, the Related Collateral nor the claim for payment of Available Collections by the Servicer and the Seller to the Issuer is collateralised by a security interest in German-situs real property, or rights therein, or in ships, or rights in ships, registered in a German ship registry, or is evidenced by a security, such as a registered or bearer bond.

The Issuer hereby declares that the securitised assets backing the issue have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Notes. However, this is not a guarantee by the Issuer and the Issuer as a special purpose entity has only limited resources available as described under the heading "*RISK FACTORS - Risks relating to the Issuer's business activities and industry*

Limited Resources of the Issuer".

SALE AND PURCHASE OF RECEIVABLES

On the Closing Date, the Issuer will purchase the Initial Receivables from the Seller in accordance with the Receivables Purchase Agreement. The Seller will represent under the Receivables Purchase Agreement, that each Receivable and any part thereof to be sold and assigned to the Issuer meets the eligibility criteria set out in "*DESCRIPTION OF THE PORTFOLIO — APPENDIX C - ELIGIBILITY CRITERIA – Part 1 – Individual Receivable Eligibility Criteria*" herein.

On each Subsequent Selection Date, the Seller will flag the Additional Receivables which meet the Eligibility Criteria in its systems which it intends to offer for sale, transfer and assignment on the following Subsequent Purchase Date in accordance with the Receivables Purchase Agreement for the relevant Principal Component Purchase Price, subject to the aggregate Outstanding Principal Amount of such Additional Receivables not exceeding the Maximum Receivables Purchase Amount. On each Subsequent Purchase Date during the term of the Revolving Period, the Seller will offer such Additional Receivables for sale to the Issuer and, in such case, the Issuer will be obligated to purchase and acquire such Additional Receivables for purposes of a replenishment, **provided that** that the obligation to pay the Principal Component Purchase Price on such Subsequent Purchase Date can be satisfied in whole (but not in part) by the Issuer by applying the Available Principal Amount in accordance with item *second* of the Pre-Enforcement Principal Priority of Payments, and provided further that the aggregate Outstanding Principal Amount of such Additional Receivables does not exceed the Maximum Receivables Purchase Amount.

The obligation of the Issuer to pay the purchase price for any Additional Receivables in accordance with the Receivables Purchase Agreement may (to the extent possible) be netted against the obligation of the Seller acting as Servicer under the Servicing Agreement to transfer Available Collections (or, with respect to Deemed Collections, pay Deemed Collections where the Seller is identical with the Servicer) to the Issuer on the respective Payment Date falling on the Purchase Date on which the Issuer purchases the relevant Additional Receivables from the Seller. The Seller shall sell and assign only Additional Receivables which are Eligible Receivables and, in addition, following the purchase of such Additional Receivable on a Subsequent Purchase Date, the Portfolio must meet the eligibility criteria for an Eligible Portfolio (and, for the avoidance of doubt, such Additional Receivable shall not be so purchased if, following such purchase, the Portfolio would not meet such eligibility criteria). See "*DESCRIPTION OF THE PORTFOLIO — APPENDIX C - ELIGIBILITY CRITERIA – Part 1 – Individual Receivable Eligibility Criteria*" and "*DESCRIPTION OF THE PORTFOLIO — APPENDIX C - ELIGIBILITY CRITERIA – Part 2 –Portfolio Criteria*".

APPENDIX C - ELIGIBILITY CRITERIA

As of the Purchase Date on which any Receivable is purchased, such Receivable must meet the following criteria (the "**Eligibility Criteria**") in order to be eligible for acquisition by the Issuer pursuant to the Receivables Purchase Agreement. The Eligibility Criteria constitute **Appendix C** to the Terms and Conditions of the Notes and form an integral part of the Terms and Conditions of the Notes.

The Eligibility Criteria comprise two parts. Part 1 comprises criteria which must be met by each Receivable on the Purchase Date on which such Receivable is purchased. Part 2 comprises criteria which must be met by the Portfolio following the purchase of any Additional Receivable on the relevant Subsequent Purchase Date on which such Additional Receivable has been purchased (for the avoidance of doubt, taking into account such Additional Receivable). Compliance with the Eligibility Criteria will be checked by the Calculation Agent, with respect to any Determination Date and a Collection Period ending on such Determination Date, on the Calculation Date immediately following such Determination Date on the basis of the Servicing Report (and any additional servicing report) relating to such Collection Period provided to the Calculation Agent by the Servicer prior to such Calculation Date.

Under the Receivables Purchase Agreement the Seller represents and warrants, as at the Closing Date and as at each Purchase Date during the Revolving Period, by way of an independent guarantee within the meaning of Section 311 of the German Civil Code (*Bürgerliches Gesetzbuch*) irrespective of fault (*selbständiges verschuldensunabhängiges Garantieverprechen*) to the Issuer that on the First Purchase Date and, thereafter, on any Subsequent Purchase Date, any Receivable offered for purchase on the relevant Purchase Date is an Eligible Receivable and, in addition, on any Subsequent Purchase Date, the Portfolio meets eligibility criteria for an Eligible Portfolio following the purchase of such Additional Receivable on such Subsequent Purchase Date.

HISTORICAL DATA

The Seller has extracted data on the historical performance of the German auto loan portfolio. The tables below show historical performance data on cumulative gross defaults, for the period from 2009 to 2020. Cumulative recovery rates (as per quarter of default) for the period from 2009 to 2020 are also shown. In addition, historical data on delinquencies and prepayments for the period 2009 to 2020 is provided.

The default data displayed below are in static format and show the cumulative gross defaults incurred for each portfolio of auto loans originated by the Seller in a particular quarter (excluding loans granted to (i) employees of PSA and (ii) Car Dealers), expressed as a percentage of the original principal balance of that portfolio.

The recovery data displayed below are in static format and show the cumulative recoveries for each portfolio of loans, which defaulted in a particular quarter (excluding loans granted to (i) employees of PSA and (ii) Car Dealers, but including the proceeds of the sale of the vehicles and other recoveries), expressed as a percentage of the defaulted balance of that portfolio (as per quarter of default).

The data displayed is in dynamic format and show for each portfolio of loans and for a given quarter the prepayment rate calculated as $1-(1-r)^4$, r being the ratio of the outstanding balance as at the beginning of that quarter of the loans that have prepaid during that quarter to (ii) the outstanding balance of that portfolio as at the beginning of that quarter.

APPENDIX D - CREDIT AND COLLECTION POLICY

The following is a description of the credit and collection principles (such description, the "**Credit and Collection Policy**") which must be complied with in respect of origination and servicing of the Purchased Receivables. The Credit and Collection Policy is set out in Appendix D to the Terms and Conditions of the Notes and forms an integral part of the Terms and Conditions of the Notes.

UNDERWRITING AND MANAGEMENT PROCEDURES

General Information

Description of the Seller's Commercial Network

Distribution for all financial products and services offered by the Seller is done through the Peugeot, Citroën and DS Car Dealers and representatives in Germany. As of 30 November 2020 the dealership network was composed of:

Peugeot:

- approximately 160 dealers with the right to sell new cars (of which 8 are PSA brand subsidiaries)
- approximately 454 representatives with right to repair cars and to sell new cars as an agent for a dealer

Citroën and DS:

- approximately 187 dealers with the right to sell new cars (of which 6 are PSA brand subsidiaries)
- approximately 385 representatives with right to repair cars and to sell new cars as an agent for a dealer

Each dealer and representative has a contract with the car distribution company of Peugeot, Citroën or DS in Germany. Nearly 100% of them cooperate with the Seller in the finance and leasing business for cars.

To facilitate the Seller's product distribution a dedicated sales-force unit covers the Peugeot and Citroën dealer network. Their main task is to visit the dealers and to motivate them to sell the full range of financial services and products offered by the Seller.

All the dealers use the Seller's on-line application template to calculate finance, leasing and service offers for their customers, to print the contract for the customer and to transfer all necessary data for the credit approval to the Seller.

In the origination process of loans, the car dealers always act on behalf of the Seller. For each car financed a separate contract is concluded.

Underwriting and validation of the loan application

Application Process

For a credit application the dealer uses the Seller's on line application template. It configures together with the customer the car, selects the finance product and inputs all customer data. A lot of automatic checks are done by the system during this process. If all data is correct, the data of this application is sent to the Seller.

Underwriting process

The credit assessment of loan applications and approvals is done in the underwriting department of the Seller.

The sequence of the different processes of underwriting is the following:

- The application is treated in the department for credit acceptance. For private customers there is an automatic link to the central German customer credit risk database (Schufa). From this database the Seller gets qualitative information about existing credits, use of credit cards etc. The data coming from Schufa is added to the proposal and then an automatic scoring is done. For the risk analysis of commercial customers, there is an automatic link to a German enterprises credit risk database (Creditreform) and the Seller also gets additional information from inquiry agencies and banks.
- The IT system checks whether the customer is already existing in the Seller's portfolio.
- Based on this information and depending on the results of the scoring system an automatic or manual credit decision is taken for private customers.

An important update took place in November 2012 allowing automatic acceptance for commercial customers too. Manual credit decisions taken by the employees in the acceptance department are always based on written procedures.

When the credit decision is taken, the information is immediately available for the dealer on- line.

The dealer then prints out the contract and the customer signs the contract.

After having registered the car to the customer, the dealer sends the contract including the original car-title to the Seller.

All documents sent to the Seller are checked and the contract is paid out to the dealer.

After validation all data of the contract are transferred to the contract administration system.

Risk assessment

Credit Scoring System

The scoring system has been developed by the Seller together with the risk department of Banque PSA Finance SA. The Seller is using different score cards for private/commercial customers, new/used cars, loans/leasing contracts. The score cards have been developed before 1999 and are continuously improved over the time. The scoring system for private customers is based on many criteria and filters, including certain customer data (profession, date of job beginning, type of housing, income, family status, information of central risk data base (Schufa), period of time since the customer is bank has been a client of the bank, debt ratio and data relating to the financed car (new/used car, car price, downpayment, age of car).

The score cards for private customers have 3 zones: Green, Orange and Red:

Green: If a contract for a private customer is scored "Green", the credit decision is taken automatically by the IT system.

Orange and Red: The credit decision is taken manually by the employees in the department for credit acceptance.

For commercial customers there used to be 4 score zones until November 2012: A, B, C, D (A=Best, D=Worst) and there was no system based automatic credit approval process. Since November 2012 the scoring system for commercial customers has been improved, displaying the same classification like for private customers, Green, Orange and Red, allowing too for automatic acceptance.

The performance of the scoring system is monitored regularly. Eventual changes are based on the results of regular internal risk committees and detailed statistical analysis.

All proposals for modifications are discussed with the expert teams for the scoring systems in Banque PSA Finance SA before final validation.

For the manual credit decision, the level of decision making of the employees in the acceptance department depends on years of experience and their professional skills. All the employees of the department for credit acceptance participate in regular internal and external credit training. Credit demands with a higher risk profile have to be decided by two votes, one from frontoffice (department of credit acceptance) and one from backoffice (department of risk retail).

Loan receivables administration and Collection process

Loan Receivables Administration

The administration of all performing loans until full repayment is performed in the customer service centers.

All contract documents except the original car title are scanned after payout of the contract to the dealer. The original car titles are stored in a separate department.

About 98% of the customers pay their loans by direct debit. The other payments are made by check or bank transfer. Most of the incoming payments are matched automatically. Those which cannot be matched automatically are treated manually the same day.

Early Settlement

A credit contract can be early terminated at any time by paying the full outstanding balance in conformity with European and national regulations according to the following options:

Contracts may be terminated any time without notice period given. The Seller then claims the lesser of a fee and the remaining amount of interest. The fee is either 1% of the outstanding amount, in case the remaining contract period exceeds one year, or 0,5% if it does not.

Subsidies

In order to promote car sales the manufacturer and/or the dealer may subsidise certain auto loans to allow the Seller to offer to the customer an interest rate which is below the Seller's internal interest rate. The payment of the subsidy is always made "up front" to the Seller. If the dealer pays a subsidy, the subsidy amount is deducted from the amount paid out for the loan to the dealer. If the manufacturer pays a subsidy, the subsidy amount is billed by the Seller to the manufacturer at the end of the month in which the contract was paid out. For accounting purposes, the distribution of the subsidies follows the distribution of interest.

Credit Life Insurance

If a contract becomes delinquent by the rejection of direct debit or a non payment of the customer, the contract is treated by the automatic "RAA" process. The customer receives the first reminder letter with the information of the rejection and an automatic second direct debit is made 15 days after the due date. In case of no successes of the 2nd direct debit the process of telephone collection starts. Latest on 61st day unpaid the treatment by the prelitigation team starts and the "official" second reminder is sent. On 75th day unpaid a "pre" termination letter is sent to customer and if no contact possible the case is transfer to the special clerks "field collection" or then to external field collection agencies to find solutions on site with the customer or repossess the car. (latest on 90th day).

If the customer needs a renegotiation of his contract, this is done in the same IT System (EKIP). The decision to make a renegotiation of the contract for unpaid accounts is taken by the employees of the collection department based on the internal procedures and the situation of the customer. Renegotiation can take the form of (i) an extension under the same terms and conditions of the loan (a *payment holiday*) or (ii) a re-write of the loan under different terms and conditions.

In case of repossession of a financed car, the external field collector takes back the car and transfers it to a Peugeot or Citroën car dealer. A report about the condition of the car and its market value is set by an external expert. Then the car is offered to several dealers via an online auction platform to obtain the best price. The minimum price is always the market value estimation of the external expert.

The decision to transfer a contract with a delay of payment less than 150 days according to local German accounting rules principles to the default portfolio is taken by the head of the delinquency department and signed by the responsible managing director. All delinquent contracts with a delay of payment of 150 days or more are transferred to the default portfolio automatically.

Immediately after the transfer to default, the legal department of the Seller will take all necessary measures to recover the default amount.

If deemed appropriate, the Seller may decide to transfer defaulted contracts to specialised external contractors to recover any outstanding amount.

TAXATION IN GERMANY

The following is a general discussion of certain German tax consequences of the acquisition, ownership and disposition of Notes. This discussion does not purport to be a comprehensive description of all tax considerations which may be or will become relevant in the context of the acquisition of Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to any particular issue. This summary is based on the laws of Germany currently in force and as applied on the date of this Prospectus. These laws might be subject to change, possibly also with retroactive or retrospective effect.

This section should be read in conjunction with "*RISK FACTORS—Taxation in the Federal Republic of Germany*" above.

PROSPECTIVE INVESTORS IN THE NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES AND THE RECEIPT OF INTEREST THEREON, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS OF GERMANY AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR CITIZENS.

Income Taxation

Tax

Residents

Payments of interest on the Notes to persons or entities who are tax residents in Germany (i.e., persons or entities whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany) are subject to German personal income tax (*Einkommensteuer*) at the applicable personal income tax rate (plus solidarity surcharge at a rate of 5.5% thereon and church tax, if applicable) or corporate income tax at a tax rate of 15% (plus solidarity surcharge at a rate of 5.5% thereon). Such interest payments may also be subject to trade tax if the Notes form part of the property of a German trade or business. Similarly, if interest claims are disposed of separately (i.e. without the Notes), the proceeds from the disposition are subject to income tax, solidarity surcharge and possibly also trade tax. The same applies to proceeds from the redemption of interest claims if the Note is disposed of separately.

If the Notes are disposed or redeemed, any capital gains arising from the disposition or redemption will also be subject to (corporate) income tax, solidarity surcharge and, **provided that** the Notes form part of a business property, to trade tax. Such capital gains are subject to tax irrespective of any holding period and whether or not the Notes are disposed of (or redeemed) with interest claims.

The taxable interest income and income from a disposition or redemption of interest claims as well as any capital gains from a disposition or redemption of the Notes will qualify as income from private (i.e. non-business) investments and capital gains ("**Private Investment Income**") if the Notes do not form part of a business property. Private Investment Income is generally subject to a flat taxation (*Abgeltungssteuer*) at a rate of 25% plus solidarity surcharge at a rate of 5.5% thereon and church tax, if applicable. The tax basis of such income will be the relevant gross income. Expenses related to Private Investment Income such as financing or administration costs actually incurred in relation with the acquisition or ownership of the Notes will not be deductible. Instead, the total amount of any Private Investment Income of the Noteholder will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for married couples / couples subject to a civil law partnership filing jointly). If the Notes form part of a business property, taxable interest income and income from a disposition or redemption of interest claims as well as any capital gains from a disposition or redemption of the Notes will qualify as business income. Such business income will either be taxed at the applicable income tax rate of the individual taxpayer or at the uniform 15% corporate income tax rate if the Note is held by a corporation, in each case plus solidarity surcharge at a rate of 5.5% thereon and possibly also trade tax. The basis of such taxation will generally be the relevant net income. A lump sum deduction will not be available.

The tax will be levied by way of withholding at a rate of 25% (plus solidarity surcharge) if the Notes are held in a custodial account which the Noteholder maintains with a German branch of a German or non-German bank or financial services institution, a security trading enterprise (*Wertpapierhandelsunternehmen*) or a German security trading bank (*Wertpapierhandelsbank*) (the "**Disbursing Agent**"). If the Notes are kept in a custodial account which the Noteholder maintains with a Disbursing Agent but have not been kept in such an account since their acquisition and the relevant acquisition data (*Anschaffungsdaten*) has not been evidenced to the satisfaction of the Disbursing Agent, the Disbursing Agent will generally have to withhold tax at the 25% rate (plus solidarity surcharge) on a lump-sum basis of 30% of the proceeds from the disposition, assignment or redemption of the Notes. If the Notes are not held in a custodial account with a Disbursing Agent at the time the interest is received or at the time of the relevant disposition or redemption, no tax will be withheld but the Noteholder will have to include its income on the Notes in its tax return and the tax will be collected by way of assessment (for the applicable tax rates see above).

No withholding tax will in general be levied if the Noteholder is an individual (i) who has filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent and (ii) whose Note neither forms part of the property of a trade or business nor gives rise to income from the letting and leasing of property. However, this is the case only to the extent the interest income derived from the Note together with other Private Investment Income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Noteholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office.

Payment of the withholding tax with respect to Private Investment Income (such as interest income from the Notes, income from a separate disposition or redemption of interest claims as well as any capital gains from a disposition or redemption of the Notes) will satisfy the income tax liability of the Noteholder in respect of the relevant income (*Abgeltungssteuer*). However, Noteholders may apply for a tax assessment (in lieu of the flat taxation) if the resulting income tax burden (excluding the solidarity surcharge) is lower than 25%; the non-deductibility of income-related expenses for Private Investment Income is also applicable under the income tax assessment. Where, however, the relevant income qualifies as business income, the withholding tax and the solidarity surcharge thereon are credited as prepayments against the German individual or corporate income tax and the solidarity surcharge liability of the Noteholder determined on the basis of general rules applicable to them. Amounts overwithheld will entitle the Noteholder to a refund, based on an assessment to tax.

For Disbursing Agents, an electronic information system as regards church withholding tax applies with the effect that church tax will be collected by the Disbursing Agent by way of withholding unless the Noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*). In case of a blocking notice the Noteholder is obliged to include the Private Investment Income for church tax purposes in its tax return.

Non-Residents

Interest income from the Notes, income from a separate disposition or redemption of interest claims as well as any capital gains from a disposition or redemption of the Notes derived by persons not resident in Germany are not subject to German taxation, unless (i) the Notes form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Noteholder or (ii) the interest income otherwise constitutes German source income. In the case of (i) the applicable tax regime is similar to the regime explained in the preceding sub-section "*Tax Residents*" with regard to business income.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and the solidarity surcharge thereon. However, where the interest is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent, withholding tax is levied as explained above in the preceding sub-section "*Tax Residents*".

The withholding tax may be refunded based upon an applicable tax treaty.

Potential change in law

Please note that - pursuant to the coalition agreement of CDU, CSU and SPD - the flat tax regime shall be abolished for certain investment income, which might also affect the taxation of income from the Notes. For example, interest income (if the Notes were recharacterised as profit participating loans or as a silent partnership) might become taxed at the progressive tax rate of up to 45% (excluding solidarity surcharge).

Although the solidarity surcharge will generally be abolished from the year 2021 on **provided that** certain thresholds are not exceeded, the solidarity surcharge will remain unaltered with respect to corporate income tax.

Inheritance and Gift Tax

Inheritance tax (*Erbschaftsteuer*) or gift tax (*Schenkungssteuer*) with respect to the Notes will not arise under the laws of Germany, if, in the case of inheritance tax, neither the descendant nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates, i.e. citizens who maintained a relevant residence in Germany.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net wealth tax is not levied in Germany.

Common Reporting Standard

The Organisation for Economic Co-operation and Development has developed a new global standard for the annual automatic exchange of financial information between tax authorities (the "CRS"). Germany is a signatory jurisdiction to the CRS and intends to conduct its first exchange of information with tax authorities of other signatory jurisdictions in September 2017, as regards reportable financial information gathered in relation to fiscal year 2016.

The CRS has been implemented into German domestic law via the law dated 21 December 2015 concerning the automatic exchange of information on financial accounts and tax matters and implementing the EU Directive 2014/107/EU.

The regulation may impose obligations on the Issuer and its shareholder / Noteholders, if the Issuer is actually regarded as a reporting financial institution under the CRS, so that the latter could be required to conduct due diligence and obtain (among other things) confirmation of the tax residency (through the issuance of self-certifications forms by the shareholder / Noteholders), tax identification number and CRS classification of the shareholder / Noteholders in order to fulfil its own legal obligations from 1 January 2016.

PSA Bank Deutschland has agreed, subject to certain conditions, to subscribe for the Class B Notes to be on-sold to the Seller on the Closing Date and each Further Notes Issue Date. The Issuer has agreed to pay PSA Bank Deutschland a combined management, underwriting and placement commission on the Notes, as agreed between the parties to the Subscription Agreement. The Issuer has further agreed to reimburse PSA Bank Deutschland for certain of its expenses in connection with the issue of the Notes. The Issuer may issue Further Class A Notes and Further Class B Notes on any Further Notes Issue Date in accordance with the terms of a Further Subscription Agreement.

In the Subscription Agreement, the Issuer has made certain representations and warranties in respect of its legal and financial matters.

The Subscription Agreement entitles PSA Bank Deutschland to terminate its obligations thereunder in certain circumstances prior to and/or conditions precedent for payment of the purchase price of the Notes have not been met to the satisfaction of PSA Bank Deutschland. The Issuer has agreed to indemnify PSA Bank Deutschland against certain liabilities in connection with the offer and sale of the Notes.

The Notes offered and sold by the Issuer may not be purchased by any person except for persons that are not "U.S. persons" as defined in the U.S. Risk Retention Rules ("**Risk Retention U.S. Persons**"). Prospective investors should note that, although the definition of "U.S. person" in the U.S. Risk Retention Rules is very similar to the definition of "U.S. person" in Regulation S, there are substantial differences between the two definitions and that persons who are not "U.S. Persons" under Regulation S may be "U.S. Persons" under the U.S. Risk Retention Rules. Under the U.S. Risk Retention Rules, and subject to limited exceptions, "U.S. person" means any of the following:

- Any natural person resident in the United States;
- Any partnership, corporation, limited liability company, or other organization or entity organized or incorporated under the laws of any State or of the United States;
- Any estate of which any executor or administrator is a U.S. person (as defined under any other clause of this definition);
- Any trust of which any trustee is a U.S. person (as defined under any other clause of this definition);
- Any agency or branch of a foreign entity located in the United States;
- Any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as defined under any other clause of this definition);
- Any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated, or (if an individual) resident in the United States; and
- Any partnership, corporation, limited liability company, or other organization or entity if:
 - 1) Organized or incorporated under the laws of any foreign jurisdiction; and
 - 2) Formed by a U.S. person (as defined under any other clause of this definition) principally for the purpose of investing in securities not registered under the Securities Act

The material difference between the definition of "U.S. person" under the U.S. Risk Retention Rules and the definition of "U.S. person" under Regulation S is that (1) a "U.S. person" under Regulation S includes any partnership or corporation that is organized or incorporated under the laws of any foreign jurisdiction formed by one or more "U.S. persons" (as defined in Regulation S) principally for the purpose of investing in securities that are otherwise offered within the United States pursuant to an applicable exemption under the Securities Act unless it is organized or incorporated and owned by accredited investors (as defined in Rule 501(a) of Regulation D under the Securities Act) who are not natural persons, estates or trusts, while (2) any organization or entity described in (1) is treated as a "U.S. person" under the U.S. Risk Retention Rules, regardless of whether it is so organized and owned by accredited investors (as defined in Rule 501(a) of Regulation D under the Securities Act) who are not natural persons, estates or trusts.

Each prospective investor in Notes, including beneficial interests therein, will be deemed, and in certain circumstances will be required (including as a condition to accessing or otherwise obtaining a copy of this proposal or any other offering materials relating to the Notes), to have made certain representations and agreements, including that it (1) is not a Risk Retention U.S. Person; (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules (including acquiring such Note through a non-Risk Retention U.S. Person, rather than a Risk Retention U.S. Person, as part of a scheme to evade the 10% Risk Retention U.S. Person limitation in the exemption provided for in Section 20 of the U.S. Risk Retention Rules).

Each prospective investor in Notes will be required to make these representations as a condition to accessing or otherwise obtaining a copy of the Prospectus, Prospectus or any other offering materials relating to the Notes and PSA Bank Deutschland, the Issuer and the Seller will rely on these representations.

Selling Restrictions

1. GENERAL

All applicable laws and regulations must be observed in any jurisdiction in which the Notes may be offered, sold or delivered, to the best of the Seller's and the Noteholder's knowledge and belief. The Seller and the Noteholder agree that they will not, directly or indirectly offer, sell or deliver any of the Notes or distribute the Prospectus, the preliminary Prospectus or any other offering material relating to the Notes, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof, to the best of the Seller's and the Noteholder's knowledge and belief and they will not impose any obligations on the Issuer except as set out in the Subscription Agreement.

Notwithstanding the foregoing the Seller and the Noteholder will not have any liability to the Issuer for compliance by the Issuer or any other person with the U.S. Risk Retention Rules except to the extent that the Seller and the Noteholder may be liable to the Issuer due to the Seller's or the Noteholder's failure to comply with the procedures described in the Subscription Agreement.

The Seller and the Noteholder have represented and agreed that they have not offered or sold, and will not offer or sell, any Note constituting part of its allotment within the United States except in accordance with Rule 903 under Regulation S under the Securities Act. Accordingly, the Seller and the Noteholder have further represented and agreed that neither they, their respective affiliates nor any persons acting on their behalf have engaged or will engage in any directed selling efforts with respect to any Note.

In addition, before forty (40) calendar days after commencement of the offering, an offer or sale of Notes within the United States by a dealer or other person that is not participating in the offering may violate the registration requirements of the Securities Act.

The Seller and the Noteholder have (i) acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act; (ii) represented and agreed that it has not offered, sold or delivered any Notes, and will not offer, sell or deliver any Notes, (x) as part of its distribution at any time or (y) otherwise before forty (40) calendar days after the later of the commencement of the offering and the issue date, except in accordance with Rule 903 under Regulation S under the Securities Act; and accordingly, (iii) further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and they have complied and will comply with the offering restrictions requirements of Regulation S under the Securities Act, and (iv) also agreed that, at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The securities covered hereby have not been registered and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903 (b)(2) (iii) (x) as part of their distribution at any time or (y) otherwise until forty (40) calendar days after the later of the commencement of the offering and the issue date (the "**Distribution Compliance Period**"), except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meaning given to them in Regulation S under the Securities Act."

Terms used in this clause have the meaning given to them in Regulation S under the Securities Act.

The Notes will be issued in accordance with the provisions of United States Treasury Regulation section 1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form as the TEFRA D Rules, as applicable, for purposes of Section 4701 of the U.S. Internal Revenue Code) (the "**TEFRA D Rules**").

- (2) Further, each of the Seller and the Noteholders represents and agrees that:
- (a) except to the extent permitted under the TEFRA D Rules, (i) it has not offered or sold, and during the restricted period will not offer or sell, directly or indirectly, Notes in bearer form to a person who is within the United States or its possessions or to a United States person, and (ii) it has not delivered and will not deliver, directly or indirectly, within the United States or its possessions definitive Notes in bearer form that are sold during the restricted period;
 - (b) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes in bearer form are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the TEFRA D Rules;
 - (c) if it is considered a United States person, that it is acquiring the Notes for purposes of resale in connection with their original issuance and agrees that if it retains Notes in bearer form for its own account, it will only do so in accordance with the requirements

of United States Treasury Regulation section 1.163-5 (c)(2)(i)(D)(6) (or successor rules in substantially the same form);

- (d) with respect to each affiliate that acquires from it Notes in bearer form for the purpose of offering or selling such Notes during the restricted period that it will either (i) repeat and confirm the representations and agreements contained in sub-clauses (a), (b) and (c) on such affiliate's behalf; or (ii) agrees that it will obtain from such affiliate for the benefit of the investor in the Notes and Issuer the representations and agreements contained in sub-clauses (a), (b) and (c) above; and
